OF JEFFREY B BATES

7

On behalf of Florida Public Utilities Company and Florida City Gas

8

Q. Please state your name and business address.

9

A. My name is Jeffrey Bates. My business address is 331 W. Central Ave, Suite

10

238, Winter Haven, FL 33880.

11

Q. By whom are you employed and in what capacity?

12

A. I am employed by Florida Public Utilities Company ("FPUC" or "Company")

13

as a Senior Energy Logistics Analyst.

14

Q. Can you please provide a brief overview of your educational and employment background?

15

16

A. I graduated from Delaware State University in 1994 with a Bachelor's of Science

17

degree in Accounting. I graduated from Wilmington University in 1999 with a

18

Masters of Business Administration. I have been employed by FPUC since

19

January of 1996.

20

Q. Are you familiar with the Purchased Gas Adjustment (PGA) clause of the Company and the associated projected and actual revenues and costs?

21

22

A. Yes.

23

Q. Have you ever testified before the Florida Public Service Commission ("FPSC")?

24

DOCKET NO. 20250003-GU

1 A. Yes.

2 **Q. Are you sponsoring any Exhibits in this case?**

3 A. No. Numerical references made in my testimony relate to Exhibit DW-2 being
4 sponsored by Diana Williams.

5 **Q. Have there been any changes in the PGA filing compared to the prior year?**

6 No.

7 **Q. Please describe how the forecasts of pipeline charges and commodity costs
8 of gas were developed for the projection period.**

9 A. The purchases for the gas cost projection model are based on projected sales to
10 traditional non-transportation service customers. Florida Gas Transmission
11 Company's ("FGT") FTS-1, FTS-2, FTS-3, NNTS-1, and ITS-1 Gulfstream
12 Natural Gas, and the Florida Southeast Connection ("FSC") effective charges
13 (including surcharges) and fuel rates, based on the prices from the FGT,
14 Gulfstream posted rates and FSC rates from a precedent agreement. These were
15 used for the entire projection period. As is further explained herein, the
16 Company has also included costs related to the various expansion projects in the
17 counties of Palm Beach, Polk and Nassau. FPUC has entered into an Asset
18 Management Agreement ("AMA") with Emera Energy to help facilitate the
19 delivery of natural gas in the northeast division. Also, the Company has
20 included costs related to compressed and liquified natural gas used to bring
21 supply to areas as a virtual pipeline for emergency and planned services. The
22 expected costs of natural gas purchased by the Company during the projection
23 period were developed using actual prices paid during relevant historical periods

DOCKET NO. 20250003-GU

1 and the Henry Hub natural gas futures settlements provided by the Nymex plus
2 the locational basis settlements at FGT Zone 3 provided by Intercontinental
3 Exchange through the end of the projection period. The forecasts of the
4 commodity costs were then adjusted to reflect the unexpected potential market
5 increases in the projection period.

6 **Q. Please describe how the forecasts of the weighted average cost of gas are**
7 **developed for the projection period.**

8 A. The Company has forecasted the 2026 weighted average cost of gas using the
9 projected monthly pipeline demand costs, less the projected cost of capacity
10 temporarily relinquished to third parties, the projected pipeline usage and no-
11 notice costs and the projected supplier commodity costs. The weighted average
12 cost of gas also includes projected costs related to our purchased gas functions
13 and anticipated a credit for the swing service rider and transportation balancing
14 charge. The sum of these costs is then divided by the projected therm sales to
15 the traditional non-transportation customers resulting in the projected weighted
16 average cost of gas and ultimately the PGA recovery (cap) factor, as shown on
17 Schedule E-1. Capacity shortfall if any, would be satisfied by gas and capacity
18 repackaged and delivered by another FGT, or Gulfstream capacity holder. If
19 other services become available and it is economic to dispatch supplies under
20 those services, the Company will utilize those services as part of its portfolio.

21 **Q. Are the pipeline capacity and supply costs associated with expansions**
22 **appropriate for recovery in the PGA docket?**

DOCKET NO. 20250003-GU

1 A. Yes. Historically, the Commission has allowed recovery, through the clause, of
2 upstream transmission pipeline capacity, transportation and related supply costs
3 associated with service expansions to new areas.

