To the Florida Public Service Commission:

I am writing regarding Docket Number 20250011-EI.

I strongly oppose FPL's proposed rate increase. If approved, it would become the largest rate increase in US history, and their profit margins would be among the highest in the nation. This is unacceptable, especially for those of us in the Panhandle who do not have a choice of power provider.

Monopoly utilities should not be making excessive profits at the expense of Florida families and businesses that are already struggling to make ends meet. For Panhandle customers, this historic rate hike request is on top of a 64% increase from 2020 to 2023, which occurred after FPL acquired Gulf Power. Additionally, we are still being charged a Hurricane Recovery Fee.

I urge the Commission to reject this unreasonable and harmful rate increase request.

Thank you for your attention to this matter.

Sincerely,

Jerod Salter
