SUBJECT: Petition for rate increase by Florida Power & Light Company Florida Power and Light has been exceptional in providing professional service, information, and education. As a Floridian, electricity is an important matter in my day-to-day routine, but also during rain events, storms, and hurricanes. I have seen and heard of others in the State of Florida and other states as well, who pay more for their electricity and unfortunately don't have the reliability in service that we do a FPL customers. I have always been willing to pay more for a good or service if the value is beneficial, measurable, and durable. I support paying a bit more to

FPL, as I know they are trustworthy and continue to provide valuable service. FPL has also provided an easy and informative way for me to keep track of my electric consumption. Quality is always worth paying a bit more for. Docket# 20250011
