Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, Florida 32399-0850

**Re: Docket No. 20250011-EI - Petition for rate increase by Florida Power & Light Company**

Dear Mr. Teitzman:

This filing is being made via the Florida Public Service Commission's web-based electronic filing portal in six separate filings due to the voluminous size of Exhibit S filed with Citizens' Third Motion and Notice of Intent to Seek Official Recognition.

This filing is Exhibit S, **No. 2 of 6.**

Please note **Exhibit S** has been divided into six (6) parts due to electronic filing requirements.

If you have any questions or concerns, please do not hesitate to contact me. Thank you for your assistance in this matter.

Sincerely,

/s/ Walt Trierweiler

Walt Trierweiler

Public Counsel

**Subject:** Keep FPL Rates Down Docket #20250011

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Candie Pedersen

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose U.S. History's most significant rate increase. This excessive hike would unfairly burden customers, especially low-income customers and older adults, like myself, on fixed incomes who cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already highly profitable, so asking customers to pay more to boost corporate profits is unacceptable.

I urge you to reject FPL's request for a higher return on equity and an increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure fair and affordable utility rates.

Please stand up for Floridians and say NO to this massive rate hike.

Dear Florida Public Service Commissioners,

At a time when FPL is asking for a rate increase, I am offended seeing their expensive tv commercials that give consumers zero information. What purpose do they serve? They just talk about how good they. Here in South Florida consumers have no choice when it comes to energy providers. Why are customers paying for them to advertise?

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable. They should stop spending money making commercials and buying expensive media instead of raising rates on customers. As I write this letter, an FPL commercial just came on tv!

Please stand up for Floridians and say NO to this rate hike.

Thank you for your time and consideration.

**Subject:** Keep FPL Rates Down Docket #20250011

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

FPL needs to explore internal efficiencies to keep their costs down.

Thank you for your time and consideration.

Sincerely,

William Platt

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

I AM ON A FIXED INCOME AND HAVE BEEN OUT OF WORK FOR 1 YEAR  
UNABLE TO FIND EMPLOYMENT DUE TO TRUMP. I CANNOT AFFORD MORE  
EXPENSES INCLUDING THIS? WHEN ARE YOU PEOPLE GOING TO STOP THE  
MADNESS?

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

John Ranges

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

To Whom It May Concern:

When we first heard FPL (via NextEra Energy) was purchasing Gulf Power from Southern Company, we were a little concerned what that transition might look like and how it would affect the reliability of our site power utility here in Pace, FL. Although there were a few transition and contractual hick-ups to work through, I'm pleased to say that FPL has picked-up the ball on the innovative track where Gulf Power left off and ironed out the details of our Island Mode scheme to ensure we have reliable site utility power. Due to the continued efforts of the Eastman Pace Site and FPL teams communicating and working together and making ongoing modifications, we have some of the most reliable utility power our site has seen in my 10-year tenure here at the site.

Even though there have been community forum complaints with regard to the higher rates from FPL compared to the rates when we were Gulf Power, the higher rates have brought increased reliability to the northwest Florida power utility system. We recognize the cost associated with providing reliability and believe the increased rates reflect that reliability.

Thanks,

**Subject:** Keep FPL Rates Down Docket #20250011

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Bruce Robertson

To whom it may concern,

I wanted to take a quick moment to commend you on your service. I was looking for ways to save money on my electric bill and I contacted FPL for a home energy survey. A representative came to my home and gave me great recommendations. The recommendations that made, such as changing my light bulbs to LEDs, keeping AC temperature at 78 when possible & putting insulation in my attic. I feel like these small changes have helped lower my bill.

This past year we lost power during a bad storm. I thought I was going to have to spend a night elsewhere because I had house guests and small children. Luckily, FPL had my power back on within two hours. This quick return was not lost on me.

Family I have that lives in Georgia told me that she wishes she had FPL in her area.

I am very happy with my FPL service.

Sincerely,

Carolina Santalla

**Subject:** Keep FPL Rates Down Docket #20250011

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Robert Satkowski

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Kathleen Sheridan

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Abdo Socorro

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer for almost 50 years, I strongly oppose the largest rate increase in U.S. History. This is an excessive hike designed only to benefit FPL by increasing profit. It would place an unfair burden on all customers, and hurt low-income customers and older adults on fixed incomes who simply cannot afford to pay more.

FPL is already highly profitable —asking customers to pay more is an insult and reflects FPL's total lack of respect for the Florida citizens it serves.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over profit and ensure utility rates remain fair and affordable. Isn't that why the PSC exists?

Please stand up for Floridians and say NO to this rate hike.

Thank you for your time and consideration.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

James Tyler

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Fred Weber

**Subject:** Public Comment Opposing FPL's Proposed Rate Increase – Docket No. 20240021-EI

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Public Service Commission,

I am writing to express my strong opposition to Florida Power & Light's proposed rate increase as outlined in Docket No. 20240021-EI.

As a resident and ratepayer, I am deeply concerned about the financial burden this increase would place on households and small businesses, especially during a time when many Floridians are already struggling with inflation, housing costs, and other essential expenses.

We need energy providers to prioritize affordability and sustainability—not higher profits at the expense of consumers. I respectfully urge the Commission to reject FPL's rate hike request and instead focus on energy justice, transparency, and consumer protection.

Please include this message in the official docket as a public comment.

Sincerely,

Dannielle Wood

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Keith Yoder

**Subject:** FPL Rate Hike

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Sir/Madam:

I would like to express my strong opposition to FPL's proposed \$10 billion rate hike, which would increase the average household's electricity bill by approximately \$360 annually. This increase by this well-capitalized utility would place an undue burden on Florida's residents, especially seniors, schools, and low-income families. I urge you to reject this proposal and prioritize the well-being of Floridians.

Thank you.

Glenn Anders & Family  
St. Augustine

To the Office of Commission Clerk, Florida Service Commission;

I have been a residential customer of FPL in Miami for over 39 years and was also, before retirement, a commercial customer in Ft. Lauderdale for over 10 years in the electronic/manufacturing industry. The service reliability was acceptable and customer service impeccable.

I am in agreement with the steps FPL is taking to improve the reliability for areas currently with overhead service with the lateral under-grounding program needed to prevent outages during high wind times in South Florida.

Keeping bills as low as possible is always welcome, but keeping critical electrical service on most of the time is crucial.

Thank you for considering my input,

Rogelio Basnuevo

**Subject:** Keep FPL Rates Down Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Laura Burrow

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

**Subject:** Opposition to Docket No. 20250011-EI – FPL Rate Increase

To the Florida Public Service Commission:

I am writing regarding Docket Number 20250011-EI.

I strongly oppose FPL's proposed rate increase. If approved, it would become the largest rate increase in US history, and their profit margins would be among the highest in the nation. This is unacceptable, especially for those of us in the Panhandle who do not have a choice of power provider.

Monopoly utilities should not be making excessive profits at the expense of Florida families and businesses that are already struggling to make ends meet. For Panhandle customers, this historic rate hike request is on top of a 64% increase from 2020 to 2023, which occurred after FPL acquired Gulf Power. Additionally, we are still being charged a Hurricane Recovery Fee.

