**VIA E-FILING**

Adam Teitzman, Director, Office of the Commission Clerk  
Florida Public Service Commission

Re: 2026 Revised Electric Tariff Sheets **REVISED VERSION**  
Utilities Commission, City of New Smyrna Beach  
Docket #20260000

Dear Mr. Teitzman:

We serve as general legal counsel to the Utilities Commission, City of New Smyrna Beach d/b/a New Smyrna Beach Utilities (NSBU). We are e-filing the following on behalf of NSBU:

- Agenda and Resolution 2026-02 considered during a public hearing by the NSBU Commission at its December 15, 2025 meeting and to be acted on by the Commission during a public hearing at its January 26, 2026 meeting.
- Revised electric tariff sheets for electric rates which, if approved by the NSBU Commission, will be effective on February 1, 2026.
- A redline version of the revised electric tariff sheets showing the revisions made to the October 1, 2021 tariff sheets.

Two additional comments: Resolution 2025-07 which was filed with this office on August 19, 2025 was *not* adopted by the Commission. New Resolution 2026-02 includes proposed increases to the 2026, 2027, 2028 and 2029 NSBU electric rates. Per previous correspondence with Ms. Elisabeth Draper, we will be e-filing the revised electric tariff sheets with your office for the 2027, 2028, and 2029 rates thirty days before they become effective in the corresponding years.

Please contact me at [heather.ramos@gray-robinson.com](mailto:heather.ramos@gray-robinson.com) or 407-843-8880 with questions. Happy New Year!

Kind regards,

GrayRobinson, P.A.  
Heather Ramos

RESOLUTION NO. 2026-02

A RESOLUTION OF THE UTILITIES COMMISSION, CITY OF NEW SMYRNA BEACH, FLORIDA; MODIFYING RATES, CHARGES, AND FEES RELATED TO ELECTRIC SERVICE; PROVIDING FINDINGS; PROVIDING FOR SEVERABILITY, CONFLICTS, AND AN EFFECTIVE DATE.

NOW, THEREFORE, BE IT RESOLVED BY THE UTILITIES COMMISSION, CITY OF NEW SMYRNA BEACH, FLORIDA, AS FOLLOWS:

(1) Findings and Intent. The Utilities Commission, City of New Smyrna Beach, Florida (the "Utilities Commission") makes the following findings and declares the following legislative intent:

(a) The Utilities Commission is a public authority, political subdivision, and part of the government of the Utilities Commission possessed of powers granted by Special Acts of the Florida Legislature, to wit, Chapter 67-1754, Laws of Florida (1967), as amended by Chapter 85-503, Laws of Florida (1985), which shall be collectively referred to as the "Special Acts."

(b) The Utilities Commission has the exclusive authority over the management, operations and control of all the Utilities Commission's utilities and the authority to prescribe rules and regulations governing the use of such facilities, wherever such are provided by the Utilities Commission and to make such changes from time to time in its rules and regulations as it deems necessary.

(c) The Special Acts grant the Utilities Commission the full and exclusive power and authority to prescribe rules, rates, and regulations governing the sale and use of any Utilities Commission utilities, including the right to acquire or condemn various utility systems and facilities for such purposes.

(d) Pursuant to the Special Acts and other Florida law, the Utilities Commission owns, operates, and manages an electric distribution system on behalf of the City of New Smyrna Beach and the Utilities Commission's customers within an exclusive service territory pursuant to its governmental powers and other law.

(e) As a municipal electric utility, the Utilities Commission has the authority and duty to establish and modify electric user rates, charges, and fees for the Utilities Commission's electric system.

(f) The Utilities Commission currently purchases wholesale power pursuant to contract from the Florida Power & Light Company ("FPL") and other entities.

(g) The Utilities Commission received a study from Raftelis Financial Consultants, Inc., ("Raftelis") titled "2025 Electric, Rates, Charges and Fees" dated August 2025 (the "2025 Study") which reviewed and analyzed electric rates, charges and fees for the Utilities Commission and which recommends changes to the Utilities Commission's current rates, charges and fees. The 2025 Study was revised based on the direction from the Commission during the September 11, 2025, Special Meeting (the "Revised 2025 Study").

(h) Based upon the data and analysis contained in the Revised 2025 Study, it is necessary for the Utilities Commission to adopt the recommended revised changes to its Electric Rates, Charges and Fees.

(i) The Utilities Commission and the City of New Smyrna Beach have previously determined that development at urban level densities within the Utilities Commission's exclusive electric utility service area should be served by centralized electric utility services.

(j) Demands for electric utility service require the purchase of wholesale electric power and the construction of new expanded electric utilities plant and facilities and extensions of the Utilities Commission's electric utility system to areas where new customers may connect and use such services.

(k) Stringent state and federal electric service reliability and operation standards have been promulgated, and increasing costs of constructing electric facilities, both affect the Utilities Commission's ability to provide electric utility services within its exclusive utilities service area.

(l) The financing of electric utility facilities is complex, requires extensive planning and engineering, and calls for advanced participation by the development community so that adequate public facilities can be provided to meet the impacts of that development.

(m) For these and other reasons and based upon the data and analysis contained in the Revised Rate Study, it is necessary for the Utilities Commission to adopt the changes and modifications proposed within this Resolution.

(n) The Utilities Commission has provided the requisite public notice and held the necessary public hearings (preliminary on 12-15-25 and final on 1-26-26) under its rules of procedure and applicable state law in order to adopt this resolution and implement the updated rates, charges, and fees.

**(2) Adoption of Modified Tariff; Authorization to File with the Florida Public Service Commission.** The Utilities Commission hereby adopts the modified Tariff set forth in Attachments "A", "B", "C", "D" and "E" attached to and incorporated in this Resolution. To ensure compliance with the Florida Public Service Commission (FPSC) rules, the Utilities Commission has previously authorized (10-27-25, AI 6-b) General Counsel to file this modified Tariff with the FPSC. The modified Tariff is intended to reflect the rates, terms and conditions contained in this Resolution. The modified Tariff shall take effect on February 1, 2026, following receipt of the filing thereof with the FPSC. Subsequent tariff filings by General Counsel for each fiscal year depicted in this Resolution will additionally occur in accordance with FPSC requirements.

**(3) Severability.** If any provision or portion of this Resolution is declared by any court of competent jurisdiction to be void, unconstitutional, or unenforceable, then all remaining provisions and portions of this Resolution shall remain in full force and effect.

**(4) Repeal of Inconsistent Resolutions.** All policies and rules previously adopted by the Utilities Commission within its resolutions and portions of resolutions in conflict herewith are hereby repealed, including but not limited to Resolution 2021-07.

**(5) Effective Date.** This Resolution and attachments hereto, all of which are incorporated herein in their entirety, shall take effect on February 1, 2026, and the following dates as specified below. The rates, charges and fees adopted hereunder apply to electric services rendered February 1, 2026 [Attachment "A" Fiscal Year (FY) 2026 - partial] and shall be included in the first billing cycle and each subsequent cycle and all statements generated therefrom after February 1, 2026.

In addition to the rates, charges and fees contained in Attachment "A", to go into effect on February 1, 2026, these rates, charges and fees shall be modified for the next four fiscal years as set forth in Attachment "B" [FY 2027]; Attachment "C" [FY 2028]; Attachment "D" [FY 2029]; and Attachment "E" [FY 2030].

The rates, charges and fees set forth in Attachment "B" hereof shall be referred to as the "FY 2027 Rates" and shall take effect on October 1, 2026. The rates, charges and fees set forth in Attachment "C" hereof shall be referred to as the "FY 2028 Rates" and shall take effect on October 1, 2027. The rates, charges and fees set forth in Attachment "D" hereof shall be referred to as the "FY 2029 Rates" and shall take effect on October 1, 2028. The rates, charges and fees set forth in Attachment "E" hereof shall be referred to as the "FY 2030 Rates" and shall take effect on October 1, 2029.

THIS RESOLUTION was introduced at a regular meeting of the Utilities Commission, Utilities Commission of New Smyrna Beach, Florida, held this 26<sup>th</sup> day of January, 2026, by Commissioner \_\_\_\_\_ who moved for its adoption, which motion was seconded by Commissioner \_\_\_\_\_, and upon roll call vote of the Commission was

Terms of Payment	4.0
Security Deposit	4.1
Service Fees	4.3
Line Extensions	4.5
Index of Rates	4.9
Rate Schedules	5.0

RESERVED FOR FUTURE USE LIMITS OF LIABILITY POLICY

The Utilities Commission will use reasonable diligence at all times to provide continuous service at the agreed nominal voltage, and shall not be liable to the Customer or to any other person/ entity for complete or partial failure or interruption of service, or for fluctuations in voltage, resulting from the ordinary negligence of its employees, servants or agents. The Utilities Commission also will not be liable to the Customer or to any other person/entity for the complete or partial failure or interruption of service, fluctuations in voltage, or any other act or omission or related injury caused directly or indirectly by strikes, labor troubles, accident, litigation, shutdowns for repairs or adjustments, interference by federal, state or local governments, acts of nature or God or other causes beyond its control. The policy can be found at <https://www.nsbufl.com/>.

**TERMS OF PAYMENT**

**APPLICATION OF LATE PAYMENT SERVICE CHARGE**

The schedule of late payment service on all unpaid accounts (approximately twenty-two days after the first bill) as they become in arrears is as follows:

Arrears	Service Charge
Less than \$25.00	No service Charge
\$25.00 and Above	\$ 5.00 or 1.5%, Whichever is Greater

**APPLICATION OF DELINQUENT ACCOUNT CHARGE**

Delinquent account charges may be waived by a Customer Service Representative provided: (1) the customer has had no delinquent adjustment in the preceding twelve months or (2) the delinquent charge was erroneously applied.

**RETURNED CHECKS**

If the customer pays the returned check before the check is received from the bank, the fee is \$20.00.

If the check has already been received from the bank, the fee is \$35.00.

**SECURITY DEPOSIT:** A security deposit is required for providing services furnished is as follows:

**RESIDENTIAL AND GENERAL SERVICES**

**1. Existing Accounts**

**A. Residential Accounts**

No change in deposit of existing accounts unless service is discontinued for non-payment. If an account is cut-out for non-pay an additional deposit in the amount equal to the deficiency between the present deposit and the deposit amount prescribed by this policy for a new service of similar type will be required prior to reconnection.

Formatted: Underline

Formatted: Font: Times New Roman

**B. General Service Accounts**

No change in deposit of existing accounts unless service is discontinued for non-payment. If an account is cut-out for non-pay an additional deposit in the amount equal to the deficiency between the present deposit and the deposit amount prescribed by this policy for a new service of similar type will be required prior to reconnection. Expiration of a surety bond or an irrevocable letter of credit may result in the required deposit to be two times the average monthly bill as estimated by the Utilities Commission.

Formatted: Underline

Formatted: Font: Courier, Underline

Formatted: Indent: Left: 1.31", No bullets or numbering

Formatted: Indent: Left: 1.31"

**2. Deposits for New Accounts**

The deposit for new accounts shall be as follows:

**A. Residential Accounts**

For customers on Residential Electric Service, the minimum deposit shall be \$7580.00 and the maximum deposit shall be \$26240.00.

**B. General Service Accounts**

For customers on the General Service rate, the required deposit shall be two times the average monthly bill as estimated by the Utilities Commission. In the event the Utilities Commission determines that the deposit is not sufficient to cover twice the actual average monthly bill an adjustment to the required deposit may be made. In any event the minimum deposit for all General Service Accounts shall be \$7580.00.

Formatted: Underline

Formatted: Indent: Left: 0.88", Right: 0.31"

**3. Deposit Payment**

**Residential Accounts**

The customer will be billed for the deposit(s) and will have ten (10) days to pay said deposit(s). If the customer does not pay the deposit(s) within the ten (10) day period, utility services will automatically be disconnected.

Deposits must be made by cash, check, money order, or Utilities Commission approved aid voucher. Credit cards will be accepted up to \$1,000.00.

Formatted: Normal, Indent: Left: 0"  
Formatted: Font: Times New Roman

The following guidelines apply to all customers requesting residential electric services:

Formatted: Font: Times New Roman  
Formatted: Indent: Left: 0.88", Right: 0.31"

The following guidelines apply to all customers requesting residential electric services:

(Continued on Original~~First~~ Revised Sheet No. 4.1.1)

(Continued from FirstSecond Revised Sheet No. 4.1)

- A. For existing accounts with good credit standing with the Utilities Commission at the time of adoption of this policy, their existing deposits will remain unchanged. Discontinuance of service for non-payment on existing accounts may require an additional deposit.
- B. Any new customer establishing services with the Utilities Commission will have their social security number verified by the "On-Line Utility Exchange" or any other provider of similar services. Based on the results, the customer may or may not be required to pay a deposit.
- C. Any current or returning customer, with at least six months of history with the Utilities Commission, requesting new service will have their deposit based on current and/or previous account history. Customers with no more than two late fees, no disconnections for non-payment, and no returned checks, all within the most recent 24-month period, will not be required to pay a deposit. Any returning customers who do not meet these criteria will be required to pay the a-maximum deposit.
- D. Any customer requesting service that has a paid write-off (final bill balance sent to collections) with the Utilities Commission will be required to pay the maximum deposit prior to connection of service. If the customer has an unpaid write-off with the Utilities Commission, they will be required to pay it in full, along with the maximum deposit prior to connection of service.
- E. The Utilities Commission will not transfer a deposit from one individual to another individual. Transfers of deposit(s) from one address to another address for the same individual will be made provided the account balance at the currently served location is in a current (outstanding balance is zero) status.
- F. If a customer transfers his/her deposit to an account within the system, the final bill on the old account, if delinquent, will be transferred to the current account for collection and becomes subject to collections and disconnect procedures.
- G. Customers that are continuously delinquent are subject to an revised required increase/update to their deposit amount.
- H. Residential Blanket Deposit  
Blanket deposits will be accepted from residential customers with an average of ten or more active, long-term accounts – open simultaneously. Long-term defined as active for a minimum of two complete billing periods. Deposits will be held on a master account, thereby eliminating the need to place a deposit for each individual service address.

