Good Afternoon,

I've been made aware that there are some electric rate increases that are being proposed by Florida Power and Light that need to be reviewed and or denied/approved by the commission. Is there a hearing date coming up? An answer? I'm hoping to get information on a hearing date or any other concrete evidence of such. I've attached my power bill for reference. I await your reply respectfully.

As I previously wrote to you via email

I am opposed to giving FPL/NextEra Energy any more rate increases

They are continually leasing prime farmland for their solar energy projects with our electric power payments not alone being subsidized by the government with our tax dollars

Respectively

Dear Florida Public Service Commission PSC,

My name is [NAME], and I am a resident of [COUNTY NAME]. As a Florida Power & Light customer, I strongly oppose the rate increase request of almost \$10 billion — the largest in US history. This unjust and excessive increase would further cause everyday Floridians, especially Black and Brown communities, to fall deeper into a burden caused by the high costs of living currently.

During the public service hearings, we witnessed firsthand how real Floridians are currently struggling to pay their bills, rent, groceries, and medications. Community organizations are standing up against corporate greed and revealing the conditions that everyday Florida residents are currently experiencing.

The PSC should prioritize consumers by ensuring fair and affordable utility rates. I urge the Public Service Commission to reject this massive rate hike and stand by Floridians and not for-profit corporations. We need affordable and clean energy.

Sincerely,
Mr. Brian Gray
