Good afternoon,

I am writing to urge the commissions to reject the staff recommendations, to not place any burden of the treatment plant upgrades on the current residents of Grenelefe. Instead allow the utility owner, Scott House to recoup the 20 million in upgrades and service fees. Grenelefe and water utilities were left in despair by Westgate Corporation. The current residents have suffered enough. Residents sat through numerous Polk County commissions meetings, where it was agreed that new upgrades would be placed on new home constructions and we ask you to honor those agreements.

Thank you.