The initial calculation of the blanket deposit will be based on credit history and number of accounts provided. Blanket deposits may be evaluated and recalculated as necessary based on the number of active accounts and/or credit history.

(Continued on OriginalFirst Revised Sheet No 4.1.2)

(Continued from OriginalFirst Revised Sheet No. 4.1.1)

Blanket deposit payments may be made by cash, check, money order, or a credit card payment of up to \$1,000 or by a surety bond for the full amount required, or by an irrevocable letter of credit satisfactory to the Utilities Commission for the full amount required. The customer will need to pay the blanket deposit immediately at the time a blanket deposit is being requested. (Note – Only individual account residential deposits will be billed with a 10-day allowance for payment).

In the event the deposit is paid by a surety bond or an irrevocable letter of credit, and the instrument matures, the Utilities Commission reserves the right to request cash (legal tender) for the required deposit. Failure to comply with this requirement will result in discontinuance of service.

General Service (Commercial) Accounts

- A. The customer must pay the full deposit at the time the account is being established.
- B. Deposit payments must be made by cash, check, or money order. Credit card payments will be accepted for payments of \$1,000 or less.
- C. When the required combined total deposit exceeds \$1,000, the applicant, at their option, may furnish in lieu of cash the following instruments:
  1. A surety bond for the full amount required.  
OR
  2. An irrevocable letter of credit satisfactory to the Utilities Commission for the full amount required.

In the event the above instruments mature, the Utilities Commission reserves the right to request cash (legal tender) for the required deposit. Failure to comply with this requirement will result in discontinuance of service.

- D. For new accounts, the Utilities Commission will initiate a review of customer's monthly billings as compared to the deposit paid, not less than six months but not more than one year from the service date.

4. Additional Deposits Requirements

In the event the utility service is discontinued for non-payment or has received two (2) or more returned checks within a twelve (12) month period, the Utilities Commission may require a deposit(s) sufficient to cover at least two (2) months of the previous average monthly billing to be paid within ten (10) days from notice. If such additional deposit is not made within ten (10) days, the Utilities Commission may disconnect service in accordance with the collection and disconnect policy. On a case-by-case basis, an extended due date for additional deposits may be considered.

(Continued on OriginalFirst Revised Sheet No. 4.1.3)

(Continued from OriginalFirst Revised Sheet No. 4.1.2)

**5. Interest Rates**

Interest at a rate to be determined by the Utilities Commission each year and will be credited to the customer's account each month beginning with the first full month of service.

**6. Refunds of Deposit**

For residential accounts only, the Utilities Commission ~~will promptly and automatically~~may credit the deposit to the customer's account after adoption date of the policy when:

- A. The customer had paid bills for the previous twenty-four (24) consecutive residential billings without having service disconnected for non-payment;  
AND
- B. Without having more than two (2) occasions on which a bill was delinquent for the previous twenty-four (24) months;  
AND
- C. When a customer has not had any returned checks within a twenty-four (24) month period (excludes verified bank errors).

The deposits are refundable only to the customer whose name appears on the account at time of refund.

**7. Records of Deposit**

The Utilities Commission will keep records to show:

1. Name, address and Social Security number of each depositor.
2. Amount and date of deposit.
3. Each transaction concerning deposit.

The Utilities Commission will issue a receipt of deposit to each applicant from whom a deposit is received and provide a means whereby a depositor may establish claim if the receipt is lost.

A record of each unclaimed deposit will be maintained, and the Utilities Commission will make a reasonable effort to return the deposit.

SECOND REVISED SHEET NO. 4.4.1  
CANCELING FIRST REVISED SHEET NO. 4.4.1

RESERVED FOR FUTURE USE

**ELECTRIC POLE LINE EXTENSIONS OR ADDITIONS**

**APPLICATIONS**

Upon acceptance of the application for service in the Utilities Commission service territory, the Utilities Commission will proceed to do such work including providing and installing required equipment necessary in order to render service.

In general, where the major portion of an anticipated extension will be built on public rights-of-way, and the new customer can reasonably be characterized as permanent, then the Utilities Commission will do all necessary construction at no cost to the customer. However, customers shall pay all applicable right-of-way permitting application fees.

Where these guidelines clearly do not apply or the request is for underground distribution facilities, the Utilities Commission reserves the right to require payment for a portion of its distribution investment.

For the extension of overhead distribution facilities, the Utilities Commission may charge the customer all costs in excess of 2-1/2 times the estimated annual non-fuel revenue (exclusive of the costs for transformers, secondary connections, and meters), and/or such other charges as the particular circumstance may dictate.

For the extension of underground distribution facilities, the Customer will pay 47% of the Utilities Commission's cost of primary cable, splices, transformers, and any other equipment or materials necessary to provide electric service. Any equipment requested by the customer (such as automatic transfer switchgear, redundant transforms, etc.) that are in addition to the Utilities Commission design, if approved by the Utilities Commission, will be 100% chargeable to the customer.

When kW demand factors, intermittent usage patterns, or premature investment result in necessarily inefficient utilization of the Utilities Commission's facilities, the Utilities Commission may require cash advances, minimum guarantees, or other means of providing a fair return on investment.

The terms and charges will be determined by the Utilities Commission staff based on the above conditions.

This electric line extension policy will be used as a guideline for all line extensions. Exceptions to this policy can be approved by the Director of Engineering for the Utilities Commission.

**REQUIREMENTS AND POLICY  
FOR  
RESIDENTIAL UNDERGROUND SERVICE LATERALS**

**UTILITIES COMMISSION**

The Utilities Commission will own and maintain service laterals up to the designated point of delivery except as otherwise noted. The Utilities Commission will install one underground service lateral to all newly constructed residential buildings containing less than five separate dwelling units. All units in one building must be gang metered at a single designated location.

**CUSTOMER REQUIREMENTS**

The customer shall furnish and install conduit as specified by the Utilities Commission. This includes excavating trench and backfill. The customer shall pay the Utilities Commission the differential cost between an overhead service and an underground service lateral as follows:

Three Phase Service:	\$375.00*
Single Phase Service:	\$350.00*

\*These costs are for the average base electric service including 50' service lateral installed. Additional costs will be added, and specific costs estimates provided for larger electric services, additional lengths of lateral, and if the work is performed at the request of the customer on a Saturday or Sunday/Holiday.

The relocation and/or upgrading of existing overhead and underground residential service laterals shall be the same as specified above plus all costs for labor, equipment, and material.

Existing direct buried service laterals that fail will be repaired up to two (2) times. After the second repair, the Utilities Commission will evaluate and install conduit and new service cable to match the existing direct-buried service size or install per current Utilities Commission standards at no cost to customer. In order to do so, the customer shall provide an easement for the new facilities (as necessary) and will allow the Utilities Commission access to their property to install the new facilities to the existing meter base location. Any request for upgraded services will be evaluated by the Utilities Commission and charged appropriately.

Customers pay all applicable right-of-way permitting application fees.

### UNDERGROUND ELECTRIC PRIMARY DISTRIBUTION

#### DEFINITIONS

- A. Residential Subdivisions: a tract of land divided into five or more building lots, and zoned residential.
- B. Single Family Detached Unit: a house designed and built to accommodate one family. The unit shall be free standing, not attached to any other dwelling unit.
- C. Multi-Family Residential Building: a structure in which two (2) or more dwelling units are attached by a common wall and/or roof.

#### APPLICATION

- A. Single Family Detached Unit: underground primary distribution facilities will not be provided unless the units are a part of a residential subdivision.
- B. Multi-Family Residential Building: will have underground primary distribution facilities provided so long as:
  1. The Utilities Commission is free to construct such extensions in the most economical manner.
  2. Reasonably full use is made of the tract plan upon which the building will be constructed.
  3. The applicant provides the necessary conduit furnished and installed, at his/her expense, as specified by the Utilities Commission.
  4. If any feeder circuit mains are deemed necessary by the Utilities Commission to provide and/or maintain adequate service within the development or buildings, and if the feeder mains are required to be underground, the underground feeder mains shall be installed by the Utilities Commission at no additional cost to the applicant.

(Continued on First~~Second~~ Revised Sheet No. 4.5.3)

(Continued from FirstSecond Revised Sheet No. 4.5.2)

- C. Residential Subdivisions and Commercial Customers: Underground primary distribution facilities will be provided to residential subdivisions and commercial customers when requested by the applicant subject to the following conditions:
  - 1. The Applicant, at their expense, will furnish and install conduit as specified by the Utilities Commission. This includes excavating, trenching and backfill.
  - 2. If any feeder circuit mains are deemed necessary by the Utilities Commission to provide and/or maintain adequate service within the development or buildings, the feeder mains shall be installed by the Utilities Commission at no additional charge to the applicant.
- D. Other: All other units or buildings not explicitly covered by any of the above, apply for installation of underground primary distribution facilities; however, any differential cost between above ground (overhead) primary distribution construction and underground primary distribution construction will be borne completely by the applicant.
- E. Customers shall pay all applicable right-of-way permitting application fees.

**RATE SCHEDULE GS-4**

**GENERAL SERVICE - NON-DEMAND ELECTRIC RATE SCHEDULE**

The Utilities Commission shall charge and collect for general service electric energy on the basis of availability, application, type of service, monthly rate, minimum charge, tax adjustment clause and fuel and purchased power cost adjustment clause.

**AVAILABILITY**

This schedule is available at any location within the Utilities Commission service area in accordance with the service policies of the Commission for non-residential customers with an annual measured peak demand of less than 50 kW for four months including the current month.

**APPLICATION**

To non-residential customers for all electric power and energy requirements. Each premises will be supplied at one point of delivery and all electric service will be supplied ~~through~~by one meter.

**TYPE OF SERVICE**

Single or three phase, 60 Hertz, at one of the Commission's standard service voltages.

**MONTHLY RATE**

Customer Charge:

Single Phase Service	<u>\$9.75</u> <del>12.75</del>
Three Phase Service	<u>\$14.26</u> <del>18.65</del>

Energy Charge:

All kWh per month at ~~9.377~~10.849¢ per kWh

The minimum charge is the Customer Charge.

**FUEL AND PURCHASED POWER COST ADJUSTMENT CLAUSE**

The amount computed at the above monthly rate shall be adjusted plus or minus by an amount calculated in accordance with the formula specified in the Utilities Commission's Fuel and Purchased Power Cost Adjustment Clause which is a part of the "Monthly Rate" of this rate schedule.

**TAX ADJUSTMENT CLAUSE**

Electric service under this schedule is subject to the provisions of the Tax Adjustment Clause.

**TERMS OF PAYMENT**

The terms of payment shall be in accordance with the provisions set forth on Sheet No. 4.0.

**RATE SCHEDULE RS-4**

**RESIDENTIAL SERVICE ELECTRIC RATE SCHEDULE**

The Utilities Commission shall charge and collect for residential electric service energy based on the availability, application, type of service, monthly rate, fuel and purchased power cost adjustment clause and tax adjustment clause.

**AVAILABILITY**

This schedule is available at any location within the Utilities Commission service area in accordance with the service policies of the Utilities Commission.

**APPLICATION**

To residential customers in single family dwelling units when all electric service supplied to the dwelling unit is used for household purposes and is measured through by one meter. Any portion of the electric service supplied to a dwelling unit used for non-residential purposes, must be wired by the customer, and metered separately as a non-residential meter. In the case of multiple meters, this rate schedule is applicable to the portion used for residential purposes.

**TYPE OF SERVICE**

Single phase, 60 Hertz, 120/240 volts. Three phase service may be furnished if available at the discretion of the Utilities Commission.

**MONTHLY RATE**

Customer Charge

Single Phase Service	\$8.259.50
Three Phase Service	\$11,461.30

Energy Charge

First 1,000 kWh per month at ~~9.046~~ 10.522¢ per kWh  
All kWh over 1,000 kWh per month at ~~10.570~~ 12.336¢ per kWh

The minimum charge is the Customer Charge.

**FUEL AND PURCHASED POWER COST ADJUSTMENT CLAUSE**

The amount computed at the above monthly rate shall be adjusted plus or minus by an amount calculated in accordance with the formula specified in the Utilities Commission's Fuel and Purchased Power Cost Adjustment Clause which is a part of the "Monthly Rate" of this rate schedule.

**TAX ADJUSTMENT CLAUSE**

Electric service under this schedule is subject to the provisions of the Tax Adjustment Clause.

