Subject: A financial industry insider blew the whistle on the solar energy company Sunnova, How Stupid are WE??????????????????

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

FYI: News gets worse while FL continues to build out CCP Solar/Battery Base load energy supply!!!!!!!!!!!!!!

Party is over fewer checks come from DC, make solar un competitive to supply Base load energy to residents and Businesses. Fine if a home owner wants to install without Gov subsidies roof panels but not for industrial/base-load supply.

Lobbying firms dig in making false claims about LNG, supply an Pricing!!!!!! While FL continues to shut down, fossil fueled plants with plenty of life remaining in favor of CCP Solar.

Advise what our legislature is doing stop the Madness, with Solar an establish a plan to insure plentiful, reliable, affordable energy for our state?

Bob Trento
Naples FL

(sunnova.com)

A financial industry insider blew the whistle on the solar energy company Sunnova, filing a 22-page memo with the IRS in May 2023 that

accused the company of reporting a “massively higher” number of rooftop solar systems to the feds than to investors in an attempt to secure taxpayer funding. Months later, the Biden administration approved Sunnova for a \$3 billion loan guarantee intended to finance an expansion of rooftop solar panels into low-income areas. The company is now bankrupt.

The stunning series of events “raises questions about whether the Biden administration ignored warning signs about the solar panel company while promoting it as a major partner in its green energy agenda,” our Alana Goodman reports. There were plenty of warning signs: The whistleblower uncovered tens of thousands of “hidden” cells in a quarterly spreadsheet Sunnova published online that allegedly directed the company’s analysts to include customers who purchased solar batteries in its count of customers who purchased entire systems.

The Trump administration canceled Sunnova’s loan agreement. “Sunnova filed for bankruptcy in June, months after warning investors that it had run out of money.”
