I try to be energy conscious, buy LED bulbs, get energy efficient windows, insulation, etc., but my power bill keeps going up no matter what I do! My peak power bill this summer was almost \$500 for a 3000 sq ft. house with the thermostat set at 76 degrees. This is insane! To add insult to injury, I signed up for the Evolution charging station from FPL to charge my electric vehicle. They just announced they got approved to raise rates 25% for the next 2 years. Ridiculous! Make it stop!
