**Re: Docket No. 20250011-EI - Petition for rate increase by Florida Power & Light Company**

Dear Mr. Teitzman:

Please find enclosed for filing in the above referenced docket Citizens' Third Motion and Notice of Intent to Seek Official Recognition for Exhibit S (subdivided into Parts 1-6). This filing is being made via the Florida Public Service Commission's web-based electronic filing portal in six separate filings due to the voluminous size of Exhibit S.

This filing includes:

- Citizens' Third Motion and Notice of Intent to Seek Official Recognition
- **Exhibit S, No. 1 of 6**

If you have any questions or concerns, please do not hesitate to contact me. Thank you for your assistance in this matter.

Sincerely,

/s/ Walt Trierweiler

**BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION**

In re: Petition for rate increase by Florida  
Power & Light Company.

DOCKET NO.: 20250011-EI

FILED: September 29, 2025

**THIRD MOTION AND NOTICE OF INTENT TO SEEK OFFICIAL RECOGNITION**

Pursuant to Section 120.569(2)(i), Fla. Stat., Sections 90.201 and 90.202, Fla. Stat., as provided for in Rule 28-106.213(6), Florida Administrative Code (“F.A.C.”), and Paragraph VI(h) of Order No. PSC-2025-0075-PCO-EI, the Citizens of the State of Florida, by and through the Office of Public Counsel (“OPC”), respectfully request the Florida Public Service Commission (“Commission”) take official recognition of Exhibit S (subdivided into Parts 1-6):

Pursuant to Section 90.202(6), Florida Statutes:

**Exhibit S** – All written customer comments filed in Florida Public Service Commission Docket 20250011-EI between and including July 17, 2025, through August 18, 2025.

**Legal Authority**

- 1) Pursuant to Section 120.57(1)(j), Florida Statutes, “[f]indings of fact....shall be based exclusively on the evidence of record and on matters officially recognized.”
- 2) Pursuant to Section 120.569(2)(i), Florida Statutes, and Rule 28-106.213(6), F.A.C., a party may seek official recognition of matters set forth in Sections 90.201-203, Florida Statutes. Rule 28-106.213(6), F.A.C., also states that “[r]equests for official recognition shall be by motion.”
- 3) Section 90.202(6), Florida Statutes, provides that a court may take judicial notice of “[r]ecords of any court of this state or of any court of record of the United States or of any state, territory, or jurisdiction of the United States.”

- 4) To the extent that these customer comments might otherwise be considered hearsay, they are admissible under section 120.57(1)(c), Florida Statutes because they supplement or explain other evidence offered on the affordability and quality of the service FPL provides. Further, these comments by many hardworking and retired FPL customers, often times solicited by the Commission in lieu of live testimony, are also the type of evidence that is of the type commonly relied upon by reasonably prudent persons in the conduct of their affairs. See, section 120.569, Florida Statutes.<sup>1</sup>

### **Argument**

- 5) On July 24, 2025, Citizens filed a Motion and Notice of Intent to Seek Official Recognition of Exhibits A, B, C, D, E, F, G, H, I, J, K, M, and N so that the information contained in these exhibits can be relied upon by the Commission when determining fair, just, and reasonable rates in this docket.
- 6) For the convenience of all the parties, OPC prepared a composite Exhibit J of all written customer comments filed in this docket submitted up to and including July 16, 2025, when OPC had to impose a cutoff due to logistical constraints.
- 7) In that motion, OPC also requested the opportunity to supplement the exhibit notice/motion with all customer comments provided through the closing of the hearing record. OPC respectfully requested that these written customer comments be officially recognized so that the Commission can give each written customer comment the weight that it deserves.
- 8) On July 31, 2025, Citizens filed a Second Motion and Notice of Intent to Seek Official Recognition of Exhibits O, P, Q, and R.

---

<sup>1</sup> See, also related information provided in Paragraph 17 of the July 24, 2025, Citizens filed a Motion and Notice of Intent to Seek Official Recognition, which is incorporated by reference here.