4 **Q. Did you include costs of other expansions or interconnects related to Florida**
5 **Public Utilities Company and Florida City Gas in the calculations of your**
6 **true-up and projected amounts?**

7 A. Yes. There is a Local Distribution Company ("LDC") to LDC interconnect with
8 TECO/PGS and FPUC (former CFG facilities) for pressure stabilization of
9 FPUC's system in Hernando County. There is also an interconnection to
10 FPUC's facilities for Gulfstream's Baseball City Gate southward through
11 Davenport and Haines City and the expansion into Escambia County. There is
12 an interconnection to FPUC's facilities from a new Gulfstream gate station in
13 Auburndale. There are additional expansion projects and reinforcement projects
14 that will enhance delivery in Hillsborough and Polk counties serving FPUC
15 customers. The East Coast Reinforcement Projects will increase supply
16 capability and enhance reliability to FPUC's service territories in Boynton
17 Beach and New Smyrna Beach. There are multi-phase expansion projects in
18 Nassau County that will serve FPUC Residential and Commercial customers.
19 Finally, there is are expansion project in the area of St Cloud, Plant City, and
20 Lake Mattie, Florida that will serve projected growth for FPUC customers.
21 Additionally, for FCG, the Indian River, Pioneer Supply Header, Brevard and
22 Medley reinforcement and expansion projects.

DOCKET NO. 20250003-GU

1 **Q. Please explain the Swing Service Rider and Transportation Balancing**
2 **Charge.**

3 A. On April 11, 2016, Docket No. 20160085-GU, Florida Public Utilities, CFG,
4 Florida Public Utilities Indiantown and Ft. Meade Divisions (“FPUC”) the
5 Companies) filed a joint petition for approval of the Swing Service Rider with
6 this Commission. The Swing Service Rider proposed that the allocation of all
7 costs be expanded to include transportation service customers on FPUC’s
8 system (i.e., customers who are not part of the current PGA mechanism) as well
9 as shippers that are not part of the TTS pools. The Companies believe that these
10 customers ultimately should bear their fair portion of the intrastate capacity
11 costs. However, the Companies recognize that shippers for the larger classes of
12 customers provide a service under contracts that will likely need to be amended
13 to adjust for the revised cost allocations and systems need to be implemented to
14 allow for billing of these charges to transportation customers and/or shippers.
15 This petition was approved September 2016, Order No. PSC-2016-0422-TRF-
16 GU. In a similar way per March 2024, Order No. PFSC-2024-0076-TRF-GU
17 FCG allocates the incremental portion of the capacity and storage costs to the
18 Transportation Customers.

19 **Q. What is the effect of Swing Service Rider and Transportation Balancing**
20 **Charge on PGA costs?**

21 A. As shown on Schedule E-1, the Companies have reduced PGA costs of
22 \$28,915,640 attributable to the Swing Service Rider and Transportation
23 Balancing Charge allocated to certain gas transportation customers.

1 **Q. Have the appropriate related costs and credits been included in the**
2 **Projections for 2026?**

3 A. Yes, as more specifically reflected in Schedule E-1 and E-3 of Exhibit DW-2, the
4 Companies have included the costs of existing and planned interstate and
5 intrastate capacity agreements, as well as the costs associated with the Swing
6 Service Rider as described above.

7 **Q. Did you include costs in addition to the costs specific to purchased gas in**
8 **the calculations of your true-up and projected amounts?**

9 A. Yes, included with our purchased gas costs are consulting and legal expenses to
10 assist in the advancement of our PGA processes. Additionally, the Company has
11 included costs associated with a software tool used by the Company to manage
12 customer usage and assist in determining the gas supply needs for the rate classes
13 subject to the PGA. This new system went live in May of 2022. These costs
14 directly influence the Company's PGA factor and are appropriate for recovery
15 through the PGA clause. Also, in addition to these costs, there is a level of
16 payroll and departmental expenses included for employees directly involved in
17 the PGA process, which is similar to payroll included in the Companies
18 conservation clauses.

19 **Q. Please explain how these costs were determined to be recoverable under the**
20 **PGA clause.**

21 A. The costs the Company has included are integrally related to the gas purchase
22 function and were not anticipated or included in the cost levels used to establish
23 the current base rates. These costs relate to the Company's optimization of fuel

DOCKET NO. 20250003-GU

1 supply in an effort to protect current fuel savings, and directly benefit our
2 customers. These costs have historically been allowed for recovery through the
3 PGA and are not being recovered through the Companies' base rates.

