Subject: No more raises for FPL – Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

As a Florida resident and consumer, I know the value of my hard-earned money. I also know that the power and light I pay for every month is a lifesaver, especially during these extreme heat waves that are becoming all too common.

Florida Power & Light (FPL) wants to raise my rates by hundreds a year and make working residents like me foot the bill for their profits and executive bonuses. Reporting has shown that 50 cents of every dollar is going to profit, not keeping the power on. Additionally, from March 2024 to February 2025, FPL shut off 1.216 M residential customers for non-payment — about a fifth of all their residential customers.

The Office of Public Counsel—the watchdog for consumers—submitted expert testimony showing FPL is inflating the numbers and should cut rates by \$620 million, not raise them.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Subject: No more raises for FPL – Docket #20250011!

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Florida Power & Light (FPL) wants to raise my rates by hundreds a year and make working residents like me foot the bill for their profits and executive bonuses. Reporting has shown that 50 cents of every dollar is going to profit, not keeping the power on. Additionally, from March 2024 to February 2025, FPL shut off 1.216 M residential customers for non-payment — about a fifth of all their residential customers. This means that there are already citizens that are unable to pay with rates as they are. What does that mean for the next cohort of residents that won't be able to afford their electricity bill?

The Office of Public Counsel—the watchdog for consumers—submitted expert testimony showing FPL is inflating the numbers and should cut rates by \$620 million, not raise them.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Subject: RE: FPL Rate increase request

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hello,

I am writing as a consumer regarding the rate increases FPL has requested. I have watched the debates and the online discussions regarding this request and am writing to urge you to please look carefully at the rate that FPL proposed and especially the second proposal that was written with large businesses in mind. I do not believe the rate increases are warranted nor reflect the best for Floridians including myself and I ask that you reject these rate increases and require a more measured and lower approach.

One of the main things that is overlooked in this is the increase in the minimal cost for connectivity. FPL hates when consumers conserve energy or supply their own, such as solar. To discourage that behavior they are loading up the first 100kWH with excessive fees and rate increases so that even if we conserve energy, they get a large payment from us. This rate increase accelerates that first 100-1000kWH cost increase and punishes those who are working to save money and prefer to control what spending variables they can.

I urge you as commissioners who are supposed to watch out for the welfare of Floridians to reject the proposal and its onerous burden it lays on the connection fee and low-energy users. One option is to increase the rate on the second tier of energy users, who are also more likely to be able to afford it. Make the majority of the rate increase apply to the 1001st kWH and beyond and then FPL can have its money and also encourage large homes and businesses to implement more energy-efficient elements and behavior.

Please let me know your thoughts,
Burt

Subject: Reject Florida Power & Light's Rate Hike

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

I'm a Floridian and I am requesting that you vote NO on FPL's settlement agreement that would raise rates far above the national average.

If the Commission approves FPL's settlement, FPL will have the second highest return on equity in the country. That's a huge burden for Florida families who can barely afford our energy bills as it is.

Please reject FPL's settlement agreement and cap its return on equity to the national average of 9.6%.

I'm counting on you to protect Florida ratepayers.

Thank you for your consideration,

Sincerely,

Mrs. Sandra Sanchez

Additionally, from March 2024 to February 2025, FPL shut off 1.216 M residential customers for non-payment — about a fifth of all their residential customers.

Florida families and small business owners make up the overwhelming majority of FPL's customers—we keep their business running. Now FPL has the audacity to say they "represent us" while excluding us from their backdoor negotiations with corporate buddies like Walmart and Publix.

The Office of Public Counsel—the watchdog for consumers—submitted expert testimony showing FPL is inflating the numbers and should cut rates by \$620 million, not raise them.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.