I urge the Commission to reject this unreasonable and harmful rate increase request.

Thank you for your attention to this matter.

Sincerely,

Sheresa Copeland

Milton Florida

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Commissioners,

I am writing to express my strong support for Florida Power & Light Company (FPL) and to share the consistently positive experiences I have had with their team and services over the years.

In my professional and personal interactions with FPL, I have found their employees to be not only highly competent and responsive, but also genuinely committed to serving the public with integrity, care, and professionalism. Their proactive communication, technical expertise, and collaborative spirit have been instrumental in helping projects run smoothly and efficiently—especially in times when reliability and clarity are most needed.

Whether coordinating infrastructure needs, responding to inquiries, or addressing service challenges, FPL has proven itself to be a reliable partner. Their dedication to innovation, safety, and customer satisfaction reflects a company culture rooted in public service and accountability.

In a time when energy providers face increasing scrutiny and rising expectations, it is both refreshing and reassuring to work with an organization that not only meets but often exceeds those expectations. I hope the Commission recognizes the value that FPL brings to our communities, and I am confident they will continue to be a model utility provider for Florida and beyond.

Thank you for your time and attention.

Comments:

Regarding Docket Number 20250011-EI, FPL Rate Hike Dear Commissioners, I am writing to ask you to reject the proposed FPL rate hike as structured. There is no justification for increasing their Return on Equity to 11.9%, a whopping 24% higher than the industry average ROE of 9.6%. FPL and it's parent company NextEra Energy are well positioned for continued financial success and should not be granted an excessive return on their Florida investments, paid directly by me and the rest of the FPL Florida ratepayers. Simply stated FPL should not be granted an ROE more than average and given the national footprint of NextEra Energy, the FPL ROE should be no more than the average ROE earned by NextEra across all the states that they service. As a ratepayer to FPL I ask that you please reject the proposed rate hike as proposed.

**To:** Consumer Contact  
**Subject:** Florida Power & Light Increase

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Sirs:

I heard recently that Florida Power & Light is asking for yet another increase. It was not long ago that it frivolously asked for and was presumptuously granted two increases that affected each and every Florida resident full-time property owner.

As my husband and I are NOT investors, nor renters, but permanent residents who get no assistance from the government nor write-offs on our income tax return, and are existing on retirement income, we are 1000% opposed to FPL getting any percentage of increase at this time. They can't even use hurricanes as an excuse now, and should look to the federal government just as CA does even protecting it from bankruptcy!!

We are no different than millions of others in our State paying ridiculously high water, power and Spectrum rates. Adding insult to injury, each level of government has no conscience about "jumping on the bandwagon" every month with their increased fees without seeking nor receiving approval from any permanent resident owner that they too increase the tiral of our monthly bills. It is not a wonder so many hundreds of thousands have left Florida AGAIN! This galls me as you are all answerable to The People, and our pockets are not bottomless pits!

Only 2 days ago, I received an electric bill for \$300 + for 1 month for a home with 2 adults and 1 dog. We turn off one floor of AC each night. We keep our temperature at 75 degrees. Here, we are nearing the end of June, receiving a water bill for \$118. We have no sprinkler system, pay for the car wash, drink bottled water, and refrain from watering our lawn as rainy season is upon us. And still wonder when our water will be recontaminated.

We must be very mindful every month of just how many of these increases will "usurously" occur and just how much the next increase will burden us. We despise these ripoffs. Again, we get no assistance like the State of Florida does from the federal government.

Lastly, Spectrum who has little to no competiton in our area provides internet & cable service. Every month, the rate is raised. This corporation has grown to be a conglomerate, fees increasing almost every month, but should be busted.

We residents have the very same problem for the People in the health care field: Just look at AdventHealth. Then look at it's ratings from city to city. Healthcare for the People is the last priority, where nurses alone are holding these hospitals up by their high skills, integrities and tenacity on stilts. Patients and family experience condescension, rudeness, mistakes in medication, ridiculous waiting times for test results, physical and verbal assaults, emotional primadonna doctors who, in spontaneous emotional states, victimize patients, violate HIPPA laws and do not take complaints -- even the most serious ones -- seriously. They care about three things: potential liabilities; having judgments or settlements that don't exceed Fla's malpractice caps, and

insurance premiums. Every week, these priorities affect more and more patients. I can only imagine what % of death rates are due to doctors' errors.

Overall, Florida, even with its natural assets, is becoming a state that is becoming a liability not only "bleeding" it's People, but more specifically, senior citizens. Well, it's not okay! I am indifferent to the total due of each bill and i am opposed to any FPL increase!

Mary Frances Heery

**Subject:** Keep FPL Rates Down Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Larry Higgins

**Subject:** VOTE AGAINST FPL \$10B RATE INCREASE

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear PSC, As FPL customers, we are against the recent FPL rate increase proposal.

Based on research by the CLEO Institute, "many of those in favor of the rate increase were former FPL employees, have FPL staff on their organizations' board of directors, or work for organizations that receive funding from FLP." These were people with direct financial interests tied to FPL, reflecting at the very least a profound conflict of interest.

A large percentage of FPL customers are seniors on fixed incomes. I hope that our voices are heard. Thank you for listening.

James of North Port, FL

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes with Social Security who simply cannot afford to pay more. Florida has the highest homeowners and auto insurance rates!

With costs for housing, healthcare, Medicare supplement and prescription insurance premiums, everyday essentials are already high, the last thing we need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable!!

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize ALL customers over corporate greed and ensure utility rates remain fair and affordable. We keep our thermostat on 78° all summer to be able to afford the FPL bill on a budget.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Luz Melendez

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

They have no conscience in this inflated economy as they pretend to customers in suggesting they can have a review of their electrical system to save potential monies. Easy for us to carry the burden in all ways.

With costs for housing, healthcare, and everyday essentials already high, the last thing we need is FPL already a highly profitable company—telling customers they should pay more just to boost their corporate profits.

Reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize people, especially in these times, over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Good evening

I am writing to extend my sincere appreciation for the exceptional reliability and service that Florida Power & Light has consistently provided to me and my community.

In a time where dependable utilities are more critical than ever, FPL has truly set the bar for excellence. I have experienced minimal disruptions over the years, and even in the rare instances of outages due to storms or maintenance, communication has been clear, proactive, and timely. The quick restoration of power, along with the frequent updates through texts and the FPL app, have made a tremendous difference in planning and peace of mind.

Your dedication to innovation, infrastructure improvement, and customer service does not go unnoticed. As a Florida resident and a customer, I feel genuinely fortunate to rely on a provider that values efficiency, reliability, and the well-being of its customers.

Please extend my thanks to your field crews, customer service representatives, and everyone behind the scenes who works tirelessly to ensure our homes and businesses are powered safely and consistently.

Respectfully

Mary Ordonez

Subject: We Can't Afford Higher Rates

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Art Graham,

I am writing as a concerned Florida resident and customer of Florida Power & Light (FPL). I received notification that FPL intends to increase rates for their customers across the state, hurting the most vulnerable in our communities the most. We urge you to rethink this decision and not increase our bills.

