### Subject

Huge energy rate increases

### Message

Early to mid this year, 2025, I noticed a huge increase in the cost of electricity per kwh. The amount of increase equates to approximately 30 percent causing the same energy use to cost anywhere from 80-120 dollars or more per billing period. I contacted my provided, Duke, and also the Florida Public Service Commission and I am unable to get any sort of clear answer or reason for this increase. Energy prices seem to be down since prior years leading to more confusion. Please let me know.