- 9) On August 8, 2025, Florida Power & Light Company (“FPL”) and Joint Movants filed a Notice of Settlement in Principle and Joint Motion to Suspend Schedule and Amend Procedural Order. FPL requested that the Commission suspend the procedural schedule in this docket and issue a supplemental order that allowed for prompt and full review of the forthcoming settlement.
- 10) On August 11, 2025, OPC, Florida Rising, Inc., League of United Latin American Citizens, Environmental Confederation of Southwest Florida, Inc., Floridians Against Increased Rates, Inc., collectively the “Customer Majority Parties”, responded in opposition to the Joint Motion to Suspend Schedule and Amend Procedural Order filed by FPL et al.
- 11) On August 12, 2025, the Commission issued Order No. PSC-2025-0304-PCO-EI, Order Acknowledging Florida Power & Light Company’s Notice of Settlement in Principle, Granting Joint Motion to Suspend Schedule, and Deferring Issuance of Amended Procedural Order. The Commission suspended the proceeding originally scheduled for August 11 – 22, 2025.
- 12) On August 22, 2025, the Commission issued Order No. PSC-2025-0323-PCO-EI, First Order Establishing Procedure, setting the hearing generally from October 6-17, 2025.
- 13) On September 4, 2025, the Commission issued Order No. PSC-2025-0329-PCO-EI, Order Granting in Part and Denying in Part the Office of Public Counsel’s First Motion and Notice of Intent to Seek Official Recognition and Denying Request for Oral Argument. The Prehearing Officer granted the Motion for Official Recognition filed by the OPC as to Exhibits A through F, Exhibits H through L, and Exhibit N.

- 14) On September 4, 2025, the Commission issued Order No. PSC-2025-0333-PCO-EI, Order Granting in Part and Denying in Part the Office of Public Counsel's Second Motion and Notice of Intent to Seek Official Recognition.
- 15) The OPC respectfully requests that all written customer comments filed in the Commission Docket No. 20250011-EI between and including July 17, 2025, through August 18, 2025, be officially recognized so that the Commission can give each written customer comment the proper weight that it deserves. OPC had to again impose a cutoff due to logistical constraints.
- 16) The OPC consulted with counsel for all parties regarding their position on this motion. FPL opposes this motion and will file a response. The League of United Latin American Citizens, Florida Rising, the Environmental Confederation of Southwest Florida, and Floridians Against Increased Rates support this motion. The Florida Energy for Innovation Association, the Florida Industrial Power Users Group, the Southern Alliance for Clean Energy, Walmart, the Fuel Retailers, Federal Executive Agencies, Electrify America, EVgo, and Armstrong World Industries, Inc., take no position. The Florida Retail Federation did not provide a position as of the time of filing this motion.

WHEREFORE, the OPC requests that the Commission grant this Third Motion for Official Recognition of Exhibit S (subdivided into Parts 1-6).

Respectfully submitted this 29<sup>th</sup> day of September, 2025.

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly

base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

RE: Docket No. 20250011-EI

Dear Florida Public Service Commissioners,

I am writing as a daughter of a longtime FPL customer. My father recently passed away, and I wanted to share something he consistently praised about FPL throughout his years as a customer – his remarkably low electric bills! He took tremendous pride in both his energy conservation efforts, and FPL's affordable rates, which were among his key reasons for choosing to remain in Florida. Living independently was important to him, and FPL's reliable, cost effective services supported that independence.

Having moved from Florida over 10 years ago, I now experience firsthand how much higher electric rates can be elsewhere. This personal comparison reinforces what my father always said – FPL truly offers some of the lowest rates in the country.

As an architect deeply involved in the construction industry, I understand that even the most beautifully designed building is meaningless without reliable electrical service to bring it to life. FPL's consistent and dependable service delivery is truly commendable.

For these reasons, our family supports FPL rate adjustment request to be implemented in 2026. We believe that a financially strong and profitable utility company must make strategic investments to benefit future generations and maintain America's energy independence. This is the best country in the world!

Thank you for allowing me this platform to express my comments. We are confident the decision made by your staff will be good for FPL and their entire customer base.

Sincerely,

Ana Cristina Acosta-Figg

**Subject:** Keep FPL Rates Down Docket #20250011

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

LParker Agraftotis

Utility companies need investigations on what they are doing.

