Dear Florida Public Service Commissioners,

I am a Florida Power & Light (FPL) customer, and I am asking you to oppose the largest rate request increase in U.S. History. This excessive hike would place an unfair burden on customers, particularly low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

At date no one is discussing equitable pay adjustments due to the rising cost for housing, healthcare, and everyday essentials. In consideration, there is no tradeoff for this significant increase in an electric utility bill. FPL appears to have significantly higher rates than the surrounding area utility companies, Jacksonville Electric Authority and Clay County Cooperative. Therefore, it appears FPL is already a highly profitable company, and increasing rates is greed, not profit.

I pray that you consider your constituents and reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

C Y BROWN-GRIFFIN MCLIN
