Subject
electric rates and house insurance

Message
Please help with putting a cap on these services, especially Duke Energy who has a monopoly. Rates continue to increase as do their executive salaries and profits. They are currently replacing light poles instead of putting in underground wiring to what looks like perfectly good light poles. During storms, it's usually trees, etc that take down the lines and often the latter pulling down good poles. They raised rates THREE times last year and again in March, 2025. House ins. up by hundreds.