This past year has been challenging and unrelenting, and folks have spent it worrying; worrying about the health and safety of their families and friends; worrying about finding work or being safe at work; worrying about the future of the business they built from the ground up; and worrying about making sure that they could keep the lights and heat on at home. For many of us, the pandemic has changed all of our lives in ways we'll still likely be grappling with long after the pandemic comes to an end.

Nevertheless, for some reason, corporate greed seems to be more important than the sustainability of our communities and our livelihood. This was evident when FPL, among several other power companies resumed closing customer accounts due to non-payment during the second wave of the pandemic. Now, they want to increase rates for their most vulnerable customers. We can't allow companies to continue taking advantage of working-class families, and luckily, you have the power NOW to stop this.

Our families need relief, real solutions to the climate crisis and fair and affordable utility rates. By raising prices, FPL is treating energy as a commodity when it's a necessity. We are demanding that Florida Power & Light halt this unfair plan and that Florida's Public Service Commission require FPL to maintain fair rates for their consumers, and prioritize the communities they serve.

Sincerely,  
Mrs. Pasche Robinson

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Tracey Romaine

Re: FPL Commendation

To Whom It May Concern,

I would like to express my appreciation for the exceptional work of Carlos Martinez and all of the Engineers and Managers at Florida Power & Light (FPL) that help us get new projects completed. Carlos consistently demonstrates professionalism, and a desire to help solve the unique challenges that come with new developments.

His dedication and collaborative spirit have been invaluable to numerous successful projects.

For many years, it's been a pleasure working with Carlos, and I commend him for a job well done.

Sincerely,

Miller Construction Company

Pete Ryan  
Vice President - Project Executive

**Subject:** Positive Experience with FPL - Docket #2025-0011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

To Whom It May Concern,

My name is Bobby Thigpen, and I'm writing to share my positive experiences with Florida Power & Light (FPL) at both of my residences:

- 6057 Red Stag Drive, Port Orange, FL 32128
- 2555 S Atlantic Ave, Daytona Beach Shores, FL 32118

Over the years, I've experienced nothing but reliable, responsive, and community-minded service from FPL. Their efforts go beyond utility service—they've truly shown up for our community. During a particularly challenging time while I was assisting the operations of Jon Hall Chevrolet on Nova Road in Daytona Beach, FPL generously allowed us to use their lot next door for overflow vehicles. It was a small gesture with a big impact, and one I haven't forgotten.

Additionally, FPL continues to impress me with their proactive communication and preparedness ahead of incoming weather. As a Florida resident, that level of readiness gives me peace of mind.

I'm writing in support of FPL's proposed rate increase. Based on their consistent service, community support, and commitment to infrastructure and reliability, I believe the investment is justified and well-placed.

Thank you for the opportunity to share my thoughts.

Sincerely,  
**Bobby Thigpen**  
Ritchey Automotive Group

To whom it may concern:

In the face of relentless challenges—whether from extreme weather, rapidly evolving energy demands, or the drive toward sustainability—Florida Power & Light continues to rise to the occasion with remarkable dedication. FPL teams not only keep the lights on; but they're fueling progress, supporting communities, and setting an example for energy providers nationwide.

From investing in cutting-edge clean energy technologies to restoring power swiftly after storms, their commitment to both reliability and innovation is evident. Their leadership in expanding solar infrastructure and enhancing the grid is paving the way for a brighter future.

As a Miami-Dade resident I support their continued efforts to secure and sustain our power infrastructure.

Sincerely,

Arianna Urquia

Dear Florida Public Service Commission,

I want to express my personal support for Florida Power & Light (FPL) in their continued efforts to strengthen Florida's energy infrastructure.

As someone deeply engaged with our local business community, I see the importance of reliable service and long-term infrastructure planning every day. FPL is a valued member of The Chamber of Commerce of the Palm Beaches and a leader in the economic landscape of Palm Beach County. Their commitment to service reliability, innovation, and grid modernization helps ensure that our region can continue to grow and thrive.

A resilient and future-ready energy grid is essential to meet the evolving needs of our businesses and residents. I appreciate FPL's investments in strengthening the system and preparing for the demands of tomorrow.

Please include this message as part of the public comment for Docket #2025-0011.

Thank you.

**Complaint:** Other Complaints against Florida Power & Light Company  
**Details:**

Highly object to the new rate Increase proposal. 9 billion is not a rate increase is robbery. Everyday citizens can not afford to pay anymore increases and afford to eat too. I have a disabled husband and son and I work full-time with a chronic health disease. I am doing my best to pay the current rate. As soon as the took over Gulf Power they raised rates and gave their employees raises. Please do not let them have this increase. I'm afraid it will cause us to have to sell the house and move which we can't afford to do.

**Subject:** Keep FPL Rates Down Docket #20250011

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Belkis Fernandez

**Sent:** Tuesday, July 15, 2025 5:32 PM  
**To:** Office of Commissioner Clark  
**Subject:** Floridians Need Diverse Energy Generation Docket 20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Commissioner Clark:

Thank you for your service, including that with DEP lands management.

I am a FL. homeowner (25 yrs) who strongly favors reliable 24/7, low cost, and low footprint electricity. I **strongly urge you to REJECT the PSC Docket 20250011 by FP&L, Duke Energy, and TECO who have proposed a \$9 billion rate hike for solar energy development.** FP&L, TECO, and Duke Energy believe it's best to support the FL Renewable Energy (ie., solar) mandate from 2004. A lot has happened since then, and continues each day, where refinements in other energy sectors such as nuclear power and biofuel power, now support prudent changes to a highly diverse energy array.

**This proposal is not acceptable because of FP&L's overextension in solar power;** and FPL isn't increasing low-cost energy alternatives (natural gas), nor are they supporting FL's long-term economies and wise land use; and they are **not promoting a diversity of energy types.** The large space needed for this Docket proposal (192,000 acres) is beginning to infringe on Florida's longstanding cattle production, citrus farming, wildlife habitat, & crop production in the So. FL landscape. Solar farms will simply take up too much land space in the place of what appears as open landscape (ie., ag lands & wildlife habitat). Solar power generation in FL is maximally efficient for **only 5.1 hrs** of the day (DOE Berkeley Natl Lab). And to the detriment of our State & National economy, solar power components are largely made in China & invariably this drives up my overall electric bill. In the last 5 yrs., Europe & Australia have faced rolling "blackouts" due to an overreliance on solar power. Florida has excellent potential for expanding Artificial Intelligence (AI) development with its current land area and a low business tax framework. However, AI absolutely requires a highly dependable, 24-hr power grid which can only be met with **a rich and stable power diversity.** Hence, Florida's public power providers **should be working to diversify its array of power generation.** Thankfully, Pres. Trump has ordered a **reform of nuclear power permitting** that should be operational in the very near future. This reform and the refinement of small module (nuclear) reactors have unleashed high hopes for future nuclear power development.

