To Whom It May Concern:

I am writing to you today to share my positive experience as a residential customer of Florida Power and Light (FPL).

I have lived in other parts of the country and in other areas of Florida (not served by FPL) and I can say definitively that FPL's overall value, reliability, storm recovery, and customer service are far superior to other utility companies.

I have seen in the news that FPL is currently seeking a significant rate increase and while no one enjoys paying higher rates, I feel that the investments FPL has made in the past (and continues to make) is worth the increase. I am especially pleased to see the growth of solar and other clean energy solutions. I have two daughters and I want to see them enjoy a better, cleaner environment than previous generations!

Sincerely,
Christine Velizaroff
North Palm Beach, FL