4 **Q. What is the projection period for this filing?**

5 A. The projection period is January through December 2026.

6 **Q. Does this conclude your testimony?**

7 A. Yes.

PREPARED DIRECT TESTIMONY

OF

MATTHEW E. ELLIOTT

Q. Please state your name, business address, by whom you are employed, and in what capacity?

A. My name is Matthew E. Elliott. My business address is 3600 Midtown Drive, Tampa, Florida 33607. I am employed by Peoples Gas System, Inc. ("Peoples" or the "company") as the Manager, Regulatory Affairs.

Q. Please describe your educational and employment background.

A. I graduated from the University of South Florida in 1999 with a Bachelor of Arts degree in Business Administration with a concentration in accounting. I completed a fifth year of accounting credits at University of South Florida in 2012 and was licensed as a Certified Public Account in the State of Florida in June 2013. My work experience includes sixteen years of gas and electric utility experience. My utility work has included various positions in Corporate Tax, Audit Services, Pipeline

1 Compliance, Safety, and Regulatory Affairs. In my current
2 position, I am responsible for Peoples' Purchased Gas
3 Adjustment ("PGA") Clause, Natural Gas Conservation Cost
4 Recovery Clause, Cast-Iron Bare Steel Replacement Rider,
5 and various other regulatory activities at Peoples.

6
7 **Q.** What is the purpose of your testimony in this docket?

8
9 **A.** The purpose of my testimony is to describe generally the
10 components of Peoples' cost of purchased gas and
11 upstream pipeline capacity. I also explain how Peoples'
12 projected weighted average cost of gas ("WACOG") for the
13 January 2026 through December 2026 period was determined
14 and the resulting requested maximum PGA ("Cap").

15
16 **Q.** Have you prepared an exhibit to support your direct
17 testimony in this proceeding?

18
19 **A.** Yes. Exhibit MEE-2, consisting of one document, was
20 prepared by me or under my direction and supervision.
21 Document No. 1 contains Schedules E-1 through E-5
22 showing the calculation of Peoples' 2026 PGA cap factor.

23
24 **Q.** What is the appropriate final purchased gas adjustment
25 true-up amount for the period January 2024 through

December 2024?

A. As shown on Schedule E-4, the final PGA true-up amount for the year 2024 is an over-recovery of \$2,839,660.

Q. What is the estimated purchased gas adjustment true-up amount for the period January 2025 through December 2025?

A. As shown on Schedule E-4, the estimated PGA true-up amount for 2025 is an under-recovery of \$590,166.

Q. What is the total purchased gas adjustment true-up amount to be collected during the period January 2026 through December 2026?

A. As shown on Schedule E-4, the total PGA true-up amount to be refunded in 2026 is an over-recovery of \$2,249,493.

Q. How did Peoples estimate the amount of gas to be purchased from various sources during the projected period of January 2026 through December 2026?

A. Peoples' projected gas purchases are based on the

1 company's preliminary total throughput of therms
2 delivered to customers projected for 2026, including
3 both sales of Peoples' system supply and transportation
4 deliveries of third-party gas purchased by end-users of
5 Peoples. The throughput was then adjusted for the
6 anticipated level of transportation service.
7

8 **Q.** How are revenues derived from Peoples' Swing Service
9 Charge accounted for through the PGA Clause?
10

11 **A.** Customers who participate in the Natural Choice program
12 pay a Swing Service Charge. The Swing Service Charge
13 covers costs included in the PGA for balancing the
14 difference between marketer-supplied gas and the
15 customers' actual consumption. The revenues from the
16 Swing Service Charge are credited to the PGA to offset
17 this expense.
18

19 **Q.** How did you estimate the purchase price to be paid by
20 Peoples for each of its available sources of gas supply?
21

22 **A.** Peoples estimates natural gas prices based on futures
23 contracts as reported on the New York Mercantile
24 Exchange. For the projection period of January 2026
25 through December 2026, Peoples uses natural gas futures

1 settlement prices as traded on the New York Mercantile
2 Exchange, averaged over five consecutive business days
3 in June 2025 (i.e., June 24th - 27th and 30th) to forecast
4 natural gas prices. The price projection is then
5 adjusted to reflect any basis differential between zones
6 and the potential for unexpected and unforeseen changes
7 due to market forces for natural gas prices in the
8 projection period.

9
10 **Q.** Referring to Schedules E-3 (A) through (G) of Composite
11 Exhibit MEE-2, please explain the components of these
12 schedules and the assumptions that were made in
13 developing the company's projections.

