Subject: Revoke Teco's recent rate increase approval

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

To Whom it may concern,

Teco does not need another rate increase for YEARS. Our service quality has not changed over the years and this increase will push my power bill close to \$900 a month and \$1000 plus in the peak of the summer! I live in a new construction energy efficient home. My power bill is now \$700 more a month in the summer than it was in 2020. These continued increases are not sustainable as a homeowner. Please Please Please rescind the approval! This is a Canadian Owned company that is strictly looking to line their own pockets! This has become fraud and price gouging!

Thank you!

Alexis Lelekis