Duke Energy, TECO, and FPL must be given a clear signal to redevelop a proposal that promotes nuclear and low-carbon emission, fuel sources for power development. This action would fulfill the PSC's own recommendations identified in the April 2025 Feasibility Report to advance Nuclear Power in FL. The 2024 Workshop on Nuclear Feasibility engaged numerous state and federal officials including those with technical expertise in nuclear power and it aligns well with Florida's energy policy (F.S. 377.602). Your leadership in the PSC necessitates that public utilities and all FL utilities should also be developing more diverse power sources with more natural gas plants built with US components and sources...all of which are cost efficient and American made.

Thus, I **strongly urge you to REJECT this Docket proposal (20250011) outright with no compromise and these public utilities should redesign their proposal** to develop more reliable and abundant, low-cost power diversity alternatives which will benefit FL businesses, our environment, and current and future ratepayers.

Sincerely,

Ben Nottingham, MS, Ret., former USFWS Refuge Mgr. in FL

**Subject:** Reject FPL's Rate Hike – Hold In-District Hearings for Public Input

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Commissioner Gary Clark,

Adam Teitzman, Commission Clerk  
Division of Commission Clerk and Administrative Services Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, FL 32399-0850

Re: Docket No.20250011 -EI

Petition by Florida Power & Light Company for Base Rate Increase

I am writing to formally request that The Commission hold in-district hearings regarding Docket No. 20250011 (Petition for Rate Increase by Florida Power & Light Company) to ensure that the public has a fair opportunity to weigh in on this critical decision.

Some FPL customers have already seen their bills increase by 60% in the last five years, and now the company is asking to increase rates by almost \$9 billion over the next five years, all while Floridians struggle to afford basic necessities. FPL is ranked 52 out of 53 by the American Council for an Energy Efficient Economy of utilities nationwide in terms of helping customers reduce power bills with efficiency and conservation programs. Approving this rate hike would only reward corporate greed at the expense of millions of hard-working Floridians.

I urge you to reject this request to ensure that consumers, not corporate profits, remain your priority. Holding in-district hearings will allow impacted residents to voice their concerns and hold FPL accountable. I appreciate your attention to this matter and look forward to your response.

Sincerely,  
Miss Celeste G  
330 Holloway Dr Plantation, FL 33317-2442 ckpromo@pm.me

Sent: Sunday, July 20, 2025 3:56 PM  
To: Records Clerk <CLERK@PSC.STATE.FL.US>  
Subject: Opposition to Docket No. 20250011-EI – FPL Rate Increase

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

To the Florida Public Service Commission:

I am writing regarding Docket Number 20250011-EI.

I strongly oppose FPL's proposed rate increase. If approved, it would become the largest rate increase in US history, and their profit margins would be among the highest in the nation. This is unacceptable, especially for those of us in the Panhandle who do not have a choice of power provider.

Monopoly utilities should not be making excessive profits at the expense of Florida families and businesses that are already struggling to make ends meet. For Panhandle customers, this historic rate hike request is on top of a 64% increase from 2020 to 2023, which occurred after FPL acquired Gulf Power. Additionally, we are still being charged a Hurricane Recovery Fee.

I urge the Commission to reject this unreasonable and harmful rate increase request.

Thank you for your attention to this matter.

Sincerely,

Jerod Salter  
Pensacola, FL

**Subject:** Keep FPL Rates Down Docket #20250011

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Jorge Nunez

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.  
Good afternoon,

I am writing to express the support of the proposed rate increase from Florida Power and Light. FP&L has done a phenomenal job with the reliability of my electricity. While any change in pricing deserves careful consideration, I believe this adjustment is reasonable and necessary to ensure continued reliability and the continued progress of the energy infrastructure. Continued investment is not only beneficial for current residents and businesses, but essential for future growth and sustainability.

Regards,

Kevin Sola

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. Perhaps if FP&L weren't constantly sending mailers, with gimmicks and offers, they could provide their services at reasonable rates!

This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more. We have had FIVE hurricanes this past year. People are financially stretched and many not yet recovered!

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on hard working and loyal customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill for basic energy that is not even clean or cleaner or high quality energy. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates

remain fair and affordable.

<dortonpasche@everyactioncustom.com>  
**Sent:** Thursday, July 17, 2025 7:43 PM  
**To:** Office of Commissioner Clark  
**Subject:** We Can't Afford Higher Rates

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Gary F. Clark,

I am writing as a concerned Florida resident and customer of Florida Power & Light (FPL). I received notification that FPL intends to increase rates for their customers across the state, hurting the most vulnerable in our communities the most. We urge you to rethink this decision and not increase our bills.

This past year has been challenging and unrelenting, and folks have spent it worrying; worrying about the health and safety of their families and friends; worrying about finding work or being safe at work; worrying about the future of the business they built from the ground up; and worrying about making sure that they could keep the lights and heat on at home. For many of us, the pandemic has changed all of our lives in ways we'll still likely be grappling with long after the pandemic comes to an end.

Nevertheless, for some reason, corporate greed seems to be more important than the sustainability of our communities and our livelihood. This was evident when FPL, among several other power companies resumed closing customer accounts due to non-payment during the second wave of the pandemic. Now, they want to increase rates for their most vulnerable customers. We can't allow companies to continue taking advantage of working-class families, and luckily, you have the power NOW to stop this.

Our families need relief, real solutions to the climate crisis and fair and affordable utility rates. By raising prices, FPL is treating energy as a commodity when it's a necessity. We are demanding that Florida Power & Light halt this unfair plan and that Florida's Public Service Commission require FPL to maintain fair rates for their consumers, and prioritize the communities they serve.

Sincerely,  
Mrs. Pasche Robinson

**Subject:** Keep FPL Rates Down Docket #20250011

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Randall Schiff

**From:** Rhonda Roff (commissioner.fay@psc.state.fl.us) Sent You a Personal Message  
<kwautomail@sendgrassroots.com>  
**Sent:** Saturday, July 12, 2025 11:03 AM  
**To:** Office of Commissioner Fay  
**Subject:** Reject the FPL rate hike!

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear PSC Commissioners:

I urge you to reject what would be the largest utility rate increase in U.S. history.

Over the past five years, FPL customers have seen their annual bills increase by more than \$400. These ongoing rate hikes hit hardest for low-income families and seniors living on fixed incomes—Floridians who are already struggling to keep up with the rising cost of essentials like gas, housing, and healthcare. Adding another unaffordable rate hike on top of these burdens is unacceptable.

It is especially egregious to ask customers to pay more when FPL has reported more than \$10 billion in profits over the last five years. This proposal does not reflect the needs of everyday Floridians—it reflects the priorities of corporate shareholders and executives looking to maximize returns at the expense of the public.

The Public Service Commission has a duty to ensure that utility rates are just, reasonable, and in the public interest. I respectfully urge you to reject FPL's request to increase the monthly base rate and raise its return on equity. Floridians deserve fair and affordable energy—not price hikes that fuel corporate profits.

Please stand up for Florida's working families, retirees, and vulnerable communities, and say NO to this rate hike.

Thank you,

Sincerely,

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I see numerous TV commercials for FPL and I don't understand why. We are captive customers as they are the only suppliers of electricity, so what's the need to advertise. They are increasing rates over the next few years, maybe if they didn't advertise so much they wouldn't have to increase the rates. Maybe this needs to be addressed.

