Subject
DUKE ENERGY

Message
Duke Energy profited over 4 billion last year. Why are they able to profit that much and our energy bills are through the roof? Also, they are the only energy provider and doesn't leave us any choices. We need another provider to come in or their rates need to be cut. There has to be something you can do as governor. I heard that Clearwater is looking into another energy provider. We need Largo to do the same. Or another idea is to provide solar panels to cut our bills in half. Thank you