14
15 **A.** Schedule E-3, column (G) is a compilation of the annual
16 data that appears on Schedules E-3 (E) through (F) for
17 the year ending December 31, 2026. In Column (B), "FGT"
18 indicates that the volumes are to be purchased for
19 delivery via the Florida Gas Transmission Company
20 interstate pipeline transportation. "SONAT" indicates
21 that the volumes are to be purchased for delivery via
22 the Southern Natural Gas Company interstate pipeline
23 transportation. "GULFSTREAM" indicates that the volumes
24 are to be purchased for delivery via Gulfstream Natural
25 Gas System interstate pipeline transportation.

1 "SEACOAST" indicates the volumes are to be purchased for
2 delivery via the SeaCoast Gas Transmission intrastate
3 pipeline transportation. "THIRD PARTY" indicates that
4 the volumes are to be purchased directly from various
5 third-party suppliers for delivery into FGT, SONAT, or
6 Gulfstream.

7
8 In Column (C), "PGS" means the purchase will be for
9 Peoples' system supply and will become part of Peoples'
10 total WACOG. None of the costs of gas or transportation
11 for end-use purchases made by end-use customers of
12 Peoples are included in Peoples' WACOG. In Column (D),
13 purchases of pipeline transportation services from FGT
14 under Rate Schedules FTS-1, FTS-2, and FTS-3 are split
15 into two components, commodity (or "usage") and demand
16 (or "reservation"). Both Peoples and end-users pay the
17 usage charge based on the actual amount of gas
18 transported. The FTS-1, FTS-2, and FTS-3 commodity costs
19 shown include all related transportation charges
20 including usage, fuel, and Annual Charge Adjustment
21 ("ACA") charges. The FTS-1, FTS-2, and FTS-3 demand
22 component is a fixed charge based on the maximum daily
23 quantity of FTS-1, FTS-2, and FTS-3 firm transportation
24 capacity reserved. Similarly, the transportation rates
25 of SONAT and Gulfstream consist of two components, a

1 usage charge and a reservation charge, whereas SeaCoast
2 consists of one component, a reservation charge.
3 Individual Transportation Service customers reimburse
4 Peoples or directly pay the upstream pipeline for all
5 pipeline reservation charges associated with the
6 transportation capacity that Peoples reserves and uses
7 on their behalf.

8
9 Also, in Column (D), "NO NOTICE TRANSPORTATION SERVICE"
10 (or "NNTS") represents FGT's no notice service provided
11 to Peoples on a fixed charge basis for use when Peoples'
12 actual use exceeds scheduled quantities. "SWING SERVICE"
13 is the demand and commodity component of the cost of
14 third-party supplies purchased to meet Peoples "swing"
15 requirements for supply that fluctuate on a day-to-day
16 basis. Column (E) captures the annual quantity in terms
17 of gas purchased by Peoples for each category of system
18 supply.

19
20 Column (F) is the gas purchased by end-users for
21 transportation. Column (G) is the total of Columns (E)
22 and (F) in each row. Columns (H), (I), (J) and (K)
23 represent the corresponding third-party supplier
24 commodity costs, pipeline transportation commodity
25 costs, pipeline transportation reservation costs, and

1 other charges (e.g., balancing charges), respectively.
2 These costs are determined using the actual amounts paid
3 by Peoples. In the case of end-user transportation,
4 these costs are reimbursed to Peoples or paid directly
5 to FGT. All ACA and fuel charges are included in the
6 commodity costs in Column (I) and, therefore, are not
7 shown in Column (K). Column (L) in each row is the sum
8 of Columns (H), (I), (J) and (K) divided by Column (G).
9

10 **Q.** Please explain the components of these schedules and the
11 assumptions that were made in developing the company's
12 projections.
13

14 **A.** Schedule E-1 shows the Cost of Gas Purchased, Therms
15 Purchased, and Cents Per Therm for all rate classes.
16

17 The costs associated with various categories or items
18 are shown on lines 1 through 14. Line 6 on Schedule E-1
19 includes legal expenses associated with various
20 interstate pipeline dockets, such as tariff filings,
21 seasonal fuel filings, and certification proceedings.
22 These expenses have historically been included for
23 recovery through the Purchased Gas Adjustment Clause
24 because they are fuel-related expenses. The volumes
25 consumed for similar categories or items are shown on

1 lines 15 through 27, and the resulting effective cost
2 per therm rate for each similar category or item is
3 contained on lines 28 through 45. The data shown on
4 Schedule E-1 is calculated from Schedules E-3 (A)
5 through (F) for the year ending December 31, 2026.
6