~~TWELFTH~~~~THIRTEENTH~~ REVISED SHEET NO. 6.1  
CANCELING ~~ELEVENTH~~~~TWELFTH~~ REVISED SHEET NO. 6.1

(Continued from ~~Twelfth~~~~Thirteenth~~ Revised Sheet No. 6.0)

TERMS OF PAYMENT

The terms of payment shall be in accordance with the provisions set forth on Sheet No. 4.0.

**RATE SCHEUDLE SL-3**

**PUBLIC STREET LIGHTING AND PRIVATE OUTDOOR LIGHTING ELECTRIC  
SERVICE RATE SCHEDULE**

The Utilities Commission shall charge and collect for residential electric service energy based on the availability, application, type of service, monthly rate, fuel and purchased power cost adjustment clause and tax adjustment clause.

**AVAILABILITY**

This schedule is available throughout the entire territory served by the Utilities Commission, City of New Smyrna Beach, Florida. Availability may be limited due to inaccessibility by Utilities Commission equipment and personnel.

**TYPE OF SERVICE**

Service includes installation, lamp replacement, maintenance, and removal. The Utilities Commission will maintain its facilities during regular working hours, but does not guarantee continuous lighting and will not be liable for damages for any interruption, deficiency or failure of service, and reserves the right to interrupt service at any time for necessary repair to lines and equipment or system protection. The Utilities Commission shall be permitted to enter the customer's property at reasonable times for the purpose of inspecting, maintaining, installing and removing any of its equipment and facilities. The Utilities Commission will not be liable for damages occurring during installation, maintenance, or removal. The customer will be responsible for tree trimming and removing other vegetation that obstructs Utilities Commission vehicles and personnel. Willful damage to any Utilities Commission owned facilities by the customer will require full restitution by the customer.

**TYPE OF INSTALLATION**

Streetlights will normally be installed on Utilities Commission existing distribution system poles and fed from existing wires. The installation of any new distribution facilities and/or alterations to existing facilities to serve new streetlights will require a Contribution-in-Aid-of-Construction (CIAC) paid in advance.

Streetlights installed in existing or planned underground distribution areas will require customer trenching and conduit installation according to Utilities Commission drawings and specifications. The customer will also install Utilities Commission supplied equipment necessary to complete the conduit system. The Utilities Commission will install the electrical system, streetlight poles and fixtures. A Contribution-in-Aid-of-Construction (CIAC) paid in advance will be required.

**CUSTOMER CONTRIBUTIONS**

Contribution-in-Aid-of-Construction (CIAC) - The installation cost of any new distribution system and/or alterations to existing facilities to serve streetlights will require a CIAC payment from the requesting customer equal to the total Utilities Commission cost paid in advance.

**FUEL AND PURCHASED POWER COST ADJUSTMENT CLAUSE**

The amount computed at the above monthly rate shall be adjusted plus or minus by an amount calculated in accordance with the formula specified in the Utilities Commission's Fuel and Purchased Power Cost Adjustment Clause which is a part of the "Monthly Rate" of this rate schedule. The Monthly Fuel and Purchased Power Cost Adjustment charges, if any, will be determined as follows:

Daily kWh usage x days in billing period x monthly energy cost  
adjustment factor (expressed ~~as~~ dollars per kWh)

**TAX ADJUSTMENT CLAUSE**

Electric service under this schedule is subject to the provisions of the Tax Adjustment Clause.

**TERMS OF PAYMENT**

The terms of payment shall be in accordance with the provisions set forth on Sheet No. 4.0.

**FUEL AND PURCHASED POWER COST ADJUSTMENT CLAUSE**

**APPLICATION**

This fuel and purchased power cost adjustment clause is applicable to and becomes a part of all the Utilities Commission's retail rate schedules and is applicable to all sales thereunder.

**BILLING**

The monthly bill computed under the appropriate retail rate schedule will be increased or decreased by an amount equal to the result of multiplying the kWh used by the fuel and purchased power cost adjustment factor (FPPCAC) determined as follows:

$$FPPCAC = \left( \frac{F_m}{S_m} - 0.05056 P P B R \right) x \frac{1}{1-L} x \frac{1}{1-T}$$

Where:

1. FPPCAC = Adjustment factor in dollars per kWh rounded to the nearest one thousandth of a cent applicable to bills rendered during the current fiscal billing cycle defined as October through September.
2. F<sub>m</sub> = Total applicable fuel and net interchange energy costs.

Total Applicable Fuel Cost is:

- (a) Fossil and nuclear fuel consumed in the Utilities Commission's generating units and the Utilities Commission's share of fossil and nuclear fuel consumed in jointly owned generating units, plus the annual amortization requirement associated with the disposal of spent nuclear fuel as estimated for the current billing cycle; plus,
- (b) The net cost of purchases for scheduled maintenance, and the net energy and transmission costs of energy purchases when such energy is purchased on an economic dispatch basis to substitute for the Utilities Commission's own higher cost of energy estimated for the current billing cycle; plus,
- (c) The fossil and nuclear power costs associated with purchases for reasons other than identified in (b) above, including the purchase of capacity and energy owned through participation in joint agency projects and firm interchange service, and any associated transmission costs estimated for the current billing cycle; plus
- (d) Any one-time, non-recurring expenditures incurred by the Utilities Commission for the purpose of obtaining cost reductions on energy or capacity; minus

(Continued on Twelfth/Thirteenth Revised Sheet No. 8.1)

(Continued from Twelfth Thirteenth Revised Sheet No. 8.0)

- (e) The energy costs of fossil and nuclear fueled generation recovered through the inter-system sales including the fuel costs related to the economy energy sales and other energy sold on an economic dispatch basis estimated for the current billing cycle; plus
- (f) An amount to correct for the over-recovery or under-recovery of the actual applicable fuel costs as defined in (a), (b), (c), (d) and (e) above, during the latest fiscal year, determined as the difference between actual applicable fuel costs and the costs actually billed during the same period; plus any previous over-recovery or under-recovery of actual applicable fuel costs as defined above associated with prior period adjustments that allows for a reserve balance of FPPCAC funds as established by the Utilities Commission, if any; minus
- (g) At the sole discretion of the Utilities Commission, the amount of any refunds associated with fuel and purchased power expenses as defined in (a) through (c) above, net of litigation expenses and other related costs, if any.

3. Sm = kWh estimated corresponding to the current 12-month billing cycle and is equal to the estimated sum of net generation, purchases, and interchange in, less inter-system sales.

4. PPBR = Purchased power included in base rates. The amount of PPBR is \$0.06079 per kWh. The PPBR will be adjusted each year the Utilities Commission adjusts its base rates.

54. L = System losses to be adjusted at the beginning of each fiscal year, based on the actual prior 12-month losses ending August 31.

65. T = Mandatory payment to the City of New Smyrna Beach, Florida, equal to 6%.

#### TAX ADJUSTMENT CLAUSE

Electric service under this schedule is subject to the provisions of the Tax Adjustment Clause.

#### SPECIAL PROVISIONS

The FPPCAC may be modified at any time during the current fiscal 12-month billing cycle if significant circumstances arise which warrant such change, and if approved by the Utilities Commission.

#### AVOIDED COST FROM CUSTOMER-OWNED RENEWABLE ENERGY

The Utilities Commission does avoid certain purchased power costs due to customer-owned renewable generation. These costs include fuel and non-fuel energy purchased from its wholesale power supplier which is \$0.02800 per kWh. This \$/kWh will be used as the credit applied to any customer's excess energy delivered to the Utilities Commission's distribution system. This Avoided Cost will be adjusted each year the Utilities Commission adjusts its base rates.

Formatted: Justified

**RATE SCHEUDLE GSD-3**

**GENERAL SERVICE - DEMAND ELECTRIC RATE SCHEDULE**

The Utilities Commission shall charge and collect for general service demand electric energy on the basis of availability, application, type of service, monthly rate, minimum charge, determination of billing demand, power factor adjustment, primary service discount, tax adjustment clause and fuel and purchased power cost adjustment clause.

**AVAILABILITY**

At any location within the Utilities Commission, City of New Smyrna Beach, Florida, service area in accordance with Commission policies to non-residential customers with an annual measured peak of 50 kW up to 250 kW for four months including the current month.

**APPLICATON**

Non-residential customers for all electric power and energy requirements. Each premises will be supplied one point of delivery and all electric service will be supplied through by one meter.

**TYPE OF SERVICE**

Single or three phase, 60 hertz, at one of the Commission's standard service voltages.

**MONTHLY RATE**

Customer Charge	\$33.50
Demand Charge	\$-8.0011.25 per kW of billing demand
Energy Charge	7.6668.412¢ per kWh

The minimum charge is the Customer Charge plus the Demand Charge.

**DETERMINATION OF BILLING DEMAND**

The Billing Demand shall be the greater of: (1) the Measured Demand, for the current month, adjusted for power factor, if applicable; (2) fifty (50) kW; and (3) eighty (80) percent of the maximum Measured Demand, power factor adjusted, recorded during the preceding eleven (11) months.

(Continued on Tenth Eleventh Revised Sheet No. 11.1)

(Continued from ~~Tenth~~<sup>Eleventh</sup> Revised Sheet No. 11.0)

**POWER FACTOR ADJUSTMENT**

The Utilities Commission may, at its option, install metering equipment to allow the determination of the reactive components of power utilized by the customer. The customer's utilization of equipment shall not result in a power factor at one point of delivery of less than 85 percent lagging at the time of Measured Demand. Should the power factor be less than 85 percent lagging during any month, the Utilities Commission may adjust the Measured Demand by 85 percent and by dividing the result by the power factor actually established at the time of the Measured Demand during the current month. Such adjusted Measured Demand shall be used in determining the Billing Demand.

**FUEL AND PURCHASE POWER COST ADJUSTMENT**

The amount computed at the above monthly rate shall be adjusted plus or minus by an amount calculated in accordance with the formula specified in the Utilities Commission's Fuel and Purchased Power Cost Adjustment Clause which is a part of the "Monthly Rate" of this rate schedule.

**TAX ADJUSTMENT CLAUSE**

Electric service under this schedule is subject to the provisions of the Tax Adjustment Clause.

**TERM OF PAYMENT**

The terms of payment shall be in accordance with the provisions set forth on Sheet No. 4.0.

RESIDENTIAL LOAD MANAGEMENT SERVICE ELECTRIC RATE SCHEDULE**

**Rate Schedule RSL-2 is no longer available and closed to all customers.**

The Utilities Commission shall credit, charge, and collect for load management residential electric service energy based on the availability, application, maximum monthly load management credits, conditions of interruption, peak period, special provisions, tax adjustment clause and terms of payment.

**AVAILABILITY**

At any location within the Utilities Commission service area in accordance with the special provisions set forth on Sheet 16.1.

**APPLICATION**

To customers meeting the application requirements for Residential Service. Load Management credits under this schedule are applicable to residential customers using any combination of the following equipment:

1. Electric water heater
2. Electric central heating system
3. Electric central cooling system

**MAXIMUM MONTHLY LOAD MANAGEMENT CREDITS**

<u>Interruption Equipment</u>	<u>Maximum Monthly Credit (\$/00 kWh)</u>	<u>Monthly Credit (Below 500 kWh)</u>
Water Heater	\$3.00	-\$ .006 x kWh
Central Heating System	\$2.25	-\$ .0045 x kWh
Central Cooling System	\$2.25	-\$ .0045 x kWh

The Maximum Monthly Load Management Credit is based on electric consumption of 500 kWh. For any month in which the consumption falls below this level, the Load Management Credit will be adjusted according to the above formulas.

**CONDITIONS OF INTERRUPTION**

The Commission may interrupt electric service to the above equipment, during the Peak Period, with a frequency and duration designed to minimize both the system peak demand and any inconvenience to load management customers. The current interruption policy, subject to change, may be obtained from the Commission.

**PEAK PERIOD**

For the months of November through April, the Peak Period is the prevailing clock time between 6:00 A.M. and 11:00 A.M. and 6:00 P.M. and 11:00 P.M.

For the months of May through October, the Peak Period is the prevailing clock time between 12:00 noon and 11:00 P.M.

(Continued on ~~Forth~~<sup>Fifth</sup> Revised sheet No. 16.1)

(Continued from ~~ForthFifth~~ Revised Sheet No. 16.0)

**Rate Schedule RSL-2 is no longer available and closed to all customers.**

**SPECIAL PROVISIONS**

1. The Utilities Commission shall be allowed reasonable access to the customer's premises to install, maintain, inspect, test, and remove load management devices on the electrical equipment specified above.
2. Prior to the installation of load management devices, the Utilities Commission may inspect the customer's electrical equipment to ensure good repair and working condition but the Utilities Commission shall not be responsible for the repair or maintenance of the electrical equipment.
3. The Utilities Commission shall not be required to install load management devices on electrical equipment which would not be economically justified for reasons such as excessive installation costs, oversized heating or cooling equipment, abnormal utilization of equipment, including vacation or other limited occupancy residences, or in residences utilizing less than 500 kWh per month.
4. Multiple units of any electrical equipment specified above must all be installed with load management devices to qualify for the credit attributable to that equipment.
5. Billing under this rate schedule will commence with the first complete billing period following installation of the load management device. A customer may change the selection of electrical equipment installed with load management devices or transfer to another rate schedule by notifying the Utilities Commission 45 days in advance.
6. The limitations on equipment interruptions shall not apply during capacity emergencies on the Utilities Commission's system.
7. If the Utilities Commission determines that the load management devices have been tampered with, the Utilities Commission may discontinue service under this rate schedule and bill for all prior load management credits received by the customer, unless an earlier tampering date can be established, plus applicable investigative charges.
8. If the Utilities Commission determines that the impact of equipment interruptions have been offset by the customer's use of supplementary or alternative electrical equipment, service under this rate schedule may be discontinued and the customer billed for all prior load management credits received over a period not to exceed six months.