Thank you  
Ron Boyd

Dear Clerk,

I am writing to you today as a longtime (1977) resident of SW Florida to tell you that I am not happy with the PSC Docket 20250011 from FP&L, Duke Energy, and TECO, who have proposed a \$9 billion rate hike for solar energy development.

For various reasons, I believe we need more diversified and cost-effective alternatives like natural gas and potentially nuclear power. I am also deeply concerned about affordability, as I am on a fixed income in a location that gets more expensive all the time.

I know you are aware of the potential for rate increases. There are many of us on fixed incomes here. Please be aware of our needs in the matter.

Sincerely,

Alexandra sulecki

**Sent:** Tuesday, July 22, 2025 11:56 AM  
**To:** Office of Commissioner Fay  
**Subject:** PSC Docket 20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Commissioner Fay,

Greetings, I am writing to you today as a longtime (1977) resident of Florida to tell you that I am not happy with the PSC Docket 20250011 from FP&L, Duke Energy, and TECO, who have proposed a \$9 billion rate hike for solar energy development. Solar energy is great, and I think it has its place. But we need more diversified and cost-effective alternatives like natural gas and potentially nuclear power.

I realize the state will grow no matter what, as it has high desirability. I do ask that you make decisions for the future that allow longtime, fixed income residents to be able to afford to stay, much like Homestead tax relief allows us to remain in gentrifying neighborhoods. Technologies like AI development may come to Florida, and will need massive dependable power.

Expanding on and relying primarily on solar in Florida as a policy leaves us vulnerable to blackouts, takes up huge areas of land, relies on foreign sourcing (at least currently), and our ranchers and farmers need that land. Land not used by people is not unused land. It is land that supports the human environment. Solar is an important part of our resources, but I believe we must keep open to new and cost-effective technologies. To diversify is our best bet. What is cost effective in one place may not work for another location. New technologies like small module nuclear reactors and biofuel are potentials to be explored.

In short, I urge you to pull back from Docket proposal (20250011) and ask the utilities to redevelop a plan that is more resilient (diversified), environmentally friendly, and cost effective.

Thank you for your oversight in this matter.

Sincerely,

Mrs. Alexandra Sulecki

861 13<sup>th</sup> St N, Naples FL 34102

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commission,

I am writing to voice my strong opposition to Florida Power & Light's proposed \$10 billion rate increase. As a resident of Florida, I am already experiencing the financial strain of inflated utility bills — this proposal would only deepen the burden on hardworking families, retirees, and small businesses across our state.

FPL continues to report healthy profits while passing the cost of expansion and mismanagement onto its customers. This is not about improving service — it's about padding profits. Floridians should not be forced to bankroll a monopoly's ambition while wages stagnate and inflation eats away at our budgets.

This increase is unnecessary, excessive, and, frankly, unacceptable. I urge the Commission to deny this rate hike and fulfill its responsibility to protect consumers, not corporate shareholders.

Sincerely,  
Anthony Chaffin

SUBJECT: Petition for rate increase by Florida Power & Light Company Florida Power and Light has been exceptional in providing professional service, information, and education. As a Floridian, electricity is an important matter in my day-to-day routine, but also during rain events, storms, and hurricanes. I have seen and heard of others in the State of Florida and other states as well, who pay more for their electricity and unfortunately don't have the reliability in service that we do a FPL customers. I have always been willing to pay more for a good or service if the value is beneficial, measurable, and durable. I support paying a bit more to

FPL, as I know they are trustworthy and continue to provide valuable service. FPL has also provided an easy and informative way for me to keep track of my electric consumption. Quality is always worth paying a bit more for. Docket# 20250011

Comments:

All too many companies that are investor based such as FPL are so much more worried about the investor but not the actual people they service. If this is the case why does this still happen as far as raising rates without any real questions or answers to why this is really necessary! Please hold them accountable for once!!

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Elizabeth Brown

Date: July 19, 2025

Dear Commissioners,

I am writing to urge you to reject Florida Power & Light's (FPL) proposed rate increase for 2026–2029, which seeks to raise base rates by approximately \$8.961 billion over four years, potentially increasing residential customer bills by up to 14% by 2026 and 22% by 2027. This proposal, described as the largest rate hike request in U.S. history, places an undue burden on Florida's families and businesses, many of whom are already grappling with high living costs. Additionally, FPL's request for a 12-month surcharge of \$12.02 per 1,000 kWh to recover \$1.2 billion in hurricane-related costs from 2024 and replenish its storm reserve fund demands careful scrutiny to ensure fairness and transparency.

FPL's financial performance in 2024 demonstrates that the company is not in dire need of such a significant rate increase. According to NextEra Energy, FPL's parent company, FPL contributed significantly to NextEra's adjusted earnings of \$3.67 billion for the year, with a strong return on equity. FPL's proposed return on equity midpoint of 11.9% is notably higher than the national average of 9.6% for electric utilities in 2023 and exceeds the 10.5% approved for Tampa Electric Co. in a recent rate case. This suggests FPL is seeking to boost shareholder profits at the expense of customers, many of whom face financial strain from rising housing, insurance, and utility costs.

The 2024 hurricane season was indeed busier than normal, with Hurricanes Debby, Helene, and Milton causing over 3 million outages for FPL customers. FPL estimates restoration costs at \$113.5 million for Debby, \$157.8 million for Helene, and \$811.1 million for Milton, alongside \$150 million to replenish its storm reserve depleted by 2023's Hurricane Idalia. While these costs are significant, FPL's investments in smart grid technology and storm hardening

reportedly avoided 824,000 outages in 2024, demonstrating the effectiveness of prior infrastructure investments. Customers already pay a storm protection plan fee—\$8.10 monthly for a 1,000 kWh user in 2025, up from \$5.57 in 2024—to fund such improvements. Further burdening ratepayers with both a surcharge and a massive base rate increase seems excessive, especially without a thorough audit to verify the necessity and prudence of these costs. Florida’s economic stability is at risk from unchecked utility rate hikes, as noted by the state’s Office of Economic and Demographic Research, which highlights the negative impact of hurricanes on tourism and tax revenues. Families and small businesses, already struggling, should not bear the brunt of FPL’s profit-driven proposals. The Florida Supreme Court has previously criticized the PSC for inadequate oversight in FPL’s 2021 rate case, describing its process as a “black box.” I urge the PSC to prioritize consumer protection by conducting a transparent, data-driven review of FPL’s proposal, exploring cost-effective alternatives like enhanced energy efficiency programs or distributed solar and storage solutions, and ensuring that any approved costs are justified and not disproportionately passed to residential customers. Floridians deserve affordable, reliable, and sustainable energy. I respectfully request that you reject FPL’s proposed rate increase and surcharge or, at minimum, significantly reduce them to reflect actual needs rather than corporate profit motives. Thank you for your commitment to serving Florida’s consumers and for considering this critical matter.

Sincerely,  
Eric D Streeter

The Florida Public Service Commission  
Via email: [contact@psc.state.fl.us](mailto:contact@psc.state.fl.us)

Re: Florida Power and Light Company Comprehensive four-year Request

To whom it may concern:

I'm writing to express my support for the FPL Rate Proposal submitted to the Florida PSC on February 28, 2025. I own and/or manage multiple properties that utilize FPL Services. I also am Chairman of the Board for B&I Contractors, Inc. a full Service Mechanical, Electrical and Plumbing Contractor operating in the state of Florida since 1960.

