Authority Pursuant to Section 214 of
The Communications Act of 1934, As Amended,
To Discontinue the Provision of Service

SECTION 63.71 APPLICATION OF AT&T

AT&T¹ applies for authority under Section 214(a) of the Communications Act, as amended, 47 U.S.C. § 214, and Section 63.71 of the Federal Communications Commission's ("Commission") rules, 47 C.F.R. § 63.71, to discontinue certain call forwarding services in certain wire centers located in 19 states.

¹ AT&T Services, Inc. files this application on behalf of its affiliates set out in the caption.

INTRODUCTION

Through this application, AT&T seeks to discontinue Remote Call Forwarding Service or TeleBranch (referred to collectively as “RCF” or the “Affected Service”) in portions of certain wire centers located in 19 states (the “Affected Service Area”). AT&T has previously grandfathered the Affected Service in the Affected Service Area² and earlier this year discontinued the Affected Service in other AT&T wire centers.³ As with AT&T’s earlier applications, discontinuing this outdated service will benefit the public and serve as an important step toward meeting both AT&T’s and the Commission’s goals of advancing next-generation communication technologies.⁴

Upon discontinuance, current customers of the Affected Service (“Affected Customers”) will have many cost-effective alternatives to choose from as alternatives for the Affected Service. These options include remote call forwarding on AT&T Phone for Business – Advanced (“APB-A”), which AT&T specifically designed as a reliable and cost-effective

² See Section 63.71 Application of AT&T, WC Dkt No. 23-398 (filed Nov. 16, 2023); *Id.*, WC Dkt No. 25-46 (filed Jan. 31, 2025). AT&T has also grandfathered the Affected Service in certain wire centers included in this application pursuant to the Commission’s recent order waiving the requirement to file applications to grandfather legacy voice services. *Accelerating Wireline Broadband Deployment by Removing Barriers to Infrastructure Investment*, Order, DA 25-251, WC Dkt No. 17-84 (rel. Mar. 20, 2025).

³ Section 63.71 Application of AT&T, WC Dkt No. 25-229 (filed July 15, 2025).

⁴ See, e.g., *Reducing Barriers to Network Improvements and Service Changes*; *Accelerating Network Modernization*, Statement of Chairman Brendan Carr, WC Dkt No. 25-209 (rel. July 25, 2025) (“We are looking to unleash the private sector to build the modern networks of the future and ensure that providers are no longer forced to invest billions of dollars in aging technology.”); FCC, *Connecting America: The National Broadband Plan* at 59 (Mar. 16, 2010) (“require[ing] certain carriers to maintain POTS...is not sustainable—and...can have a number of unintended consequences, including siphoning investments away from new networks and services”).

alternative to legacy voice services.⁵ APB-A is broadly available throughout the Affected Service Area. In addition to APB-A, there is an array of competitive voice offerings with call forwarding services that are offered over cable, fiber, and mobile wireless technologies in the Affected Service Area.

APPLICATION

As required by Section 63.71 of the Commission's rules, AT&T provides the following information:

Name and Address of Carrier:

BellSouth Telecommunications, LLC, d/b/a AT&T Alabama, AT&T Florida, AT&T Georgia, AT&T Kentucky, AT&T Louisiana, AT&T Mississippi, AT&T North Carolina, AT&T South Carolina and AT&T Tennessee;

Illinois Bell Telephone Company, LLC d/b/a AT&T Illinois;

Indiana Bell Telephone Company, LLC, d/b/a AT&T Indiana;

Michigan Bell Telephone Company, LLC, d/b/a AT&T Michigan;

The Ohio Bell Telephone Company, LLC, d/b/a AT&T Ohio;

Southwestern Bell Telephone Company, LLC, d/b/a AT&T Arkansas, AT&T Kansas, AT&T Missouri, AT&T Oklahoma, and AT&T Texas;

Wisconsin Bell, LLC, d/b/a AT&T Wisconsin.

⁵ AT&T recently introduced an updated and renamed version of APB-A called AT&T Business Voice ("ABV"). ABV uses the same technology and customer equipment as APB-A and has all the same features plus additional ones, including improved voicemail, call handling, and call screening functionality. The technical performance of ABV does not vary from APB-A. ABV launched on June 17, 2025, and is in the process of being introduced to different market segments. Currently, depending on the market segment, the service may be sold to customers as ABV or APB-A. For simplicity's sake, in this application references to "APB-A" include ABV.

Date of Planned Service Discontinuance:

Effective on or after November 15, 2026, pending regulatory approval, AT&T's Affected Service will be discontinued.

Points of Geographic Areas of Service Affected:

AT&T plans to discontinue the Affected Service in the Affected Service Area in sections of 19 states: Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Michigan, Missouri, Mississippi, North Carolina, Ohio, Oklahoma, South Carolina, Tennessee, Texas, and Wisconsin. Exhibit 1 identifies the list of AT&T wire centers in each state that include any service areas that fall within the Affected Service Area.

Brief Description of Type of Service Affected:

RCF permits a customer in one exchange to arrange for calls made to a different telephone number in the same or different exchange (where RCF facilities are available) to be automatically forwarded and automatically billed to the customer's station. In other words, RCF is a service whereby incoming calls to the RCF telephone number are automatically forwarded by the Company's central office equipment to another number designated by the customer.

Brief Description of the Dates and Method of Notice to All Affected Customers:

Customer notices were sent via U.S. Mail on November 14, 2025 for Affected Customers of the Affected Service.⁶ Copies of this Application are being sent via first class U.S. Mail to the governor, public utility commission, federally recognized tribes (if any) in the Affected Service Area, and to the Special Assistant for Telecommunications to the Secretary of Defense, as required by 63.71(a) of the Commission's rules.⁷

⁶ An example notice is attached at Exhibit 2.

⁷ Section 63.71(a) directs applicants to submit a copy of the application to the Secretary of Defense, Special Assistant for Telecommunications. However, due to restructuring within the

Regulatory Classification of Carrier:

AT&T offers the Affected Service pursuant to non-dominant carrier regulation.

Questions about this application may be addressed to Meredith Williams, AT&T Services, Inc., AVP – Federal Relations, 601 New Jersey Ave NW, Suite 650, Washington, DC, (202) 227-9725.

Public Convenience and Necessity:

The public convenience and necessity will not be impaired by this discontinuance. The demand for the Affected Service is very low. The small base of existing customers for the Affected Services has been steadily eroding, and AT&T has previously grandfathered the Affected Services in the Affected Service Area. As a result, it is economically inefficient for AT&T to continue to provide the Affected Services.

Affected Customers have access to many readily available and cost-effective alternatives to the Affected Service. They can receive broadband and voice services from multiple fixed broadband providers, whose voice offerings include remote-call-forwarding features. Voice options through mobile wireless providers also allow for remote call forwarding. Most importantly, Affected Customers can use remote call forwarding on AT&T's own APB-A product, which AT&T specifically designed as a cost-effective alternative to legacy voice services.

Department of Defense, that position no longer exists. Commission staff has advised that a copy of the application be sent instead to the Department of Defense Chief Information Officer.

CONCLUSION

For the reasons identified above, the public convenience and necessity will not be adversely affected by the discontinuance of the Affected Service. AT&T respectfully requests the Commission approve its Section 63.71 Application to discontinue services.