7 **Q.** What information is presented on Schedule E-1/R of
8 Composite Exhibit MEE-2?
9

10 **A.** Schedule E-1/R of Composite Exhibit MEE-2 shows six
11 months actual and six months estimated data for the
12 current period from January 2025 through December 2025
13 for all customer classes.
14

15 **Q.** What information is presented on Schedule E-2 of
16 Composite Exhibit MEE-2?
17

18 **A.** Schedule E-2 of Composite Exhibit MEE-2 shows the amount
19 of the prior period over/under recoveries of gas costs
20 that are included in the current PGA calculation.
21

22 **Q.** What is the purpose of Schedule E-4 of Composite Exhibit
23 MEE-2?
24

25 **A.** Schedule E-4 of Composite Exhibit MEE-2 shows the

1 calculation of the estimated true-up amount for the
2 January 2025 through December 2025 period. It is based
3 on actual data for six months and projected data for six
4 months.

5
6 **Q.** What information is contained on Schedule E-5 of
7 Composite Exhibit MEE-2?

8
9 **A.** Schedule E-5 of Composite Exhibit MEE-2 is statistical
10 data that includes the projected therm sales and numbers
11 of customers by customer class for the period from
12 January 2026 through December 2026.

13
14 **Q.** Did the Commission recently approve a modification to
15 the company's sharing mechanism contained in the Off-
16 System Service ("OSS") tariff?

17
18 **A.** Yes. In Order No. PSC-2025-0282-TRF-GU, issued on July
19 21, 2025, the Commission approved the company's proposed
20 revision to the OSS rate schedule to allow revenues
21 received from off-system sales to be shared 50/50
22 instead of 25/75. Accordingly, with this approved
23 modification, 50 percent of the net off-system sales
24 revenues are now credited to the PGA and 50 percent go
25 to PGS as above the line revenues.

1 **Q.** What is the appropriate cap factor for which Peoples
2 seeks approval?

3

4 **A.** The WACOG for which Peoples seeks approval as the annual
5 cap is a factor of \$1.16057 per therm as shown on Line
6 44 of Schedule E-1. This annual cap will be applicable
7 to all rate classes.

8

9 **Q.** Please summarize your testimony.

10

11 **A.** My testimony describes (1) the projections and
12 assumptions used to estimate the purchase price to be
13 paid by Peoples for such gas supplies, and (2) the
14 components and assumptions used to develop Peoples'
15 projected WACOG including the projected true-up balance
16 to be collected or refunded.

17

18 **Q.** Does this conclude your testimony?

19

20 **A.** Yes, it does.

Q. What is the purpose of your testimony in this docket?

A. The purpose of my testimony is to address (1) how the company will obtain its gas supplies during the projected period, and (2) the estimates and adjustments used to determine the amount of gas to be purchased from Peoples' available sources during the projected period.

Q. Please describe how Peoples will obtain its gas supplies during the projected period of January 2026 through December 2026.

A. Natural gas delivered through Peoples' distribution system is received through three interstate pipelines and one intrastate pipeline. Gas is delivered through Florida Gas Transmission Company ("FGT"), Southern Natural Gas Company ("SONAT"), Gulfstream Natural Gas System ("Gulfstream"), and SeaCoast Gas Transmission ("SeaCoast"). Receiving gas supply through multiple upstream pipelines provides the company with valuable flexibility and reliability to serve customers.

Q. In general, how does Peoples determine its sources of supply?

1
2 **A.** Peoples evaluates, selects, and utilizes sources of
3 natural gas supply based on its "best value" gas
4 acquisition strategy. For a source of supply to be
5 identified as "best value," it must offer the best
6 combination of price, reliability of supply, and
7 flexibility. This is consistent with Peoples' obligation
8 as a public utility to provide safe, adequate, and
9 efficient service to our customers. Through a
10 competitive bidding process, Peoples has a portfolio of
11 supply sources from numerous third parties that reflect
12 balance between cost, reliability, and operational
13 flexibility

14
15 **Q.** Could Peoples purchase all third-party supplies in
16 advance for a long term at the lowest available fixed
17 price to provide increased stability to its cost of gas?

