Dear Florida Public Service Commission,

I'm a Floridian and I am requesting that you vote NO on FPL's settlement agreement that would raise rates far above the national average.

If the Commission approves FPL's settlement, FPL will have the second highest return on equity in the country. That's a huge burden for Florida families who can barely afford our energy bills as it is.

Please reject FPL's settlement agreement and cap its return on equity to the national average of 9.6%.

I'm counting on you to protect Florida ratepayers.

Thank you for your consideration,

Sincerely,
Mr. Brian O'Sullivan

Dear Florida Public Service Commission,

I'm a Floridian and I am requesting that you vote NO on FPL's settlement agreement that would raise rates far above the national average.

If the Commission approves FPL's settlement, FPL will have the second highest return on equity in the country and one well above the national average. That's a huge burden for Florida families who can barely afford our energy bills as it is.

Please reject FPL's settlement agreement and cap its return on equity to the national average of 9.6% already an absurd return on investment; FL customers do not need to enrich stockholders so much!

I'm counting on you to protect Florida ratepayers.

Dear Florida Public Service Commission,

Any company that has enough money to operate, provide funding for ghost political candidates, fund the attempted takeover of the Jacksonville Electric Authority does not deserve a rate hike. I fear they will use a rate hike to further extort even more money from the rate payors. Do not be complicit!
