-docket #2025-0011

To Whom It May Concern,

I am writing as a Florida resident to express my support for Florida Power & Light's rate request. In my personal experience, FPL has provided consistently reliable service, even during challenging weather conditions. Outages in my area have been rare, and when they do occur, FPL communicates promptly and resolves them quickly—often faster than expected.

FPL's investments in modernizing the grid and hardening infrastructure have been evident. After major storms, power restoration has been faster than what I experienced years ago, and proactive alerts have kept me informed. Their customer service has also been responsive and helpful when I have had questions about my account or energy usage.

I understand that rate adjustments are necessary to maintain and upgrade critical infrastructure, invest in cleaner energy sources, and ensure continued reliability for a growing population. I believe this rate request supports long-term stability and resiliency in Florida's power supply.

Thank you for considering my comments.

Sincerely,

Liane Sippin
