CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I failed to see how SWSC can justify another rate increase this time at 13%. It seems the PSC hardly ever rejects the increases or publishes any cost breakdowns or justifications for the various increases. I will say that the "company" does a commendable job in our area, but their rates have gone thru the roof since taking over from the past water company. I just wish my social security increase or rate was half of what they are requesting. Thanks for your attention to this matter.
