COMPLAINT INFORMATION

Complaint: Delay in Service against Tampa Electric Company
Details:

I am writing to express my concern about the steep rise in my electricity bills as a TECO customer. Since 2020, my bills have increased by 82%, which has put a significant strain on my household budget. This dramatic increase has made it very challenging for my family to manage our energy costs, especially during a time of high living expenses in Florida. I believe utility regulators have failed to adequately protect consumers from these repeated rate hikes, and urge TECO and the Public Service Commission to reconsider policies that make basic energy unaffordable for so many residents.
