Response requested? yes

Comments:

It absolutely ridiculous that the PSC keeps improving TECO rate increases each year. My monthly bill has seen at least a 10% increase over the past few years for rate increase, storm charges, and other charges where my salary is not keeping pace. It seems to me the PSC commissioners are in bed with the CEO Archie Collins. We need change at the commission. I plan to reach to the Governor's office to see what can be done

Comments:

Just curious to why Teco needed another rate increase? We are already paying for storm improvement and storm recovery.

Details:

No increase for Teco. This is ridiculous. We just had huge increase this year. They shouldn't be allowed to do this. They make too much money.

Details:

Rate hikes every year to restore the grid and we didn't have a storm this year. Im going to have to burn candles soon.
Another 5% , when will it stop

Subject: Tampa electric rate increase

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I just found out that your office approved an additional rate increase again for Tampa electric. Our bills are already outrageous. Plus energy bills should be going up but instead they should be coming down. We are still recovering from the the hurricanes as well and my insurance that I received didn't cover all of the damages. But my insurance company hasn't offers to give me more money. Your organization is suppose to help the consumer not put us in the poor house.

Please adjust this and make it right..
