Florida families are struggling! I have a master's degree and a great job but my car and home insurance and taxes keep rising, along with grocery prices, clothing, etc. I understand prices must increase from time to time but NOW IS NOT THE TIME. PLEASE do not let this happen. They raised them plenty a couple years ago and I guarantee the folks at FPL who would benefit the most from this rate increase have no problems paying their bills. But, the average Floridian is struggling to keep making ends meet each month. I have not had to live with this much financial uncertainty since I was a young college student working part time, over 15 years ago. We are in a serious inflation crisis and every CEO is morr greedy than the next. Please save those of us citizens who are working day in and day out to keep our homes, our children fed and clothed, and maybe if we are lucky, a small family vaca once a year. How many vacations do you think the people asking for this increase take a year? We need prices to stabilize and for our wages to catch up before we raise prices on a necessity for every single floridian in this state!

Thank you
