Subject
FPL SOLAR PANELS MUST BE STOIPPED

Message
We have been reading up on the FPLs plans to go green (solar) in the state of FL. They want 30 million solar panels by 2030 in the state. Not only do these panels destroy our land and wildlife, the power produced is very expensive, roughly 4 times more than non-renewable power plants. Rising energy cost are hurting seniors and families. This green energy policy is destroying Europe by high and short power supply. EU GDP is down 25% since they enacted. Nuclear energy is the answer-STOP FPL