It is my experience that FPL provides excellent reliability of electrical services at rates which are competitive in the state of Florida and considerably cheaper than most of the United States. They also provide numerous incentives which encourage contractors and consumers to install energy efficient systems which are not offered by other utilities. FPL has also provided outstanding emergency response after the numerous storms that have impacted their service area during my time as a customer.

Given the inflationary pressures of the past five years along with the significant storm activity in Florida, I believe the proposal is fair and necessary to assure that we continue to receive reliable power into the foreseeable future. This proposal will also allow FPL to continue to create sustainable delivery systems that will allow for quick recovery times after natural disasters.

Thank you for your attention to my input, if you have any question please don't hesitate to reach out to me

Sincerely,

B & I Contractors, Inc.

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.  
Dear Florida Public Service Commission,

My name is Georgie Brown, and I've been a loyal FPL customer for over 35 years, living in a 1958 home in Pompano Beach (310 SE 12<sup>th</sup> Street, Pompano Beach 33060) that—like many older homes—has its quirks. Over the past year alone, I've had to call on FPL for a few things: a powerline tangled in trees and a meter on the verge of failure. Both times, it was a simple call and an even simpler fix. The FPL team showed up promptly, handled the situation professionally, and left me impressed with their responsiveness and care.

Beyond my personal experience, I also work closely with organizations and businesses throughout the community. From that lens, I see FPL not just as a utility provider but as a true community partner—always showing up, always giving back.

It's easy to overlook what works well. But FPL's quality of service—both in the field and in how it supports the broader community—deserves to be acknowledged.

Sincerely,  
Georgie

Dear Commissioners,

I am writing to express my support for Florida Power & Light's requested rate adjustment under Docket No. 20250011-EI.

At our home, we have experienced exceptional service from FPL. Over the years, we've had virtually no power outages—something that has not gone unnoticed or unappreciated. Even during severe weather or peak usage times, our power has remained steady and uninterrupted. This level of reliability reflects the strength of FPL's infrastructure and long-term investment in their systems.

We understand that maintaining this kind of reliability and continuing to modernize the grid requires significant investment. If a modest rate increase helps FPL sustain and improve this level of service, we fully support it.

Thank you for the opportunity to share our perspective.

Sincerely,

**Ken Tuma**

July 22, 2025

Dear Public Service Commissioners,

I hope this letter finds you well. My name is Melissa A. Gulley, and I am a business owner in Miami, operating several establishments in our vibrant community. I wanted to take a moment to express my appreciation for the exceptional reliability and customer service that Florida Power and Light (FPL) consistently provides.

As you know, running a business comes with its own set of challenges, and reliable power is critical to our operations. I have always been impressed with FPL's commitment to maintaining a dependable energy supply. In my experience, outages are rare, and when they do occur, your team responds promptly to restore service. This reliability allows me to focus on serving my customers without the constant worry of power interruptions.

Furthermore, I have found your customer service to be exemplary. Whether I have questions about my service, need assistance with billing, or require guidance on energy-saving programs, your representatives are always courteous, knowledgeable, and eager to help. This level of service not only enhances my experience as a customer but also reflects positively on my businesses in the community.

I understand that FPL has recently proposed a rate increase, and I want to express my support for this necessary step. I recognize that the cost of doing business, particularly in the ever-evolving energy sector, requires continual investment in infrastructure and technology to maintain the high standards of service we have come to expect. While any increase in rates may pose a challenge, I believe that the benefits of reliability and the quality of service provided by FPL truly justify the investment.

Thank you for your ongoing commitment to our community and for ensuring that businesses like mine can thrive. I look forward to continuing our partnership and supporting FPL as you work to enhance and expand your services.

Warm regards,

Melissa A. Gulley

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

There is absolutely no reason why FPL or any Florida utility should earn a profit rate above the national average. Shareholders are already well rewarded with guaranteed revenues and profitability at the current ROI average rates.

I hope the PSC will stand firm in denying this request.

Michael Grohman

Comments:

Hello. I want to comment on Docket 20250011 - Rate Increase request by FPL. I have lived in Miami, Florida, for 68 years. I have seen a lot of changes. Some good and some not so good. I can name a very limited number of entities that were active back then and still are today. Florida Power & Light has been and continues to be a constant provider of dependable electricity. We rely more on electricity today than at any other time in history.

Between the lights, appliances, and gadgets, we not only consume at the moment, but we also charge things for later use. I know that I can count on FPL to provide me with uninterrupted service. If I do have an issue, the customer service has always made it easy for me to call in and express my electrical issue. They respond and keep me updated. That is something I am willing to support. I don't want to pay more for anything that is a waste. Investing in FPL is not a waste. Thank you.

**Subject:** Keep FPL Rates Down Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Patti Boggs

**Subject:** Docket 29259911-EI Florida PSC

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Florida Power and Light, FPL, has provided excellent service to it's customers. They continue to control vegetation by trimming vegetation where necessary, to help prevent outages and flickering. FPL continues to strengthen the power system by installing concrete poles and inspecting lines for potential issues. Their Hurricane response is the best in the country. Since I have been living in Florida for over 40 years, reliability has continued to improve. Hurricane Andrew, 1992 response, was 3 month versus 1-1/2 weeks for the latest hurricanes in 2024. A drastic improvement over the years, This can only be done bt the investments of FPL.

I've seen FPL invest in advance smart meter technology and look at options for emerging technology which has helped make the grid stronger and improve service.

The increase in rates, only helps FPL provide the best power supply. I approve of FPL's rate increase to maintain the continued growth of Florida.

Thank you for your time,  
Rex Noble

**Subject:** Proposed FPL Rate Hike

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Commissioners,

There is only one word for the proposed FPL rate hike coming before you. OBSCENE - as in outrageous, appalling, deplorable, atrocious - you get the idea. That any one of you would even consider what FPL has brought before you is shameful. Why?

2021 - just four short years ago - you granted FPL the LARGEST utility increase in Florida history. A whopping \$5 BILLION dollars! And here FPL is, four short years later, asking you to double that. (\$9.8 billion is close enough to double to count as such.) Doing so would mean that FPL would receive the LARGEST RATE HIKE IN U.S. HISTORY - not just the state! To add insult to injury FPL wants you to give them the green light to allow FPL to receive the HIGHEST INDUSTRY AVERAGE for ROE (return on investment)...IN THE NATION!!!

What's FPL's reason for such an outrageous ROE request? The "poor" investors need a better guaranteed ROE so we consumers "must bear the costs of rising power needs." This on top of all the other costs passed on to customers - fuel surcharge increases, nuclear cost recovery, environmental and energy charges, storm hardening and storm restoration recovery charges. Now we get a surcharge - because that's what increasing the ROE to 11.9% really is - to keep FPL's investors happy. That's on top of the **20% increase** being requested for the residential monthly minimum base bill from \$25 to \$30.