18
19 **A.** No. Peoples' quantity requirements for system supply gas
20 vary significantly according to year, season, month, and
21 day. The variability in the demand for gas on Peoples'
22 system is driven by the requirements of its customers.
23 As a result, the actual quantity of gas taken out of
24 Peoples' system by transport customers varies. Since
25 significant portions of the total transportation volumes

1 are received by Peoples at a uniform daily rate, Peoples
2 increases or decreases the volumes purchased for its own
3 system supply to maintain a daily balance between
4 receipts and deliveries of gas. Therefore, Peoples must
5 buy a portion of its total system requirements under
6 swing contract arrangements and meet variations in
7 delivered volumes by relying on swing gas, peaking gas,
8 pipeline balancing volumes, and pipeline no notice
9 service at the prevailing rates for such services.
10

11 **Q.** What has contributed to the stable price of natural gas
12 in 2025 and the higher price projected for 2026 compared
13 to 2025?

14
15 **A.** Strong domestic storage injections and lower domestic
16 natural gas production is the primary factor contributing
17 to the stable natural gas prices in 2025. Higher natural
18 gas prices are expected in 2026 because of the draw down
19 of domestic storage inventories throughout 2025 and new
20 demand from liquefied natural gas export projects.

21 **Q.** Please summarize your testimony.
22

23 **A.** My testimony addresses how the company will obtain its
24 gas supplies during the projected period, the estimates

1 and adjustments used to determine the amount of gas to
2 be purchased from Peoples' available sources during
3 the projected period, and what is driving higher
4 natural gas prices in 2026.

5
6 **Q.** Does this conclude your testimony?

7
8 **A.** Yes, it does.

1 CHAIRMAN LA ROSA: Let's go to exhibits.

2 MR. BLOOM: Staff has compiled a Comprehensive
3 Exhibit List, which includes the prefiled exhibits
4 attached to the witnesses' testimony in this case,
5 as well as staff exhibits. The list has been
6 provided to the parties, the Commissioners and the
7 court reporter.

8 Staff requests that the Comprehensive Exhibit
9 List be marked as Exhibit No. 1, and the other
10 exhibits as marked as set forth in the
11 Comprehensive Exhibit List.

12 (Whereupon, Exhibit Nos. 1-20 were marked for
13 identification.)

14 CHAIRMAN LA ROSA: All right. Do any of the
15 parties have any additional matters that need to be
16 addressed?

17 Seeing none, then can -- I am going to go to
18 staff on this. I want to make sure I got my notes
19 accurately in front of me, make sure I need to take
20 a vote on this.

21 MR. BLOOM: I believe we also need to address
22 Exhibits 2 through 20.

23 CHAIRMAN LA ROSA: Yes, let's go ahead and do
24 that then.

25 MR. BLOOM: Staff requests to move Exhibits 2

1 through 20 into the record as set forth on the
2 Comprehensive Exhibit List.

3 CHAIRMAN LA ROSA: All right. Any objections?
4 Seeing none, then so moved.

5 (Whereupon, Exhibit Nos. 1-20 were was
6 received into evidence.)

7 MR. BLOOM: Because the parties have reached
8 Type 2 stipulations, with the intervenors not
9 objecting to the Commission considering the
10 stipulations on all issues in this case, staff
11 suggests that the Commission may make a bench
12 decision in this docket because the parties agreed
13 to waive post-hearing briefs.

14 Staff is also available to answer any
15 questions.

16 CHAIRMAN LA ROSA: All right. So,
17 Commissioners, now it's back to us. Are there any
18 questions?

19 All right. I tried to derail us. You guys
20 didn't let me. All right. So seeing nothing
21 before us, are there -- open for a motion.

22 COMMISSIONER PASSIDOMO SMITH: Mr. Chair, I
23 would move to approve the proposed Type 2
24 stipulations as shown on pages eight through 10 of
25 the Prehearing Order.

1 COMMISSIONER GRAHAM: Second.

2 CHAIRMAN LA ROSA: Hearing a motion, and
3 hearing a second.

4 All those in favor signify by saying yay.

5 (Chorus of yays.)

6 CHAIRMAN LA ROSA: Yay.

7 Opposed no?

8 (No response.)

9 CHAIRMAN LA ROSA: Show that it is approved as
10 stipulated and motioned.

11 All right. Any other matters that need to be
12 addressed for us in 03?

13 MR. BLOOM: All issues, testimony and exhibits
14 have been stipulated to, and all stipulations have
15 been approved by the Commission. Staff has no
16 additional matters to address.

17 CHAIRMAN LA ROSA: All right. Parties?

18 Seeing none, let's go ahead and adjourn the 03