### Message

Good morning Mr. DeSantis and thank you for the awesome job you have done so far , I'm a resident of Volusia county in the city of Edgewater. I have lived in this city since 2003 and I've notice that Utilities have been jacking up prices despite gas prices coming down. Fpl has increased their rates exponentially despite them saying its lower \$300. Water the same my comsuption being \$25 but my total bill is \$180 dollars? why? needs to be investigated. We are flooding all over the streets??? help!

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

FPL consistently brags about how they manage and invest in infrastructure to keep bills low now and reduce costs in the future. This rate increase is a money grab and the direct opposite of what they say throughout the year. With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Edward Barry

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the rate increase .As a board member resident residing in a senior development of which the majority of the residents only income is Social Security the hike would place an unfair additional burden on our senior residents. With insurance costs and HOA's continuing to increase another increase such as the one proposed by FPL shouldn't increase and force our seniors to bear another additional cost.

With costs for housing, healthcare, insurance and everyday essentials already high, the last thing we need is a higher electric utility bill. FPL

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

**Subject:** Keep FPL Rates Down Docket #20250011

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Jewel Black

Dear Florida Public Service Commissioners,

Dear Florida Public Service Commissioners,

This FPL rate increase is unconscionable. When will the excessive selfishness be put in check? Please do not allow this increase which can ONLY be attributed to corporate greed. Reasonable profit is to be expected. Excessive profit in this time of hardship for so many people is hideous. People matter more than corporations. Please REJECT this proposal/request.  
Thank you.

**Subject:** Keep FPL Rates Down Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable. What sense does it make to bill customers a minimum charge which is more than the electricity they are using. FPL already got permission to have a minimum charge, and now they are saying that it is not enough. ENOUGH!

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

John Campbell

Dear Florida Public Service Commissioners,

ARE YOU KIDDING ME RIGHT NOW? THEY HAVE RAISED IT MULTIPLE TIMES USING EXCUSES LIKE THEY WERE GOING TO USE IT FOR A SPECIFIC REASON AND DIDNT FOLLOW THROUGH. DID WE GET MONEY BACK? NO! YOU ARE SUPPOSED TO WORK FOR US. ENOUGH! THEY MAKE ENOUGH PROFIT TO LAST MULTIPLE LIFETIMES! CORRUPTION IS SO STANDARD WITH GOVERNMENT NOW ITS DISGUSTING.

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Paul Ciardi

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I am strongly opposed the enormous rate hike requested by FPL.

FPL has a monopoly on power in South Florida. They spend money on advertising! The only reason to do that is to make their customers think highly of them, when in fact they are wasting our money. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits to an even higher level is completely unacceptable.

I urge you to reject FPL's request for a higher monthly base rate and power rate. The PSC must look out for customers ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

FPL had accepted years ago that, as a monopoly, they would receive a specific return on their costs.

They continue to return again, and again, to request greater profits.

These are inflationary costs that not only affect Florida consumers directly, but also through everything that Florida companies produce.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Jeffrey Crane

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I keep track of my daily power usage and charges. FPL randomly increases the charge for days that have passed. I believe when the cost of fuel increases, they make it retroactive for the previous days when fuel was cheaper. It's hard to budget your usage when they change the charge for previous days. At times it's been an increase of over 25¢ per day.

Be Excellent to Each Other

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Eli Dolinsky

I am writing to support FPL's rate request to improve infrastructure to bury lines and handle what is sure to be more emergencies. The customer service experience is excellent. The technology used to keep customers up to date is perfect. I would rather have FPL take care of the issues than government.

Thank you for what you do.

Sincerely,

Dear Florida Public Service Commissioners,

As a Florida senior citizen who relies on Social Security to cover all my living and medical expenses, (which I earned by working full-time for 45 years), and LIHEAP to cover my FPL bill, I strongly oppose FPL's largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers I like me, low-income retirees on fixed incomes, who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits can only be characterized as ruthless greed.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates

remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

**Subject:** Keep FPL Rates Down Docket #20250011

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Ute Evangelista

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Nancy Forest

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I absolutely oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes such as myself who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high and getting higher the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable and absolutely ludicrous!

