**Subject:** FPL Rate Increase Case

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I would like to register my opposition to the current FPL rate increase request case. FPL has had ongoing rate increases that have effected consumer electric cost rates since taking over Gulf Power Co. It is my belief FPL should use cash on hand or obtain bank financing for their infrastucture projects as is done by any other business. I view these projects as a cost of doing business. Judging by current news reports the expected cost increase for electricity from the current rate increase case represents a nearly 10% annual increase to me personally as well as most all other NW FL consumers.

Thank you,  
Lincoln Cox
