Dear Florida Public Service Commission PSC,

My name is Janice Holladay, and I am a resident of Escambia County As a Florida Power & Light customer, I strongly oppose the rate increase request of almost \$10 billion — the largest in US history. This unjust and excessive increase would further cause everyday Floridians, especially Black and Brown communities, to fall deeper into a burden caused by the high costs of living currently.

During the public service hearings, we witnessed firsthand how real Floridians are currently struggling to pay their bills, rent, groceries, and medications. Community organizations are standing up against corporate greed and revealing the conditions that everyday Florida residents are currently experiencing.

The PSC should prioritize consumers by ensuring fair and affordable utility rates. I urge the Public Service Commission to reject this massive rate hike and stand by Floridians and not for-profit corporations. We need affordable and clean energy.

Sincerely,
Ms Janice Holladay

Complaint: Other Complaints against Florida Power & Light Company
Details:

Came across an FPL guy bragging that he makes \$300K-\$400K every year selling lights for FPL. I've been in sales my whole life and can't believe these guys are paid so much while FPL turns around and wants rate increases while overpaying their guys. He even went on to say that their VP makes sure they're all taken care off. FPL is ripping us off to pay their guys \$500K a year. They don't need a rate increase.

Howdy

Yesterday I wrote to All Wessling on another site like this but wasn't sure it ever was sent cause of some subtle "Captcha" which didnt work. Anyway my FPL electric bill was almost \$142.00 last month. I have written to my senator and governors office but with no response.as yet.

FPL could cut electric bills in half and still make billions. I guess the greed and avarice with which they operate is purposely omitted from their beautiful psa commercials they make for TV.

You and I know FPL makes billions for its shareholders and the general public be damned. Some executive retiring will get another golden parachute when retiring, while I as a senior citizen, now 80 years old struggle to pay a utility bill while living in a mobile home. I am too a Veteran serving my entire enlistment in Florida. This electric company is mismanaged from the git-go and needs a serious "DOGE" examination to find where is the waste, fraud and abuse.

Please continue the fight to protect consumers, I do appreciate you.