Even at the highest inflation rates under COVID, nothing comes close to this. The two worst COVID years together were still 6.5% LESS than what FPL has proposed for the monthly minimum base bill!!

Dear Commissioners,

I'm writing to express my support for FPL's base rate request under Docket No. 20250011-EI. As a residential customer, I understand the importance of investing in system reliability, clean energy, and long-term infrastructure.

FPL has consistently delivered dependable service, and I believe this rate adjustment is a fair and necessary step to continue meeting the needs of Florida's growing population and energy demands.

Thank you for the opportunity to provide input as part of this process.

Best regards,

**COMPLAINT INFORMATION**

**Complaint:** Improper Billing against Florida Power & Light Company

**Details:**

For the past 1 1/2 years, they've been robbing us. They take 33-40% of my social security checks and use it towards fpl billing. I have brand new impact windows, energy saving bulbs, and do everything to prevent a high bill. meanwhile, they're stealing the money from out my hands. How can I survive with the leftover money from social security when FPL BILLING is practically stealing money and no one is doing anything. I WANT them to be investigated. It's not right.

Chart: United States Annual Inflation Rates (2015 to 2025)

I'm sure you have all read the full testimony and studied the exhibits given to you by Florida's Public Counsel regarding FPL's proposed swindle of their customers while enriching their investors. Just in case, the gist of what the Public Counsel states is attached. Established by the Florida Legislature in 1974 under Governor Reubin Askew to advocate for utility consumers, we've never needed it more than now. The average income for a Florida household is \$49,215. That's \$946 per week for private sector employees. Government employees aren't much better off as the average is \$958 per week. The average US household weekly income is \$1442. You do the math.

Adam J. Teitzman, Commission Clerk  
Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, Florida 32399-0850  
FILED 6/9/2025  
DOCUMENT NO. 04360-2025  
FPSC - COMMISSION CLERK  
DANIEL PEREZ  
Speaker of FL House of  
Representatives '

Re: Docket No. 2025001 1 -E I - Petition for rate increase by Florida Power & Light Company

Dear Mr. Teitzman:

Please find enclosed for filing in the above referenced docket the confidential Direct Testimony and Exhibits of Helmuth W. Schultz, III. Mr. Shultz's evidence demonstrates a revenue sufficiency, or surplus, of \$620,492 million

for Florida Power & Light Company (FPL) in 2026. For 2027, OPCs appropriate adjustments in this case show an allowable increase, subject to FPL's satisfying its burden of proof, of no more than \$35,196 million.

Mr. Schultz also recommends that the Commission deny authorization of the proposed 2028 and 2029 Solar Base Rate Adjustment (SoBRA) mechanisms. **Mr. Schultz's testimony, incorporating the recommendations of 6 additional OPC Expert Witnesses, identifies a cumulative base rate increase of no more than \$105.588 million during 2026-2029, which is \$9,713 billion less than the cumulative proposed base rate revenue increase of \$9,819 billion requested by FPL in its filing.** These aggregate revenue requirement numbers are not confidential.

Shame on any of you if you fall for this so-called "request." It's greed at its ugliest and most vile.

Sincerely,  
Tracey Remark

Estimados Comisionados de la Comisión de Servicios Públicos de Florida,

Como cliente de Florida Power & Light (FPL) [y miembro de AARP en Florida], me opongo firmemente al aumento de tarifas más grande en la historia de los EE.UU. Este aumento excesivo impondría una carga injusta a los clientes, especialmente a los de bajos ingresos o a los adultos mayores con ingresos fijos que simplemente no pueden pagar más.

Con los costos de vivienda, atención médica y productos esenciales ya altos, lo último que necesito es una factura eléctrica más alta. FPL ya es una compañía de altas ganancias; pedirle a los clientes que paguen más solo para aumentar las ganancias corporativas es completamente inaceptable.

Insto a que rechacen la solicitud de FPL para un mayor retorno sobre el capital y el aumento de la tarifa base mensual. La Comisión de Servicios Públicos debe priorizar a los clientes por encima de la codicia corporativa y asegurar que las tarifas de servicios públicos sigan siendo justas y asequibles.

Por favor, defiendan a los floridianos y digan NO a este aumento masivo de tarifas.

Gracias por su tiempo y consideración.

Atentamente,

Barbaro Gonzalez

Docket #2025-0011  
Claudia McLean  
Aventura, FL 33160

Good Afternoon:

I'm writing to share my experience as a FPL customer. While I'm not advocating for a rate increase, but I understand costs go up, what I want to recognize is the consistent reliability and communication I've received from FPL. They have incredible customer service, which is rare these days..

From storm preparedness to restoration, FPL goes above and beyond. Even during major hurricanes, outages are limited, and when they do happen, crews respond swiftly. Power is restored faster than expected, and they keep you informed with clear, timely updates via phone or text.

That consistency has made a real difference for me and others I know. With dependable power and strong communication, I feel supported when things go wrong. I've noticed service reliability has improved significantly over the years as they've invested in grid upgrades.

Thank you for the opportunity to share my experience.

Sincerely,  
Claudia McLean

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Donna Prestin

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear FPSC Clerk :

I am a FL. homeowner who strongly favors reliable 24/7, low cost, and low footprint electricity. I strongly urge your support to REJECT the PSC Docket 20250011 by FP&L, Duke Energy, & TECO who have proposed a \$9 billion rate hike for solar energy development. FP&L, TECO, and Duke Energy believe it's best to support the FL Renewable Energy (ie., solar) mandate from 2004. Alot has happened since then, & continues each day, where refinements in other energy

sectors such as nuclear power & biofuel power, now support phenomenal changes to a highly diverse energy array.

This proposal is not acceptable because of FP&L's overextension in solar power, and FLP isn't increasing low-cost energy alternatives (natural gas), nor are they supporting FL's existing long-term economies and wise land use, and they are not promoting a diversity of energy types. The large space needed for this Docket proposal (192,000 acres) is beginning to infringe on Florida's longstanding cattle production, citrus farming, wildlife habitat, & crop production in the So. FL landscape. Solar farms will simply take up too much land space in what appears as open landscape (ie., ag lands & wildlife habitat). Solar power generation in FL. is maximally efficient for only 5.1 hrs of the day (DOE Berkeley Natl Lab). And to the detriment of our State & National economy, solar power components are largely made in China and this invariably drives up my overall electric bill. In the last 5 yrs., Europe and Australia have faced rolling "blackouts" due to an overreliance on solar power. Florida has very good potential for hosting Artificial Intelligence (AI) development with its current land area & a low business tax framework. However, AI absolutely requires a highly dependable, 24-hr power grid which can only be met with a rich and stable power diversity. Hence, Florida's public power providers should be working to diversify its array of power generation. Thankfully, Pres. Trump has ordered a reform of nuclear power permitting that should be operational in the very near future. This reform and the refinement of small module (nuclear) reactors have unleashed high hopes for future nuclear power development.

