Comments:

November 3, 2025 To the Public Service Commission Re: Fourth Rate Increase by TECO If it walks like a profiteer and talks like a profiteer, we believe it. TECO chooses to make money for Emera, its Canadian parent company. Public Service Commission staff recommended against the last rate hike, and commissioners chose not to follow that wise recommendation, placing an immense burden on the citizens of Tampa. The fact that TECO is choosing coal and gas over earth friendly technologies adds to the company's overwhelmingly negative image in our community. TECO's indifference to our needs is astounding. Do not allow TECO to inflict further suffering on citizens of Tampa. Please do not approve another unjustified increase in rates on the citizens of Tampa.

Please do not approve this third rate hike this year for TECO. We as customers are all suffering from the high costs of living and electricity is already unaffordable.

Thank you
Frank Vognet

Please .rate increases are hurting all users of TECO . TECO has high profits . STOP fleecing Floridians . It is a monopoly -and Florida residents are not allowed a choice. Perhaps its time to stop the monopoly..SAY NO TO TECO

Storms are the risk the private power monopolies took on! Cut their profits !

Susan

COMPLAINT INFORMATION

Complaint: Other Complaints against Tampa Electric Company

Details:

I saw on the news this morning that TECO is trying to raise electric rates AGAIN. They've already had two rate increases this year. They do not need another one. Please deny their petition to raise our electric rates. They have the second highest average electric bills in the country. Please don't let them be #1. Their customers are suffering because of their greed.

NO! It is obvious as to the reason why. No more increase, learn to budget like the rest of us.

Comments:

Why do you keep allowing TECO to raise our rates? This is ridiculous! My bill is triple what it was 5 years ago. I cannot afford a \$500 plus dollar electric bill each month. This needs to stop!
