Subject: Do NOT approve the the proposed FPL rate increase

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear sir/Madam;

As a long time resident in the state of Florida and an FPL consumer, I urge you to reject the \$9.8 billion rate increase that FPL is asking for. It is excessive, it is not about reliability, it is not about infrastructure, it about raking in higher profits.

In its petition to the PSC, FPL says if its proposed rate increases are approved it will earn a return on equity of 11.9%. The national average is 9.5%. But what about the millions of FPL customers who are experiencing rising costs on all consumer products due to sky high tariffs and are already struggling to to put bread on the table? This increase will be an unjustifiable additional burden, and for many will be straw that broke the camel's back.

The Public Service Commission's mission is suppose to be to maintain the viability of utilities while protecting the public from the excesses that monopolies tend to crave. Members of the PSC do your job and protect us from the this profit hungry utility and reject the \$9.8 billion rate increase.

Sincerely,

Turner Cathey Miami, FL 33126

When the righteous thrive, the people rejoice; when the wicked rule, the people groan. Proverbs 29:2