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates

remain fair and affordable for all Floridians subject to FPL whims.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Ronald Fournier

**Subject:** Keep FPL Rates Down Docket #20250011

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration to this very important matter.

Sincerely,

Teresita Grace

July 3, 2025

To:  
Florida Power & Light Company  
P.O. Box 14000  
Juno Beach, FL 33408-0420

Subject: Opposition to Anticipated Rate Hike

Dear Florida Power & Light Company,

I am writing to express my strong opposition to the proposed rate increase. This increase comes at a time when many Floridians are already struggling with the rising cost of living. It is especially troubling when there have been no improvements in service, no industry changes, and no justifiable reason for higher rates.

In my own city, half of the neighborhoods remain without streetlights. This creates unsafe conditions for families, children, and the elderly. The lack of reliable lighting compromises public safety and has not been addressed, even as FPL seeks to increase costs.

It is unfair to ask residents to pay more while receiving less. I urge FPL to withdraw the proposed rate hike and instead focus on restoring services and ensuring every community is safe and properly served.

Sincerely,

Sharon Greene  
West Palm Beach, FL

**Subject:** Keep FPL Rates Down Docket #20250011

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

We are long term Florida Power & Light (FPL) customers. I strongly oppose the large rate increase. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Larry Hecker

To whom it may concern,

I am writing to express my support for the proposed rate increase. I believe that this adjustment is necessary to maintain the quality of service that we have grown accustomed to receiving. I'm sure the rising cost of materials and labor have made it challenging to continue to provide this excellent service. I encourage others to consider this support as well.

Thank you for your attention to this matter.

Daniel Horta

**Subject:** Keep FPL Rates Down Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Patricia Idlette

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Liz Kohler

**Subject:** Keep FPL Rates Down Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Barbara Laverde

**Subject:** Keep FPL Rates Down Docket #20250011

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Ronald Ludwig

**Subject:** FPL Rate Increase

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Public Service Commission:

I am writing to urge you to reject the proposed FPL rate increase. FPL currently has one of the highest rates of return in the industry, and both FPL and NextEra Energy provide their top executives with some of the highest compensation in the industry. Additionally, FPL spends a significant amount on advertising despite holding a monopoly. FPL should better manage its spending and reinvest profits into new infrastructure.

Our current rates in Escambia County, one of Florida's poorest counties with a 15% poverty rate, are already among the highest in the state. This rate increase will significantly impact small businesses, which are already struggling to compete with larger corporations, ultimately leading to job losses and increased poverty in our community.

Please reject this rate increase.

Sincerely,

Nina Mazur  
1510 E De Soto St,  
Pensacola, FL 32501

**Subject:** Keep FPL Rates Down Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Pamela Mazzone

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

As an FPL customer living on a tight budget, I cannot simply say that rate increases are inconsequential or without impact. However, considering the value of the services FPL provides — particularly the consistent and reliable restoration efforts following the frequent summer storms — alongside the broader economic realities of inflation, I understand and acknowledge that a rate increase is both reasonable and justified.

Respectfully sent,

Lindsey McGinnis

**Subject:** FPL Proposed Rate Increases

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear PSC Members:

I'm writing to voice my vehement opposition to a proposed rate increase for Florida Power & Light.

In 2020, my electric bill ranged from \$200 most months to \$350 in extreme temperatures. Since FP&L took over, I've had instances where my bills were higher than \$900 for a single month. It has finally leveled out at around \$600 a month thanks to budget billing and having to adjust our lifestyle and level of comfort in our home, but that amount still varies. Can you imagine going through menopause with the thermostat set at 78 degrees in July? If not, ask your wife, mother, or friend for perspective.

Our modest 1700 s/f home was built in 1974. We've lived here for nearly 30 years and raised four children, all who live in the area with their own families now. We'd love to make some energy-efficient upgrades to our home, but we can't afford it with a power bill that exceeds our mortgage payment!

FP&L is in exclusive control of the supply of electricity that my region can access. That is the very definition of a monopoly, no matter how it's spun by their powerful machine. Please don't allow them to raise our rates to satisfy their already well-above-average profit margins.