UTILITIES COMMISSION  
CITY OF NEW SMYRNA BEACH, FLORIDA

~~FORTH~~<sup>FIFTH</sup> REVISED SHEET NO. 16.2  
CANCELING ~~THIRD~~<sup>FOURTH</sup> REVISED SHEET NO. 16.2

(Continued from ~~Forth~~<sup>Fifth</sup> Revised Sheet No. 16.1)

**Rate Schedule RSL-2 is no longer available and closed to all customers.**  
**TAX-ADJUSTMENT-CLAUSE**

Electric service under this schedule is subject to the provisions of the Tax Adjustment Clause.

**TERMS OF PAYMENT**

The terms of payment shall be in accordance with the provisions set forth on Sheet No. 4.0.

**RATE SCHEDULE TS-1**

**TEMPORARY SERVICE ELECTRIC RATE SCHEDULE**

The Utilities Commission shall charge and collect for temporary service electric energy on the following basis of availability, application, type of service, monthly rate, and special provisions.

**AVAILABILITY**

This schedule is available throughout the entire territory served by the Utilities Commission, City of New Smyrna Beach, Florida.

**APPLICATION**

This schedule is applicable to all electric services required for a short-term period to installations such as construction projects, fairs, displays, exhibits and similar temporary purposes.

**TYPE OF SERVICE**

Service under this schedule shall be single phase or three phase, 60 Hertz, alternating current at the Utilities Commission's available standard voltage. At the option of the Utilities Commission, three phase service will be provided when individual motors rated at 5.0 horsepower or larger are connected. Where more than one meter is utilized for this service, a separate "Monthly Rate" calculation will be made for each meter for billing purposes.

**MONTHLY RATE**

Temporary service shall be billed under the "Monthly Rate" provisions of the appropriate general service non-demand or general service demand rate schedule.

The customer shall pay, in advance, the estimated cost of installing and removing such facilities as may be required to provide such temporary service.

**CHARGES FOR TEMPORARY ELECTRIC SERVICE INSTALLATION**

Temporary electric service connection charges shall be as follows:

- (a) Installing and removing overhead service and meter . . . . . \$300.00
- (b) Connecting and disconnecting customer to direct-buried underground facilities including installation and removal of meter . . . . . \$ 180.00

The charges shall pertain only to single phase, 60 Hertz, service at the available standard secondary distribution voltage. This service is available only when the Utilities Commission has existing capacity, lines, transformers, and other equipment at the requested point of delivery. The Customer's service entrance electrical cable shall not exceed 200 amperes capacity.

(Continued on Original First Revised Sheet No. 17.1)

(Continued from FirstSecond Revised Sheet No. 17.0)

Temporary electric service connection charges shall be non-refundable and must be paid in advance of installation of such facilities. The cut-in charge, as established on Sheet No. 4.3, is a separate charge payable by the customer and is not a part of the temporary electric service connection charges.

The Utilities Commission will charge and collect the for temporary electric energy based on the temporary service electric rates schedule in effect at the time.

If a specific temporary electric service other than that stated above is required, the Utilities Commission, at the Customer's request, will provide a cost for the facilities and install such additional electrical equipment. This cost will be a Contribution-in-Aid-of-Construction payable in advance to the Utilities Commission.

Customers shall pay all applicable right-of-way permitting application fees.

**RATES SCHEDULE GSL-1**

**GENERAL SERVICE NON-DEMAND LOAD MANAGEMENT SERVICE ELECTRIC RATE  
SCHEDULE**

**Rate Schedule GSL-1 is no longer available and closed to all customers.**

The Utilities Commission shall credit, charge, and collect for load management General Service Non-Demand electric service energy based on the availability, application, character of service, limitation of service, monthly rate, tax adjustment clause and special provisions.

**AVAILABILITY**

At any location within the Utilities Commission service area in accordance with the service policies of the Commission.

**APPLICATION**

This schedule is available to customers meeting the application requirements for General Service Non-Demand service. The Load Management Credit under this schedule is applicable to General Service Non-Demand customers using an electric heat pump as the only source of electric heating and cooling.

**MONTHLY LOAD MANAGEMENT CREDIT**

Interruptible Equipment	Monthly Credit
Electric Heat Pump	\$5.00

**CONDITIONS OF INTERRUPTION**

The Commission may interrupt electric service to the above equipment, during the Peak Period, with a frequency and duration designed to minimize both the system demand and any inconvenience to load management customers. The current interruption policy, subject to change, may be obtained from the Commission.

**PEAK PERIOD**

For the months of November through April, the Peak Period is the prevailing clock time between 6:00 A.M. and 11:00 A.M. and 6:00 P.M. and 11:00 P.M.

For the months of May through October, the Peak Period is the prevailing clock time between 12:00 noon and 11:00 P.M.

**SPECIAL PROVISIONS**

Service under this rider is subject to the following special provisions:

1. The Utilities Commission shall be allowed reasonable access to the customer's premises to install, maintain, inspect, test, and remove load management devices on the electrical equipment specified above.

(Continued on ~~Second~~Third Revised Sheet No. 18.1)

(Continued from ~~Second~~~~Third~~ Revised Sheet No. 18.0)

**Rate Schedule GSL-1 is no longer available and closed to all customers.**

Prior to the installation of load management devices, the Utilities Commission may inspect the customer's electrical equipment to ensure good repair and working condition, but the Utilities Commission shall not be responsible for the repair or maintenance of the electrical equipment.

- 2.—The Utilities Commission shall not be required to install load management devices on electrical equipment which would not be economically justified for reasons such as excessive installation costs, oversized heating or cooling equipment, or abnormal utilization of equipment, including infrequent utilization of equipment subject to load control.
- 3.—Multiple units of any electrical equipment specified above must all be installed with load management devices to qualify for the credit attributable to that equipment.
- 4.—Billing under this rate schedule will commence with the first complete billing period following installation of the load management device.
- 5.—In the event any customer elects to discontinue service under load management and has not received service under this rate schedule for a minimum of three complete billing periods during the applicable corresponding heating or cooling seasons, then the Utilities Commission shall bill such customer for all prior load management credits received by the customer for such corresponding service over a period not in excess of seven months.
- 6.—The limitations on equipment interruptions shall not apply during capacity emergencies on the Utilities Commission's system.

**TAX ADJUSTMENT CLAUSE**

Electric service under this schedule is subject to the provisions of the Tax Adjustment Clause.

**TERMS OF PAYMENT**

The terms of payment shall be in accordance with the provisions set forth on Sheet No. 4.0 of Resolution No. 12-83.

**RESERVED FOR FUTURE USE**

**CONVERSION OF ELECTRIC DISTRIBUTION SYSTEMS  
FROM OVERHEAD TO UNDERGROUND RATE SCHEDULE**

Conversion of Existing Residential Overhead Services - Conversion of existing services shall be at the customer's expense. Conduit installation to the Utilities Commission and local code authority requirements and the actual conversion of the owner's meter base and associated wiring is the responsibility of the customer at his expense. At the customer's request, the Utilities Commission will furnish and install the underground service lateral to the line side terminals of the meter base at the customer's expense

Conversion of Existing Primary and Secondary Overhead Facilities – Conversion of existing overhead primary and secondary facilities shall be at the customer's expense.

**APPLICATION**

This option is available to residential subdivision and commercial customers within the electric service area of the Utilities Commission, City of New Smyrna Beach. Each conversion shall be reviewed for feasibility based on prudent engineering standards. Determination and feasibility will be made by the Utilities Commission's Engineering Department.

**DEFINITIONS**

**Residential Subdivisions:** a tract of land which is divided into five or more building lots, and which is zoned residential.

**Commercial Customer (non-residential):** Service to customers engaged in selling, warehousing, or distributing a commodity, in a service activity or profession, or in some form of economically gainful or social activity (offices, stores, clubs, hotels, schools, etc.).

**CONTRIBUTION IN AID OF CONSTRUCTION**

Contribution-in-aid-of-construction for 100% of the cost of conversion shall be paid upfront by the applicant(s).

**APPLICATION**

Application for Overhead to Underground Conversation shall be made in writing to the Utilities Commission Engineering Department.

For single customer applications with residential single-phase service, the following charges will apply for Overhead to Underground Secondary Service Conversions up to 100 feet:

200 amp service - \$826.21\*

400 amp service - \$1,102.95\*

\*Note, that these do not cover work that the customer is responsible for (such as conduit procurement and installation).

For all other single customer applications, the Utilities Commission Engineering Department will create a binding, detailed engineering estimate for the applicant. Said estimate will be binding for (3) three months.

(Continued on Second Third Revised Sheet No. 23.1)

(Continued from ~~Second~~Third Revised Sheet No. 23.0)

For applications impacting more than one customer/property owner, the applicant shall provide the Utilities Commission an application with 100% of the requesting customer's signatures. Upon receipt of the application, the Utilities Commission Engineering Department will then perform a binding, detailed engineering estimate for the applicant. Said estimate will be binding for three (3) months.

#### ELECTRIC FACILITIES

Electric facilities to be placed underground shall consist of primary cable, transformers, pedestals, service cables and other related equipment from the established location for undergrounding to the customer's meter box. Customer is responsible for the installation of the meter box by a licensed professional.

#### JOINT USE POLES

The Utilities Commission will facilitate the removal of services from other providers (i.e., telecom, cable, etc.) but is not responsible for the cost of said removal. Costs to remove or relocate other providers facilities shall be paid by the Customer.

#### REMOVAL OF OVERHEAD FACILITIES:

The Utilities Commission will remove overhead facilities, including the pole, after joint pole users have removed their facilities.

#### STREETLIGHTS

The Utilities Commission will remove existing streetlights.

Installation of new streetlights and private outdoor lighting will be in accordance with the Public Street Lighting and Private Outdoor Lighting Electric Service Rate Schedule.

#### TERMS OF PAYMENT

The terms of payment shall be in accordance with the provisions set forth on Sheet No. 4.0.

UTILITIES COMMISSION  
CITY OF NEW SMYRNA BEACH, FLORIDA

SECOND THIRD REVISED SHEET NO. 24.0  
CANCELING ~~FIRST~~ ~~SECOND~~ REVISED SHEET NO. 24.0

~~Financing Air-Conditioners Upgrades Rate Schedule is no longer available and closed to all customers.~~

RESERVED FOR FUTURE USE

**RATE SCHEDULE GSLD-1**  
**GENERAL SERVICE - LARGE DEMAND ELECTRIC RATE SCHEDULE**

The Utilities Commission shall charge and collect for general service demand electric energy on the basis of availability, application, type of service, monthly rate, minimum charge, determination of billing demand, power factor adjustment, primary service discount, tax adjustment clause, and fuel and purchased power cost adjustment clause.

**AVAILABILITY**

At any location within the Utilities Commission service area in accordance with Commission service policies to non-residential customers with ~~an annual~~ measured peak demand of 250 kW or more for four months including the current month.

**APPLICATION**

To non-residential customers for all electric power and energy requirements. Each premises will be supplied at one point of delivery and all electric service will be supplied ~~through~~ by one meter.

**TYPE OF SERVICE**

Single or three phase, 60 hertz, at one of the Commission's standard service voltages.

**MONTHLY RATE**

Customer Charge	<del>\$45.00</del> <u>\$5.00</u>
Demand Charge	<del>\$8.00</del> <u>13.50</u> per kW of billing demand
Energy Charge	<del>7.1777</del> <u>.259</u> ¢ per kWh

The minimum charge is the customer charge plus the demand charge.

**DETERMINATION OF BILLING DEMAND**

The Billing Demand shall be the greater of: (1) the Measured Demand, for the current month, adjusted for power factor, if applicable; (2) 250 kW; and (3) eighty (80) percent of the maximum Measured Demand, power factor adjusted, recorded during the preceding eleven (11) months.

(Continued on ~~First~~Second Revised Sheet No. 25.1)

(Continued from ~~First~~~~Second~~ Revised Sheet No. 25.0)

**POWER FACTOR ADJUSTMENT**

The Utilities Commission may, at its option, install metering equipment to allow the determination of the reactive components of power utilized by the customer. The customer's utilization of equipment shall not result in a power factor at the point of delivery of less than 85 percent lagging at the time of Measured Demand. Should the power factor be less than 85 percent lagging during any month, the Utilities Commission may adjust the Measured Demand by 85 percent and by dividing the result by the power factor actually established at the time of the Measured Demand during the current month. Such adjusted Measured Demand shall be used in determining the Billing Demand.

