Subject: ANOTHER TECO RATE INCREASE

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I am an 80 year old senior in Tampa living on a fixed income. We just had a cold spell and I had to decide whether I could afford to turn my heat on or risk getting sick.

You, the Public Service Commission raised our rates 6 times in the last 2 1/2 years and now you've approved another increase for January 2026.

Which "public" do you serve? There is absolutely no justification in all those increases; in fact at one point you lowered our bill because of too many complaints from TECO customers so why the new rate increase?

Are any of you ethical, concerned or even compassionate about the toll these increases are taking on the public you were hired to serve?

I honestly wonder how you sleep at night.
