Subject: RE: Reject the FPL proposed settlement Docket #20250011

Good Afternoon,

We will be placing your comments below in consumer correspondence in Docket 20250011 and forwarding them to the Office of Consumer Assistance.

Sincerely,

Hong Wang

Office of Commission Clerk
Florida Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399-0850

Subject: Reject the FPL proposed settlement Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

I am a residential customer of Florida Power & Light (FPL) and a member of AARP, and I oppose FPL's attempts to raise its rates even higher than they already are. I opposed the increases FPL proposed in February, and I oppose the nearly identical increases FPL has now put forward with its corporate partners in a so-called "Settlement" negotiated in secret. These rates remain excessive and unfair to residential customers.

FPL's claim that this "Settlement" represents residential customers like me and my family is false. No one from FPL ever consulted us, asked for our input, or received our consent to speak on our behalf. Instead, FPL chose to ignore the voices of ordinary Floridians who have already expressed strong opposition to these increases.

My family and I call on the Public Service Commission to reject these secret deals cut with

large industrial and commercial interests and to hold FPL accountable.

Enough is enough — protect residential customers from corporate greed and unjustified rate hikes.

My wife and I moved to Florida last December from Connecticut. I thought that Florida being a “free state” as some put it - at least from a government control perspective that there would be far less political influence in industry, particularly the utilities. In Connecticut, our electric bill skyrocketed over the last few years, and in my opinion was the death knell in the coffin which decided whether we would move out of that state or not. We are both retirees. Connecticut became unaffordable for us and Florida was the next best alternative - so we thought. It's inconceivable to me that electric rates should go up since (at least in Port St. Lucie), we take advantage of nuclear power, which is by far the most reliable and cost-effective in my opinion. Several things have happened recently, which are giving me pause and making me think twice about moving to Florida. Please don't make me move again.

Thank you for your time and consideration.

Sincerely,

james lalime