**FUEL AND PURCHASED POWER COST ADJUSTMENT**

The amount computed at the above monthly rate shall be adjusted plus or minus by an amount calculated in accordance with the formula specified in the Utilities Commission's Fuel and Purchased Power Cost Adjustment Clause which is a part of the "Monthly Rate" of this rate schedule.

**TAX ADJUSTMENT CLAUSE**

Electric service under this schedule is subject to the provisions of the Tax Adjustment Clause.

**TERMS OF PAYMENT**

The terms of payment shall be in accordance with the provisions set forth on Sheet No. 4.0.

**RATE SCHEDULE NBR**  
**NET BILLING RIDER FOR CUSTOMER-OWNED RENEWABLE GENERATION**

**I. AVAILABILITY:**

For customers with renewable generation equipment that have completed the Application for Interconnection and the appropriate Tier Interconnection Agreement with the Utilities Commission and whose customer-owned renewable generation is eligible for net metering as defined by FPSC Rule 25-6.065.

**II. APPLICATION FOR SERVICE:**

The customer must apply for service under this rider by providing the Utilities Commission with an executed Application for Interconnection and the appropriately executed Tier Interconnection Agreement, all of which are available from the Utilities Commission Engineering Department and website. The Utilities Commission has three Interconnection Agreements that are designated by the size of the renewable generation as defined in the Application for Interconnection. The application fee for each of the Interconnection Agreements are as follows:

<b>Description</b>	<b>Definition</b>	<b>Fee*</b>
Tier 1	10 kW or less	\$0.00
Tier 2	Greater than 10 kW and less than or equal to 100 kW	\$275.00
Tier 3	Greater than 100 kW and less than or equal to 2 MW	\$750.00

\*If necessary, the customer will be responsible for the cost of the Interconnection Study and any other costs that may be determined by the Utilities Commission.

**III. MONTHLY BILLING:**

Monthly billing will be prepared in the following manner:

1. Metering equipment will measure the energy supplied to the customer by the Utilities Commission and the energy delivered by the customer to the Utilities Commission's distribution system.
2. Meter readings will be taken monthly on the same cycle as required under the otherwise applicable rate schedule in accordance with normal billing practices.
3. The Utilities Commission will charge the customer for all energy delivered by the Utilities Commission to the customer in accordance with the otherwise applicable rate schedule.
4. The Utilities Commission will credit the customer for all the energy supplied by the customer to the Utilities Commission during the billing cycle. The credit rate per kWh shall equal the Avoided Cost as shown on Sheet No. 8.1.

**(Standby-Electric-and-On-Site-Generation) SE/OSG  
INTERA-NE-T-METERING RIDER TO  
UC-RESIDENTIAL-AND-GENERAL-SERVICE-SCHEDULES  
EXCLUDING ALL LOAD-MANAGEMENT SCHEDULES**

Throughout the Utilities Commission, City of New Smyrna Beach, Florida (UC), service area, from existing times of adequate capacity, Service under this Rider is provided on a customer-by-customer basis and subject to the completion of arrangements necessary for implementation.

This Rider may be modified or withdrawn and is classified by the Utilities Commission as a Non-Firm Electric-On-Site-Customer-Owned Generation-Service-Net-Metering Rider to existing UC-Residential and General Service Schedules executing all Load Management schedules which Schedules may be intended from time to time. For purposes of affording electric supply options to native load customers, the participating customers agree that the Terms and Conditions Provisions for any other Commission determination regarding this Rider shall not be construed as an obligation to serve, incur direct or imputed liability for persons, business processes, or tangible or intangible assets, or incur direct or indirect costs upon the UC System for having offered said Rider to participating customers.

The UC shall have the and reserves the right to reject any project from this Rider Classification upon any appropriate grounds, including, without limitation, a demonstration that the customer has installed OSG with a total nameplate rating greater than ninety percent (90%) of its demand, or has operated or may operate the SE/OSG in a material manner detrimental to the operation of the UC's electrical system or has or may establish events whereby the UC is non-compliant with UC Res. 28-78 and NSB Charter.

**A. Renewable Customer-owned Energy Power Producing Facilities**

For retail customers with renewable energy generating systems\* delivering kilowatt-hours onto the UC system consisting of:

1. Tier One: Ten (10) kilowatts or less provided they comply with the then in effect UC Standardized Interconnection Requirements and do not exceed Ninety (90) percent of the customer's maximum potential alternating current demand served by all sources. UC fees for such installations will be consistent with fees for other customers without such generation, including application fees. However, compensation for energy delivered onto the UC system shall execute the Charter required six (6) percent payment to the City of New Smyrna Beach and the required eight (8) percent UC Resolution 28-78 R&R assessment from the applicable rate.

2. Tier Two: Over ten (10) kilowatts and less than or equal to one hundred (100) kilowatts provided they comply with the then in effect UC Standardized Interconnection Requirements for units of such size and do not exceed Ninety (90) percent of the customer's maximum potential alternating current demand served by all sources. UC fees for such installations will be cost based for the specific installation, including application fees. However, compensation for energy delivered onto the UC system shall execute the Charter required six (6) percent payment to the City of New Smyrna Beach, the required eight (8) percent UC Resolution 28-78 R&R assessment from the applicable rate, and the applicable Transmission system cost and generation capacity cost in effect during the billing cycle for payments earned under this tariff.

(Continued on First Revised Sheet No. 26-1)

(Continued from First-Revised Sheet No. 26-0)

**(Standby-Electric-and-On-Site-Generation)-SE/OSG (Cont.)**  
**INTERIM-NET-METERING-RIDER-TO**  
**UC RESIDENTIAL-AND-GENERAL-SERVICE-SCHEDULES**  
**EXCLUDING-ALL-LOAD-MANAGEMENT-SCHEDULES**

3.—Tier Three—Greater than one hundred (100) kilowatts and less than or equal to two thousand (2,000) kilowatts provided they comply with the then-in-effect U.C. Standardized Interconnection Requirements for units of such size and do not exceed ninety (90) percent of the customer's maximum potential alternating current demand served by all sources. U.C. fees for such installations will be cost-based for the specific installation, including application fees. However, compensation for energy delivered onto the U.C. system shall exclude the Chester required any (6) percent payment to the City of New Smyrna Beach, the required eight (8) percent U.C. Resolution 28-78-R&R assessment from the applicable embedded fuel costs in effect during the billing cycle, and the applicable transmission and ancillary rates, the applicable transmission costs and generation capacity cost in effect during the billing cycle for payments earned under this tariff.

4.—If the kWh delivered to the U.C. System exceeds the kWh delivered to the Customer's home in a billing cycle, a credit for the net kWh delivered to the U.C. system shall be carried forward to the next billing cycle. Credits may accumulate and be carried forward for a 12-month period. The 12-month period is defined as the first billing cycle in which the installation has been approved by the U.C. for interconnection and will continue for each successive month concluding with the 12<sup>th</sup> billing cycle (reconnection month). At the conclusion of the 12<sup>th</sup> billing cycle, the net balance will be paid the Customer for net excess energy delivered to the U.C.'s System at the end of the 12 month period based upon U.C. costs in effect during said month of the 12<sup>th</sup> billing. Such payment will be forthcoming within 60 days of such reconnection date. The 12-month reconnection cycle will be repeated until such agreement is terminated by either party at which time the U.C. costs for that month will be used to determine any payments, if any, which will be forthcoming within 60 days of such reconnection date.

\*—The designated technologies of fuel cell, wind, solar-thermal, solar-volatile, sustainably-managed biomass, vegetable, base oil, tidal, geothermal, methane, waste, waste-to-energy, or fuel-cell combined-heat-and-power (CHP) systems are currently regarded as renewable sources.

**B—Green Attributes**

The U.C. shall install, at U.C.'s sole expense, metering equipment capable of measuring the total system output of interconnected customer-owned renewable generation. The customer shall install the appropriate meter socket and associated electrical circuits as may be required for the customer's renewable generation. The U.C. shall have the right to receive, and is solely responsible to apply and qualify for, the benefits of any and all Green Attributes created or granted as a result the total system output of interconnected customer-owned renewable generation. The term "Green Attributes" shall include any and all credits, certificates, benefits, environmental attributes, emissions reductions, offsets, and allowances, however entitled, attributable to the generation of electricity from the customer owned-renewable generation and its displacement of conventional energy generation.

**(Standby-Electric-and-On-Site-Generation) SE/OSG  
INTERIM NET METERING RIDER TO  
UC RESIDENTIAL AND GENERAL SERVICE SCHEDULES  
EXCLUDING ALL LOAD MANAGEMENT SCHEDULES (Cont.)**

**II. APPLICATION FOR SERVICE:**

The Customer must apply for service by providing the Company with an executed Application for Interconnection and an executed Interconnection Agreement, all of which are available from UC engineering. UC staff is hereby authorized to amend technical requirements, including the designated renewable technologies, of said Application and Interconnection Agreement as may be appropriate from time-to-time based upon the individual circumstances or applications onto the UC's electric system.

No application fee shall apply for Tier One Customers.

Tier Two Customers shall pay a \$275 application fee to cover the cost for processing the application and review of the proposed interconnection impact on the UC's electric system. Such Interconnection shall be consistent with prudent utility practice, industry criteria, and shall not whatsoever require any costs, including overheads and indirects, to the UC for upgrade or construction on the UC's electric system.

Tier Three Customers shall pay a \$750 application fee to cover the cost for processing the application and review of the proposed interconnection impact on the UC's electric system, plus the actual UC cost of a formal Interconnection Study. Such Interconnection shall be consistent with prudent utility practice, industry criteria, and shall not whatsoever require any costs, including overheads and indirects, to the UC for upgrade or construction on the UC's electric system.

**III. CHARACTER OF SERVICE:**

Continuous, 60 cycle single or three phase alternating current delivered at one standard offering secondary or primary distribution voltage or transmission voltage, phase and voltage depending on availability and the customer's requirements. Under these demand provisions, the customer agrees to maintain power factors at .98 or greater but not to exceed 1.02 of unity.

**IV. INTERCONNECTION:**

**A. TERM**

A minimum of one year from commencement of service under this Rider and for such additional time as the customer continues to qualify for said service on a month-to-month basis unless terminated by the customer or the UC. The UC may remove a customer not meeting the criteria for mandatory or elective service at any time. A customer cannot resume said service except on a case-by-case basis as determined solely by the UC.

**B. GENERAL TERMS AND CONDITIONS**

I. The charges calculated under this tariff are subject to change in such an amount as may be approved and/or amended by the Utilities Commission or under the provisions of applicable tariffs and riders.

(Continued on First Revised Sheet No. 26.3)

(Continued from First Revised Sheet No. 26.2)

**(Standby-Electric-and-On-Site-Generation)-SE/OSG  
INTERIM NET METERING RIDER TO  
UC RESIDENTIAL AND GENERAL SERVICE SCHEDULES  
EXCLUDING ALL LOAD MANAGEMENT SCHEDULES (Cont.)**

a. Customer owned renewable generation shall be considered certified for interconnected operation if it has been submitted by a manufacturer to a nationally recognized testing and certification laboratory, and has been tested and listed by the laboratory for continuous interaction operation with an electric distribution system in compliance with the applicable **Codes and Standards**. The Customer shall conform to all applicable codes and standards for safe and reliable operation. Among these are the National Electric Code (NEC), National Electric Safety Code (NESC), the Institute of Electrical and Electronics Engineers (IEEE), American National Standards Institute (ANSI), and Underwriters Laboratories (UL) standards, and local, state and federal building codes. The Customer shall be responsible to obtain all applicable permit(s) for the equipment installations on their property.

b. Codes and standards for inverter installations will be in compliance with all applicable standards including of IEEE 1547, IEEE 1547a, IEEE 1547.1, and UL 1741 IEEE Standard 519-1992 Harmonic Limits.

c. Non-Inverter-Based Interconnection Requirements

In addition to applicable inverter codes and standard, the Application for such Interconnection may require more detailed UC review, testing, and approval, at Customer cost, of the equipment proposed to be installed to ensure compliance with other additional and applicable standards including:

- IEEE Standard 1547-2003 Standard for Interconnecting Distributed Resources with Electric Power Systems
- ANSI Standard C37.90-2005, IEEE Standard for Relays and Relay Systems Associated with Electric Power Apparatus

d. Customers proposing such interconnection may also be required to submit a power factor mitigation plan for UC review and approval.

e. The Customer shall provide a written report that Customer-owned renewable generation complies with the foregoing standards.

2. Customer-owned renewable generation shall include a utility interactive inverter, or other device certified pursuant to No. 1 immediately above, that performs the function of automatically isolating the Customer-owned generation equipment from the electric grid or circuit should the grid or circuit lose power or become de-energized. For Tiers Two and Three installations of additional requirements such as protective and isolation relaying and synchronous generation relays may be required by UC Engineering and will be reviewed on a case-by-case basis.