Duke Energy, TECO, and FP&L must be given a clear signal to redevelop a proposal that promotes nuclear & low-carbon emission, fuel sources for power development. This action would fulfill the PSC's own recommendations identified in the April 2025 Feasibility Report to advance Nuclear Power in FL. The 2024 Workshop on Nuclear Feasibility engaged numerous state & federal officials including those with technical expertise in nuclear power and it aligns well with Florida's energy policy (F.S. 377.602). Your leadership necessitates that public utilities and all FL utilities should be developing a more diverse power sources with more natural gas plants built with US components and sources...all of which are cost efficient and American made. Thus, I urge your support to REJECT this Docket proposal (20250011) outright with no compromise and to urge these public utilities to redesign their proposal to develop more reliable and abundant, low-cost power diversity alternatives which will benefit FL businesses and current & future ratepayers.

Sincerely,  
Duane Trochessett

## LETTER

### Docket #2025-0011

July 21, 2025  
Chairman Elijah John Bowdre  
Opera Tower  
1750 N Bayshore Drive  
Unit 2601  
Miami FL 33132

To the Florida Public Service Commission,

Permit me first to acknowledge the enduring importance of your role in the architecture of our state's civic infrastructure. Your diligence in conducting these hearings, and your allowance for written testimony, speaks to a procedural maturity that honors both the substance and spirit of democratic oversight.

I write not merely as a constituent, but as a servant-leader devoted to the evolution of public systems—systems that must balance innovation with integrity, and efficiency with empathy.

In that light, I submit this statement in profound commendation of what I have witnessed as an extraordinary demonstration of service excellence—an example not of mere competency, but of character in action. One which understandably would inherently proscribe necessary increase in contributions from a reasonable client base.

It is clear that the leadership governing this utility has cultivated something exceptional: a management ethos that not only performs but uplifts. Through quiet discipline and thoughtful delegation, they have empowered frontline personnel not as functionaries, but as ambassadors of trust. These individuals operate with a clarity of purpose and a generosity of spirit that cannot be taught—it must be nurtured.

To encounter such service in our current moment—where disconnection so often masquerades as speed, and automation threatens to eclipse care—is a revelation. It reminds us that true infrastructure is not only steel, grid, or code. It is human.

What I observed was not a one-off gesture, but the predictable output of an organization whose internal culture prizes responsiveness, responsibility, and respect. These are the virtues that distinguish robust systems from brittle ones, and that prepare institutions to withstand the tempests—natural or manmade—that invariably arise.

As we consider the evolving demands placed upon our utilities—through climate stress, technological disruption, and demographic change—we would do well to recognize, reinforce, and replicate this model of excellence wherever possible.

With deep regard,  
Elijah John Bowdre  
Chairman, Miami-Dade County Cryptocurrency Task Force  
President, U.S. Crypto Policy Alliance

**Dear Commissioners,**

**As a longtime customer of Florida Power & Light (FPL), I am writing to express my support for the company's current rate case. I understand that any rate increase is taken seriously, but I believe FPL's request is justified and in the best long-term interest of its customers and the state.**

**FPL has consistently delivered reliable, clean, and increasingly modern energy service. Compared to other electric utilities across the country, FPL's rates remain among the lowest. This is especially important today, as energy costs continue to rise in many parts of the U.S. For Floridians like me, having access to affordable, dependable power helps keep household expenses manageable and supports our state's economic stability.**

**I also appreciate FPL's continued investments in storm hardening, grid modernization, and clean energy sources such as solar. These upgrades not only improve reliability but help protect us during severe weather events — something critical in our hurricane-prone state. The ability to maintain strong infrastructure without dramatically increasing customer bills shows a high level of efficiency and planning.**

**I hope the Commission will consider these factors when evaluating the rate case. FPL has earned the trust of many Floridians through its responsible stewardship, and I support its efforts to continue providing affordable and reliable service.**

**Thank you for your time and consideration.**

**Sincerely,**

**Gabriela Dominguez**

To Whom It May Concern,

As a business owner with multiple restaurants and rental properties throughout Northwest Florida, I'm writing to express my support for Florida Power & Light Company (FPL) in Docket #20250011-EI.

FPL has consistently demonstrated a commitment to making forward-thinking investments in its electrical infrastructure. These strategic improvements have directly contributed to enhanced system reliability and service continuity, which are crucial to the success of my businesses and the comfort of our tenants. On countless occasions we have run into outage from either storms, or people driving into poles. Each time after a quick phone call we find ourselves with an answer to our problems.

Reliable energy is a fundamental pillar of economic stability and growth in our region. I appreciate FPL's continued efforts to modernize its systems and prepare our energy grid for future demands.

For these reasons, I support FPL's current rate filing.

Sincerely,  
Jacob Blythe, The Deckhand Social, Gulf Coast Burger Co.

Dear Public Utility Council Representatives,

I have been an FPL customers for over 46 years. As such, I am compelled to share my experience with the electric service I have and continue to receive from FPL.

I am currently retired. I am blessed to have the opportunity to share this phase of my life with my husband, children and 5 grandkids. During the 15 years prior to my retirement, I worked from home. I also took care of my husband, who was in dialysis at home and then recovering from a transplant. I also helped take care of our grandkids as much as time allowed. Reliable and effective electric power was KEY during that time and I am so grateful for that.

I have endured storms where FPL worked endlessly to restore our power. I have also seen how FPL has been proactive for many years trying to take action to avoid issues during storms and provide faster power recoveries. I have seen these enhancement within our neighborhood and strongly believe it has all paid off. I dont feel the cost of power has increased that much over the years but i understand and support reasonable rates increases which ultimately benefits all FPL customers.

Our family has traveled outside the US and within our country and has been able to see how blessed we are having the electrical service we have in Florida. We also have family and friends in other states who pay higher rates and service is not as reliable. I believe that because we live in a state so prone to hurricanes, having an electric company foreseeing the issues and being proactive makes it better for all its customers.

Thank you for the opportunity to commend FPL for their excellent service, their commitment and dedication to all their customers.

Mayra Ferrer  
13930 SW 38 Terr, Miami, Florida 33175

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

**Dear Florida Public Service Commission,**

**Name:** Sara M Hernandez

**Address:** 5785 SW 25 Street

Miami, Florida

**Docket Number:** 2025-0011

I am writing to express my support for Florida Power & Light's (FPL) proposed rate increase under Docket #2025-0011. As a long-time FPL customer, I have consistently experienced reliable and high-quality service that justifies the proposed adjustment. FPL's service reliability has been exceptional, with minimal outages even during severe weather events, thanks to their ongoing investments in grid modernization and storm preparedness. Their customer service team has always been responsive, addressing billing inquiries or service concerns promptly and professionally.

I understand that the proposed rate increase will support continued infrastructure upgrades, renewable energy initiatives, and enhanced storm resilience, all of which are critical for maintaining reliable power in our community. For example, FPL's solar energy projects have contributed to cleaner energy while keeping costs

competitive. Supporting this rate increase ensures FPL can continue delivering dependable electricity and innovative solutions that benefit customers and the environment.

While no one enjoys higher costs, I believe the value provided by FPL's reliable service and proactive investments outweighs the proposed increase. I encourage the Commission to approve Docket #2025-0011 to enable FPL to maintain and enhance its exceptional service standards.

Sincerely,

Sara M Hernandez