Sincerely,

Lara McKnight

2025 JUL -1 AM 10:17  
COMMISSION  
CLERK

Dear Commissioners,

On behalf of the Greater Boca Raton Chamber of Commerce and the vibrant business community of South Palm Beach County, I am writing to express our full support and sincere appreciation for Florida Power & Light Company (FPL).

FPL is more than just a utility provider in our region—they are engaged, accessible, and deeply committed community partners. From small businesses to large employers, nonprofits to neighborhood associations, FPL consistently shows up—not only with reliable service but with meaningful involvement that makes a real difference.

Their leadership is active and visible across our chamber initiatives, economic development programs, and charitable events. Whether supporting local nonprofits, helping residents prepare for storm season, or providing thought leadership on energy resilience and innovation, FPL continues to set the standard for what corporate citizenship looks like.

In an era when accessibility and transparency matter more than ever, FPL is responsive, proactive, and deeply invested in the well-being of South Palm Beach County. Their team engages with our members regularly, answers questions candidly, and offers real solutions for both immediate and long-term needs.

We are proud to count Florida Power & Light as a trusted partner.

Respectfully,

**Troy M. McLellan**  
President and CEO

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

I am a Florida Power & Light (FPL) customer, and I am asking you to oppose the largest rate request increase in U.S. History. This excessive hike would place an unfair burden on customers, particularly low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

At date no one is discussing equitable pay adjustments due to the rising cost for housing, healthcare, and everyday essentials. In consideration, there is no tradeoff for this significant increase in an electric utility bill. FPL appears to have significantly higher rates than the surrounding area utility companies, Jacksonville Electric Authority and Clay County Cooperative. Therefore, it appears FPL is already a highly profitable company, and increasing rates is greed, not profit.

I pray that you consider your constituents and reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Raylene McSally

**Customer Service Department**  
Florida Power & Light Company

Dear Florida Power & Light Team,

I am writing to express my sincere appreciation for the outstanding service we have received from Florida Power & Light. Our experience with your company has consistently been positive, and I felt compelled to let you know how much we value your dedication to your customers.

From the reliability of our power supply to the responsiveness of your customer service team, FPL has exceeded our expectations. Any time we've had questions or needed assistance, your representatives have been knowledgeable, courteous, and prompt. It's clear that FPL prioritizes both efficiency and customer satisfaction.

In an era where good service can often go unnoticed, we want to take a moment to say thank you. Please pass along our gratitude to the entire FPL team. Your hard work and commitment do not go unnoticed, and we are truly grateful to be your customers.

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Susana Montross

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in Florida History. This gigantic hike would place an unfair burden on nearly everyone, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more. I'm a school teacher in Florida, and our pay is one of the lowest teacher pays in the country. Seniors on a fixed income are in even worse shape than me.

With costs for everything already high and getting higher, one of the last things I need is a higher bill for electricity. FPL is already a highly profitable company—and asking customers to pay more to boost corporate profits at this time is really unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize Florida customers over corporate greed and ensure utility rates remain affordable.

Please stand up for Floridians and say NO to this humungous rate increase.

Thank you so very much for your time and consideration.

**Subject:** Keep FPL Rates Down Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Pedro Nevarez

They cheated me out of 16 days service in 2024 when Milton knocked down a tree and took out my meter. I called for months to get it taken care of but no one ever did anything. How can they charge me for 16 days of service when I had no meter on my house? That's over 100.00 dollars they stole from me.

Sincerely,

Cathy Nicholson

Adrian Nuñez  
7902 SW 205 ST  
Cutler Bay, FL 33189  
Docket #2025-0011

To Whom It May Concern,

As a lifelong Florida resident in Miami-Dade County, I have always counted on FPL as a trusted source for utility services, customer service, and continuous improvement. Throughout various moves around the county, FPL has always remained consistent. Through every hurricane season and threatening storms, FPL has always worked around the clock to get services back online. Through iterations of technological improvement and alternative energy sources, FPL is pushing the envelope to stay at the cutting edge of providing utility services.

I support FPL's rate increase to continue the critical improvements that they are doing around my neighborhood and the broader community to continue providing the reliable service that my family has always known.

Thank You,  
Adrian Nuñez

**Subject:** Keep FPL Rates Down Docket #20250011

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Lilliane Parkin