(Continued on First Revised Sheet No. 26.4)

(Continued from First Revised Sheet No. 26.3)

INTERIM-NET-METERING-RIDER-TO  
UC RESIDENTIAL-AND-GENERAL-SERVICE SCHEDULES  
EXCLUDING ALL LOAD-MANAGEMENT SCHEDULES (Cont.)**

3. The Customer shall be responsible for protecting its Customer-owned renewable generation equipment, inverters, protective devices, and other system components from damage from the normal and abnormal conditions and operations that occur on the UC electrical system in delivering and restoring power, and shall be responsible for ensuring that Customer-owned renewable generation equipment is inspected, maintained, and tested with the manufacturer's instructions to ensure that it is operating correctly and safely. The Customer agrees to provide and maintain general liability insurance for personal and property damage, or sufficient guarantee and proof of self-insurance of not less than one hundred thousand dollars (\$100,000) for Tier One inverter-based solar photovoltaic (PV) systems, one million dollars (\$1,000,000) for all other Tier One, one and one-half million dollars (\$1,500,000) for Tier Two, and two million dollars (\$2,000,000) for Tier Three during the entire period of the Interconnection Agreement.
4. The Customer agrees to provide City of New Smyrna Beach Building Code Official inspection and certification of the installation. The certification shall reflect that the Official has inspected and certified that the installation was permitted, has been approved, and has met all National Electric Code electric and ASME mechanical qualifications as applicable.
5. The UC reserves the right to inspect Interconnection, but not be limited to, such generating facilities, pertinent equipment, and instructions, to insure compliance with its Interconnection Agreement, upon reasonable notice or without notice in the event of an emergency or hazardous condition. Such inspection or observation by the UC shall not be deemed to be or construed in any way whatsoever as a direct or implied warranty by the UC of the safety, durability, suitability, or reliability of such equipment. The UC further reserves the right to disconnect the Customer-owned renewable generation at any time. The UC shall require the Customer to install, at the Customer's expense, a lockable, manual disconnect switch of the visible load-break type separate from, but adjacent to the meter socket(s) for UC meters, to provide a separation point between the AC power output of the Customer-owned renewable generation and any Customer wiring connected to the UC's system.
6. The Customer shall be solely responsible to disconnect the Customer-owned renewable generation and the Customer's other equipment if conditions on the UC system could adversely affect the Customer-owned renewable generation.
7. No interconnection of such renewable Customer-owned generation is permissible until approved by the UC by written acceptance. Such Interconnection Agreement is not assignable without written 30 day notice and agreement by either Party which consent shall not be unreasonably withheld or delayed. Furthermore, the Customer shall not enter into any lease agreement that results directly or indirectly in the retail purchase of electricity nor the retail sale, directly or indirectly, of electricity from the Customer-owned renewable generation.
8. The Customer shall notify the UC of any anticipated modifications to said system 30 days in advance of such proposed changes through a new application specifying such equipment changes or new equipment and will require written approval by the UC and the City of New Smyrna Beach or Volusia County Building Inspection Department.

**UC RESIDENTIAL AND GENERAL SERVICE SCHEDULES (Cont.)**

9.—The Customer shall indemnify, hold harmless and defend the UC from and against any and all liability, proceeding, suits, cost of expense for loss, damage or injury to persons or property, including the Customer-owned renewable generation, in any manner directly or indirectly connected with, or growing out of, operation of the Customer-owned renewable generation, except in those cases where loss occurs due to the negligent actions of the UC as may be determined by Florida law. Under the limits permissible by Florida municipal law, the UC shall hold harmless and indemnify the Customer for all loss to third parties resulting from the operation of the UC's system, except when the loss occurs due to the negligent actions of the Customer.

**C. INCREASE IN RATES AND CHARGES**

All rates and charges billed under a Service Classification and its Rider, including the Minimum Charge, shall be increased pursuant to the applicable required tax rates and other applicable governmental required fee payments by the United States, the State of Florida, Volusia County, the Utilities Commission, the City of New Smyrna Beach, the City of Edgewater or another applicable tax jurisdiction, as appropriate, for wherein the customer takes service.

**RATE SCHEDULE PCEV**  
**UTILITIES COMMISSION OWNED PUBLIC CHARGING FOR ELECTRIC VEHICLES**  
**(PILOT PROGRAM)**

**AVAILABILITY AND APPLICABILITY**

Any customer charging electric vehicles (EVs) at a Utilities Commission (UC) owned public charging station (Stations) installed throughout the Utilities Commission's service area.

**APPLICATION**

The Stations may be accessed by any person (User) who resides either within or outside the Utilities Commission's service area. The Stations will be accessible to the public for charging EVs.

**LIMITATION OF SERVICE**

The User must register an account with the respective an EV charging station network provider, including payment information, prior to charging the EV.

**BILLING AND PAYMENT TERMS**

The current rate is set at \$0.35/kWh. Charging network fees as determined by the charging station network provider will apply at the stations and are over and above the UC's current rate per kWh. Vehicle idling fees at a rate up to \$0.40 per minute following a fifteen-minute grace period may apply at certain stations located in highly trafficked areas. The rates applicable to the Stations including the rate per kWh, taxes and charging network provider and idle fees will be visible to the User via the network provider mobile application and/or Stations display. Users will be notified when the charging session is complete via the display located at the Stations and through the network provider's mobile application and will have the ability to obtain a detailed receipt of the charge session.

**RATE SCHEDULE NSMR  
NON-STANDARD METER RIDER**

**AVAILABILITY AND APPLICABILITY**

This Rider is available on a voluntary basis to customers who elect to have a non-standard meter that requires a meter reading that is not consistent with the Utilities Commission's standard digital meter reading process ("Opt-Out Customer").

**LIMITATION OF SERVICE**

This Rider is available to customers who have not tampered with the electric meter service or used service in a fraudulent or unauthorized manner. This Rider will remain available as long as non-standard meter options are reasonably available.

**CHARGES**

All charges and provisions of the Opt-Out Customer's otherwise applicable electric service rate schedule shall apply. In addition, customers who select service under this Rider will be charged an Enrollment Fee and a recurring Monthly Surcharge. The Enrollment Fee consists of an initial lump sum payment.

Enrollment Fee: \$90.00

Monthly Surcharge: \$13.00

**TERM OF SERVICE**

Not less than one (1) billing period.

**SPECIAL PROVISIONS**

Customers taking service under this Rider relocating to new premises who wish to continue service under NSMR are required to request new service under the Rider including payment of the Enrollment Fee at the new premises. Customers who cancel service under this Rider and then later re-enroll for this service at any location would also be required to submit another Enrollment Fee.

	<u>Sheet Number</u>
Liability Policy	3.0
Terms of Payment	4.0
Security Deposit	4.1
Service Fees	4.3
Line Extensions	4.5
Index of Rates	4.9
Rate Schedules	5.0

## LIMITS OF LIABILITY POLICY

The Utilities Commission will use reasonable diligence at all times to provide continuous service at the agreed nominal voltage, and shall not be liable to the Customer or to any other person/ entity for complete or partial failure or interruption of service, or for fluctuations in voltage, resulting from the ordinary negligence of its employees, servants or agents. The Utilities Commission also will not be liable to the Customer or to any other person/entity for the complete or partial failure or interruption of service, fluctuations in voltage, or any other act or omission or related injury caused directly or indirectly by strikes, labor troubles, accident, litigation, shutdowns for repairs or adjustments, interference by federal, state or local governments, acts of nature or God or other causes beyond its control. The policy can be found at <https://www.nsbufl.com/>.

**TERMS OF PAYMENT**

**APPLICATION OF LATE PAYMENT SERVICE CHARGE**

The schedule of late payment service on all unpaid accounts (approximately twenty-two days after the first bill) as they become in arrears is as follows:

<u>Arrears</u>	<u>Service Charge</u>
Less than \$25.00	No service Charge
\$25.00 and Above	\$ 5.00 or 1.5%, Whichever is Greater

**APPLICATION OF DELINQUENT ACCOUNT CHARGE**

Delinquent account charges may be waived by a Customer Service Representative provided: (1) the customer has had no delinquent adjustment in the preceding twelve months or (2) the delinquent charge was erroneously applied.

**RETURNED CHECKS**

If the customer pays the returned check before the check is received from the bank, the fee is \$20.00.

If the check has already been received from the bank, the fee is \$35.00.

**SECURITY DEPOSIT:** A security deposit is required for providing services furnished as follows:

**RESIDENTIAL AND GENERAL SERVICES**

**1. Existing Accounts**

**A. Residential Accounts**

No change in deposit of existing accounts unless service is discontinued for non-payment. If an account is cut-out for non-pay an additional deposit in the amount equal to the deficiency between the present deposit and the deposit amount prescribed by this policy for a new service of similar type will be required prior to reconnection.

**B. General Service Accounts**

No change in deposit of existing accounts unless service is discontinued for non-payment. If an account is cut-out for non-pay an additional deposit in the amount equal to the deficiency between the present deposit and the deposit amount prescribed by this policy for a new service of similar type will be required prior to reconnection. Expiration of a surety bond or an irrevocable letter of credit may result in the required deposit to be two times the average monthly bill as estimated by the Utilities Commission.

**2. Deposits for New Accounts**

The deposit for new accounts shall be as follows:

**A. Residential Accounts**

For customers on Residential Electric Service, the minimum deposit shall be \$80.00 and the maximum deposit shall be \$260.00.

**B. General Service Accounts**

For customers on the General Service rate, the required deposit shall be two times the average monthly bill as estimated by the Utilities Commission. In the event the Utilities Commission determines that the deposit is not sufficient to cover twice the actual average monthly bill an adjustment to the required deposit may be made. In any event the minimum deposit for all General Service Accounts shall be \$80.00.

**3. Deposit Payment**

**Residential Accounts**

The customer will be billed for the deposit(s) and will have ten (10) days to pay said deposit(s). If the customer does not pay the deposit(s) within the ten (10) day period, utility services will automatically be disconnected. Deposits must be made by cash, check, money order, or Utilities Commission approved aid voucher. Credit cards will be accepted up to \$1,000.00.

The following guidelines apply to all customers requesting residential electric services:

(Continued on First Revised Sheet No. 4.1.1)

(Continued from Second Revised Sheet No. 4.1)

- A. For existing accounts with good credit standing with the Utilities Commission at the time of adoption of this policy, their existing deposits will remain unchanged. Discontinuance of service for non-payment on existing accounts may require an additional deposit.
- B. Any new customer establishing services with the Utilities Commission will have their social security number verified by the "On-Line Utility Exchange" or any other provider of similar services. Based on the results, the customer may or may not be required to pay a deposit.
- C. Any current or returning customer, with at least six months of history with the Utilities Commission, requesting new service will have their deposit based on current and/or previous account history. Customers with no more than two late fees, no disconnections for non-payment, and no returned checks, all within the most recent 24-month period, will not be required to pay a deposit. Any returning customers who do not meet this criteria will be required to pay the maximum deposit.
- D. Any customer requesting service that has a paid write-off (final bill balance sent to collections) with the Utilities Commission will be required to pay the maximum deposit prior to connection of service. If the customer has an unpaid write-off with the Utilities Commission, they will be required to pay it in full, along with the maximum deposit prior to connection of service.
- E. The Utilities Commission will not transfer a deposit from one individual to another individual. Transfers of deposit(s) from one address to another address for the same individual will be made provided the account balance at the currently served location is in a current (outstanding balance is zero) status.
- F. If a customer transfers his/her deposit to an account within the system, the final bill on the old account, if delinquent, will be transferred to the current account for collection and becomes subject to collections and disconnect procedures.
- G. Customers that are continuously delinquent are subject to a revised required deposit amount.
- H. Residential Blanket Deposit  
Blanket deposits will be accepted from residential customers with an average of ten or more active, long-term accounts – open simultaneously. Long-term defined as active for a minimum of two complete billing periods. Deposits will be held on a master account, thereby eliminating the need to place a deposit for each individual service address.

The initial calculation of the blanket deposit will be based on credit history and number of accounts provided. Blanket deposits may be evaluated and recalculated as necessary based on the number of active accounts and/or credit history.

(Continued on First Revised Sheet No 4.1.2)

(Continued from First Revised Sheet No. 4.1.1)

Blanket deposit payments may be made by cash, check, money order, or a credit card payment of up to \$1,000 or by a surety bond for the full amount required, or by an irrevocable letter of credit satisfactory to the Utilities Commission for the full amount required. The customer will need to pay the blanket deposit immediately at the time a blanket deposit is being requested. (Note – Only individual account residential deposits will be billed with a 10-day allowance for payment).

In the event the deposit is paid by a surety bond or an irrevocable letter of credit, and the instrument matures, the Utilities Commission reserves the right to request cash (legal tender) for the required deposit. Failure to comply with this requirement will result in discontinuance of service.

#### General Service (Commercial) Accounts

- A. The customer must pay the full deposit at the time the account is being established.
- B. Deposit payments must be made by cash, check, or money order. Credit card payments will be accepted for payments of \$1,000 or less.
- C. When the required combined total deposit exceeds \$1,000, the applicant, at their option, may furnish in lieu of cash the following instruments:
  1. A surety bond for the full amount required.  
OR
  2. An irrevocable letter of credit satisfactory to the Utilities Commission for the full amount required.

In the event the above instruments mature, the Utilities Commission reserves the right to request cash (legal tender) for the required deposit. Failure to comply with this requirement will result in discontinuance of service.

- D. For new accounts, the Utilities Commission will initiate a review of customer's monthly billings as compared to the deposit paid, not less than six months but not more than one year from the service date.
4. Additional Deposits Requirements

In the event the utility service is discontinued for non-payment or has received two (2) or more returned checks within a twelve (12) month period, the Utilities Commission may require a deposit(s) sufficient to cover at least two (2) months of the previous average monthly billing to be paid within ten (10) days from notice. If such additional deposit is not made within ten (10) days, the Utilities Commission may disconnect service in accordance with the collection and disconnect policy. On a case-by-case basis, an extended due date for additional deposits may be considered.

(Continued on First Revised Sheet No. 4.1.3)

(Continued from First Revised Sheet No. 4.1.2)

**5. Interest Rates**

Interest at a rate to be determined by the Utilities Commission each year and will be credited to the customer's account each month beginning with the first full month of service.

**6. Refunds of Deposit**

For residential accounts only, the Utilities Commission may credit the deposit to the customer's account after adoption date of the policy when:

- A. The customer had paid bills for the previous twenty-four (24) consecutive residential billings without having service disconnected for non-payment;  
AND
- B. Without having more than two (2) occasions on which a bill was delinquent for the previous twenty-four (24) months;  
AND
- C. When a customer has not had any returned checks within a twenty-four (24) month period (excludes verified bank errors).

The deposits are refundable only to the customer whose name appears on the account at time of refund.

**7. Records of Deposit**

The Utilities Commission will keep records to show:

1. Name, address and Social Security number of each depositor.
2. Amount and date of deposit.
3. Each transaction concerning deposit.

The Utilities Commission will issue a receipt of deposit to each applicant from whom a deposit is received and provide a means whereby a depositor may establish claim if the receipt is lost.

A record of each unclaimed deposit will be maintained, and the Utilities Commission will make a reasonable effort to return the deposit.

RESERVED FOR FUTURE USE

**RATE SCHEDULE SF-1**  
**SERVICE FEES RATE SCHEDULE**

The Utilities Commission shall charge and collect for customer service fees based on the type of service rendered.

**Availability**

This schedule is available at the Commission's Central Office Building (COB) located at 200 Canal Street, New Smyrna Beach, FL 32168 and on online at <https://www.nsbufl.com> in accordance with the service policies of the Commission.

**Terms of Payment**

Payment for services rendered shall be made at the time the service is requested.

**Fees**

The fees to be charged for services rendered are as follows:

<b><u>SERVICE</u></b>	<b><u>FEES</u></b>
Service Requests will only be performed during regular working hours Requests received for cut-ins by 2:00 p.m. M-F will be completed on the same day, requests received after 2:00 p.m. will be completed no later than 2:00 p.m. the following business day.	\$ 35.00
Meter Lock Charge* (*Required for meter sets for construction or as may be determined needed by the UC)	\$ 35.00
Temporary Cut-In/Cut-Out Service for Building Maintenance, Etc. (Weekdays) (Requires 24 hrs. Notice; Services will be active from 11:00 a.m. the day of cut-in to 11:00 a.m. the next day.)	\$ 75.00
Temporary Cut-In/Cut-Out Service for Building Maintenance, Etc. (Weekends) (Requires 24 hrs. Notice; Services will be active from 11:00 a.m. on Friday to 11:00 a.m. on Monday.)	\$100.00
Reconnection Fee After Disconnection for Non-Payment, Regular Working Hours	\$ 50.00
Reconnection Fee After Unauthorized (Illegal) Connection* (*Minimum or Actual Cost of Investigation)	\$150.00
Reconnection at Pole	\$150.00
Meter Reset Charge After Unauthorized (Illegal) Connection (Same as Supplemental Meter)	\$150.00

(Continued on Sixth Revised Sheet No. 4.4)

(Continued from Seventh Revised Sheet No. 4.3)

<u>SERVICE</u>	<u>FEES</u>
<b><u>TAMPERING FEES**</u></b>	
Cut Seal or Cut Lock Fee	\$ 35.00
Damaged Equipment	\$ 75.00
Meter Tampering / Unauthorized Use (Illegal) Fee* - 1 <sup>st</sup> Offense (*Minimum Plus Any Applicable Service Charges)	\$300.00
Meter Tampering / Unauthorized Use (Illegal) Fee* - Repeat Occurrence (*Minimum Plus Any Applicable Service Charges)	\$500.00

\*\*Utility Tampering and/or Unauthorized Use (Illegal) Fees will be assessed whenever there is evidence of meter tampering, meter bypassing, or self-restored services. In addition to the cost of investigation, repairs, the estimated usage, and other applicable service charges, up to and including three times the estimated dollar value of the services obtained unlawfully.

**Trip Fees:** Any time a utility employee is deployed (other than routine meter readings or maintenance) to a customer's premises, whether for the process of disconnection (hang tag or disconnect) or other services, the customer will bear the expense. Utilities Commission field personnel are not authorized to take payment in the field.

Trip Fees During Regular Working Hours	\$ 35.00
Trip Fees After Hours – Emergency Only* (*Determined by the UC)	\$150.00
<b><u>Research Fee:</u></b> Per Each Request for Determination of Existing U.C. Liens, Assessments and/or Promissory Notes	\$ 20.00

<b><u>Collections Processing Fee:</u></b> Customer's Utility Account Sent to Collections for Non-Payment – Fee is Per Account	\$ 35.00
---	----------

RESERVED FOR FUTURE USE

## ELECTRIC POLE LINE EXTENSIONS OR ADDITIONS

### APPLICATIONS

Upon acceptance of the application for service in the Utilities Commission service territory, the Utilities Commission will proceed to do such work including providing and installing required equipment necessary in order to render service.

In general, where the major portion of an anticipated extension will be built on public rights-of-way, and the new customer can reasonably be characterized as permanent, then the Utilities Commission will do all necessary construction at no cost to the customer. However, customers shall pay all applicable right-of-way permitting application fees.

Where these guidelines clearly do not apply or the request is for underground distribution facilities, the Utilities Commission reserves the right to require payment for a portion of its distribution investment.

For the extension of overhead distribution facilities, the Utilities Commission may charge the customer all costs in excess of 2-1/2 times the estimated annual non-fuel revenue (exclusive of the costs for transformers, secondary connections, and meters), and/or such other charges as the particular circumstance may dictate.

For the extension of underground distribution facilities, the Customer will pay 47% of the Utilities Commission's cost of primary cable, splices, transformers, and any other equipment or materials necessary to provide electric service. Any equipment requested by the customer (such as automatic transfer switchgear, redundant transforms, etc..) that are in addition to the Utilities Commission design, if approved by the Utilities Commission, will be 100% chargeable to the customer.

When kW demand factors, intermittent usage patterns, or premature investment result in necessarily inefficient utilization of the Utilities Commission's facilities, the Utilities Commission may require cash advances, minimum guarantees, or other means of providing a fair return on investment.

The terms and charges will be determined by the Utilities Commission staff based on the above conditions.

This electric line extension policy will be used as a guideline for all line extensions. Exceptions to this policy can be approved by the Director of Engineering for the Utilities Commission.

**REQUIREMENTS AND POLICY  
FOR  
RESIDENTIAL UNDERGROUND SERVICE LATERALS**

**UTILITIES COMMISSION**

The Utilities Commission will own and maintain service laterals up to the designated point of delivery except as otherwise noted. The Utilities Commission will install one underground service lateral to all newly constructed residential buildings containing less than five separate dwelling units. All units in one building must be gang metered at a single designated location.

**CUSTOMER REQUIREMENTS**

The customer shall furnish and install conduit as specified by the Utilities Commission. This includes excavating trench and backfill. The customer shall pay the Utilities Commission the differential cost between an overhead service and an underground service lateral as follows:

Three Phase Service:	\$375.00*
Single Phase Service:	\$350.00*

\*These costs are for the average base electric service including 50' service lateral installed. Additional costs will be added, and specific costs estimates provided for larger electric services, additional lengths of lateral, and if the work is performed at the request of the customer on a Saturday or Sunday/Holiday.

The relocation and/or upgrading of existing overhead and underground residential service laterals shall be the same as specified above plus all costs for labor, equipment, and material.

Existing direct buried service laterals that fail will be repaired up to two (2) times. After the second repair, the Utilities Commission will evaluate and install conduit and new service cable to match the existing direct-buried service size or install per current Utilities Commission standards at no cost to customer. In order to do so, the customer shall provide an easement for the new facilities (as necessary) and will allow the Utilities Commission access to their property to install the new facilities to the existing meter base location. Any request for upgraded services will be evaluated by the Utilities Commission and charged appropriately.

Customers pay all applicable right-of-way permitting application fees.

## **UNDERGROUND ELECTRIC PRIMARY DISTRIBUTION**

### **DEFINITIONS**

- A. Residential Subdivisions: a tract of land divided into five or more building lots, and zoned residential.
- B. Single Family Detached Unit: a house designed and built to accommodate one family. The unit shall be free standing, not attached to any other dwelling unit.
- C. Multi-Family Residential Building: a structure in which two (2) or more dwelling units are attached by a common wall and/or roof.

### **APPLICATION**

- A. Single Family Detached Unit: underground primary distribution facilities will not be provided unless the units are a part of a residential subdivision.
- B. Multi-Family Residential Building: will have underground primary distribution facilities provided so long as:
  1. The Utilities Commission is free to construct such extensions in the most economical manner.
  2. Reasonably full use is made of the tract plan upon which the building will be constructed.
  3. The applicant provides the necessary conduit furnished and installed, at his/her expense, as specified by the Utilities Commission.
  4. If any feeder circuit mains are deemed necessary by the Utilities Commission to provide and/or maintain adequate service within the development or buildings, and if the feeder mains are required to be underground, the underground feeder mains shall be installed by the Utilities Commission at no additional cost to the applicant.

(Continued on Second Revised Sheet No. 4.5.3)

(Continued from Second Revised Sheet No. 4.5.2)

- C. Residential Subdivisions and Commercial Customers: Underground primary distribution facilities will be provided to residential subdivisions and commercial customers when requested by the applicant subject to the following conditions:
  - 1. The Applicant, at their expense, will furnish and install conduit as specified by the Utilities Commission. This includes excavating, trenching and backfill.
  - 2. If any feeder circuit mains are deemed necessary by the Utilities Commission to provide and/or maintain adequate service within the development or buildings, the feeder mains shall be installed by the Utilities Commission at no additional charge to the applicant.
- D. Other: All other units or buildings not explicitly covered by any of the above, apply for installation of underground primary distribution facilities; however, any differential cost between above ground (overhead) primary distribution construction and underground primary distribution construction will be borne completely by the applicant.
- E. Customers shall pay all applicable right-of-way permitting application fees.

INDEX OF RATES  
Schedules

<u>Designation</u>	<u>Description</u>	<u>Sheet No.</u>
GS-4	General Service – Non-Demand	5.0
RS-4	Residential Service	6.0
SL-3	Public Street Lighting and Private Outdoor Lighting	7.0
FPPCAC	Fuel and Purchased Power Cost Adjustment Clause	8.0
GSD-3	General Service – Demand	11.0
RSL-2	Residential Load Management Service (CLOSED)	16.0
TS-1	Temporary Service	17.0
GSL-1	General Service Non-Demand Load Management Credit (CLOSED)	18.0
TAC-90	Tax Adjustment Clause	21.0
	Conversation of Electric Distribution Systems	23.0
GSLD-1	General Service – Large Demand	25.0
NBR	Net Billing Rider	26.0
PCEV	Utilities Commission Owned Public Charging for Electric Vehicles (Pilot Program)	27.0
NSMR	Non-Standard Meter Rider	28.0

**RATE SCHEDULE GS-4**

**GENERAL SERVICE - NON-DEMAND ELECTRIC RATE SCHEDULE**

The Utilities Commission shall charge and collect for general service electric energy on the basis of availability, application, type of service, monthly rate, minimum charge, tax adjustment clause and fuel and purchased power cost adjustment clause.

**AVAILABILITY**

This schedule is available at any location within the Utilities Commission service area in accordance with the service policies of the Commission for non-residential customers with a measured peak demand of less than 50 kW for four months including the current month.

**APPLICATION**

To non-residential customers for all electric power and energy requirements. Each premise will be supplied at one point of delivery and all electric service will be supplied by one meter.

**TYPE OF SERVICE**

Single or three phase, 60 Hertz, at one of the Commission's standard service voltages.

**MONTHLY RATE**

Customer Charge:

Single Phase Service	\$12.75
Three Phase Service	\$18.65

Energy Charge:

All kWh per month at 10.849¢ per kWh

The minimum charge is the Customer Charge.

**FUEL AND PURCHASED POWER COST ADJUSTMENT CLAUSE**

The amount computed at the above monthly rate shall be adjusted plus or minus by an amount calculated in accordance with the formula specified in the Utilities Commission's Fuel and Purchased Power Cost Adjustment Clause which is a part of the "Monthly Rate" of this rate schedule.

**TAX ADJUSTMENT CLAUSE**

Electric service under this schedule is subject to the provisions of the Tax Adjustment Clause.

**TERMS OF PAYMENT**

The terms of payment shall be in accordance with the provisions set forth on Sheet No. 4.0.

**RATE SCHEDULE RS-4**  
**RESIDENTIAL SERVICE ELECTRIC RATE SCHEDULE**

The Utilities Commission shall charge and collect for residential electric service energy based on the availability, application, type of service, monthly rate, fuel and purchased power cost adjustment clause and tax adjustment clause.

**AVAILABILITY**

This schedule is available at any location within the Utilities Commission service area in accordance with the service policies of the Utilities Commission.

**APPLICATION**

To residential customers in single family dwelling units when all electric service supplied to the dwelling unit is used for household purposes and is measured by one meter. Any portion of the electric service supplied to a dwelling unit used for non-residential purposes, must be wired by the customer and metered separately as a non-residential meter. In the case of multiple meters, this rate schedule is applicable to the portion used for residential purposes.

**TYPE OF SERVICE**

Single phase, 60 Hertz, 120/240 volts. Three phase service may be furnished if available at the discretion of the Utilities Commission.

**MONTHLY RATE**

Customer Charge

Single Phase Service	\$9.50
Three Phase Service	\$13.20

Energy Charge

First 1,000 kWh per month at 10.522¢ per kWh
All kWh over 1,000 kWh per month at 12.336¢ per kWh

The minimum charge is the Customer Charge.

**FUEL AND PURCHASED POWER COST ADJUSTMENT CLAUSE**

The amount computed at the above monthly rate shall be adjusted plus or minus by an amount calculated in accordance with the formula specified in the Utilities Commission's Fuel and Purchased Power Cost Adjustment Clause which is a part of the "Monthly Rate" of this rate schedule.

**TAX ADJUSTMENT CLAUSE**

Electric service under this schedule is subject to the provisions of the Tax Adjustment Clause.

(Continued on Thirteenth Revised Sheet No. 6.1)

(Continued from Thirteenth Revised Sheet No. 6.0)

**TERMS OF PAYMENT**

The terms of payment shall be in accordance with the provisions set forth on Sheet No. 4.0.

### RATE SCHEUDLE SL-3

#### PUBLIC STREET LIGHTING AND PRIVATE OUTDOOR LIGHTING ELECTRIC SERVICE RATE SCHEDULE

The Utilities Commission shall charge and collect for residential electric service energy based on the availability, application, type of service, monthly rate, fuel and purchased power cost adjustment clause and tax adjustment clause.

#### AVAILABILITY

This schedule is available throughout the entire territory served by the Utilities Commission, City of New Smyrna Beach, Florida. Availability may be limited due to inaccessibility by Utilities Commission equipment and personnel.

#### TYPE OF SERVICE

Service includes installation, lamp replacement, maintenance, and removal. The Utilities Commission will maintain its facilities during regular working hours but does not guarantee continuous lighting and will not be liable for damages for any interruption, deficiency or failure of service, and reserves the right to interrupt service at any time for necessary repair to lines and equipment or system protection. The Utilities Commission shall be permitted to enter the customer's property at reasonable times for the purpose of inspecting, maintaining, installing and removing any of its equipment and facilities. The Utilities Commission will not be liable for damages occurring during installation, maintenance, or removal. The customer will be responsible for tree trimming and removing other vegetation that obstructs Utilities Commission vehicles and personnel. Willful damage to any Utilities Commission-owned facilities by the customer will require full restitution by the customer.

#### TYPE OF INSTALLATION

Streetlights will normally be installed on Utilities Commission existing distribution system poles and fed from existing wires. The installation of any new distribution facilities and/or alterations to existing facilities to serve new streetlights will require a Contribution-in-Aid-of-Construction (CIAC) paid in advance.

Streetlights installed in existing or planned underground distribution areas will require customer trenching and conduit installation according to Utilities Commission drawings and specifications. The customer will also install Utilities Commission supplied equipment necessary to complete the conduit system. The Utilities Commission will install the electrical system, streetlight poles and fixtures. A Contribution-in-Aid-of-Construction (CIAC) paid in advance will be required.

#### CUSTOMER CONTRIBUTIONS

Contribution-in-Aid-of-Construction (CIAC) - The installation cost of any new distribution system and/or alterations to existing facilities to serve streetlights will require a CIAC payment from the requesting customer equal to the total Utilities Commission cost paid in advance.

**FUEL AND PURCHASED POWER COST ADJUSTMENT CLAUSE**

The amount computed at the above monthly rate shall be adjusted plus or minus by an amount calculated in accordance with the formula specified in the Utilities Commission's Fuel and Purchased Power Cost Adjustment Clause which is a part of the "Monthly Rate" of this rate schedule. The Monthly Fuel and Purchased Power Cost Adjustment charges, if any, will be determined as follows:

Daily kWh usage x days in billing period x monthly energy cost  
adjustment factor (expressed as dollars per kWh)

**TAX ADJUSTMENT CLAUSE**

Electric service under this schedule is subject to the provisions of the Tax Adjustment Clause.

**TERMS OF PAYMENT**

The terms of payment shall be in accordance with the provisions set forth on Sheet No. 4.0.

### **FUEL AND PURCHASED POWER COST ADJUSTMENT CLAUSE**

#### **APPLICATION**

This fuel and purchased power cost adjustment clause is applicable to and becomes a part of all the Utilities Commission's retail rate schedules and is applicable to all sales thereunder.

#### **BILLING**

The monthly bill computed under the appropriate retail rate schedule will be increased or decreased by an amount equal to the result of multiplying the kWh used by the fuel and purchased power cost adjustment factor (FPPCAC) determined as follows:

$$FPPCAC = \left( \frac{Fm}{Sm} - PPBR \right) x \frac{1}{1-L} x \frac{1}{1-T}$$

Where:

1. FPPCAC = Adjustment factor in dollars per kWh rounded to the nearest one thousandth of a cent applicable to bills rendered during the current fiscal billing cycle defined as October through September.
2. Fm = Total applicable fuel and net interchange energy costs.

Total Applicable Fuel Cost is:

- (a) Fossil and nuclear fuel consumed in the Utilities Commission's generating units and the Utilities Commission's share of fossil and nuclear fuel consumed in jointly owned generating units, plus the annual amortization requirement associated with the disposal of spent nuclear fuel as estimated for the current billing cycle; plus,
- (b) The net cost of purchases for scheduled maintenance, and the net energy and transmission costs of energy purchases when such energy is purchased on an economic dispatch basis to substitute for the Utilities Commission's own higher cost of energy estimated for the current billing cycle; plus,
- (c) The fossil and nuclear power costs associated with purchases for reasons other than identified in (b) above, including the purchase of capacity and energy owned through participation in joint agency projects and firm interchange service, and any associated transmission costs estimated for the current billing cycle; plus
- (d) Any one-time, non-recurring expenditures incurred by the Utilities Commission for the purpose of obtaining cost reductions on energy or capacity; minus

(Continued on Thirteenth Revised Sheet No. 8.1)

(Continued from Thirteenth Revised Sheet No. 8.0)

- (e) The energy costs of fossil and nuclear fueled generation recovered through the inter-system sales including the fuel costs related to the economy energy sales and other energy sold on an economic dispatch basis estimated for the current billing cycle; plus
- (f) An amount to correct for the over-recovery or under-recovery of the actual applicable fuel costs as defined in (a), (b), (c), (d) and (e) above, during the latest fiscal year, determined as the difference between actual applicable fuel costs and the costs actually billed during the same period; plus any previous over-recovery or under-recovery of actual applicable fuel costs as defined above associated with prior period adjustments that allows for a reserve balance of FPPCAC funds as established by the Utilities Commission, if any; minus
- (g) At the sole discretion of the Utilities Commission, the amount of any refunds associated with fuel and purchased power expenses as defined in (a) through (c) above, net of litigation expenses and other related costs, if any.

3. Sm = kWh estimated corresponding to the current 12-month billing cycle and is equal to the estimated sum of net generation, purchases, and interchange in, less inter-system sales.

4. PPBR= Purchased power included in base rates. The amount of PPBR is \$0.06079 per kWh. The PPBR will be adjusted each year the Utilities Commission adjusts its base rates.

5. L = System losses to be adjusted at the beginning of each fiscal year, based on the actual prior 12-month losses ending August 31.

6. T = Mandatory payment to the City of New Smyrna Beach, Florida, equal to 6%.

#### TAX ADJUSTMENT CLAUSE

Electric service under this schedule is subject to the provisions of the Tax Adjustment Clause.

#### SPECIAL PROVISIONS

The FPPCAC may be modified at any time during the current fiscal billing cycle if significant circumstances arise which warrant such change, and if approved by the Utilities Commission.

#### AVOIDED COST FROM CUSTOMER-OWNED RENEWABLE ENERGY

The Utilities Commission does avoid certain purchased power costs due to customer-owned renewable generation. These costs include fuel and non-fuel energy purchased from its wholesale power supplier which is \$0.02800 per kWh. This \$/kWh will be used as the credit applied to any customer's excess energy delivered to the Utilities Commission's distribution system. This Avoided Cost will be adjusted each year the Utilities Commission adjusts its base rates.

**RATE SCHEUDLE GSD-3**

**GENERAL SERVICE - DEMAND ELECTRIC RATE SCHEDULE**

The Utilities Commission shall charge and collect for general service demand electric energy on the basis of availability, application, type of service, monthly rate, minimum charge, determination of billing demand, power factor adjustment, primary service discount, tax adjustment clause and fuel and purchased power cost adjustment clause.

**AVAILABILITY**

At any location within the Utilities Commission, City of New Smyrna Beach, Florida, service area in accordance with Commission policies to non-residential customers with a measured peak of 50 kW up to 250 kW for four months including the current month.

**APPLICATON**

Non-residential customers for all electric power and energy requirements. Each premise will be supplied one point of delivery and all electric service will be supplied by one meter.

**TYPE OF SERVICE**

Single or three phase, 60 hertz, at one of the Commission's standard service voltages.

**MONTHLY RATE**

Customer Charge	\$33.50
Demand Charge	\$11.25 per kW of billing demand
Energy Charge	8.412¢ per kWh

The minimum charge is the Customer Charge plus the Demand Charge.

**DETERMINATION OF BILLING DEMAND**

The Billing Demand shall be the greater of: (1) the Measured Demand, for the current month, adjusted for power factor, if applicable; (2) fifty (50) kW; and (3) eighty (80) percent of the maximum Measured Demand, power factor adjusted, recorded during the preceding eleven (11) months.

(Continued on Eleventh Revised Sheet No. 11.1)

(Continued from Eleventh Revised Sheet No. 11.0)

**POWER FACTOR ADJUSTMENT**

The Utilities Commission may, at its option, install metering equipment to allow the determination of the reactive components of power utilized by the customer. The customer's utilization of equipment shall not result in a power factor at one point of delivery of less than 85 percent lagging at the time of Measured Demand. Should the power factor be less than 85 percent lagging during any month, the Utilities Commission may adjust the Measured Demand by 85 percent and by dividing the result by the power factor actually established at the time of the Measured Demand during the current month. Such adjusted Measured Demand shall be used in determining the Billing Demand.

**FUEL AND PURCHASE POWER COST ADJUSTMENT**

The amount computed at the above monthly rate shall be adjusted plus or minus by an amount calculated in accordance with the formula specified in the Utilities Commission's Fuel and Purchased Power Cost Adjustment Clause which is a part of the "Monthly Rate" of this rate schedule.

**TAX ADJUSTMENT CLAUSE**

Electric service under this schedule is subject to the provisions of the Tax Adjustment Clause.

**TERM OF PAYMENT**

The terms of payment shall be in accordance with the provisions set forth on Sheet No. 4.0.

**Rate Schedule RSL-2 is no longer available and closed to all customers.**

**RATE SCHEDULE TS-1**  
**TEMPORARY SERVICE ELECTRIC RATE SCHEDULE**

The Utilities Commission shall charge and collect for temporary service electric energy on the following basis of availability, application, type of service, monthly rate, and special provisions.

**AVAILABILITY**

This schedule is available throughout the entire territory served by the Utilities Commission, City of New Smyrna Beach, Florida.

**APPLICATION**

This schedule is applicable to all electric services required for a short-term period to installations such as construction projects, fairs, displays, exhibits and similar temporary purposes.

**TYPE OF SERVICE**

Service under this schedule shall be single phase or three phase, 60 Hertz, alternating current at the Utilities Commission's available standard voltage. At the option of the Utilities Commission, three phase service will be provided when individual motors rated at 5.0 horsepower or larger are connected. Where more than one meter is utilized for this service, a separate "Monthly Rate" calculation will be made for each meter for billing purposes.

**MONTHLY RATE**

Temporary service shall be billed under the "Monthly Rate" provisions of the appropriate general service non-demand or general service demand rate schedule.

The customer shall pay, in advance, the estimated cost of installing and removing such facilities as may be required to provide such temporary service.

**CHARGES FOR TEMPORARY ELECTRIC SERVICE INSTALLATION**

Temporary electric service connection charges shall be as follows:

- (a) Installing and removing overhead service and meter . . . . . \$300.00
- (b) Connecting and disconnecting customer to direct-buried underground facilities including installation and removal of meter . . . . . \$ 180.00

The charges shall pertain only to single phase, 60 Hertz, service at the available standard secondary distribution voltage. This service is available only when the Utilities Commission has existing capacity, lines, transformers, and other equipment at the requested point of delivery. The Customer's service entrance electrical cable shall not exceed 200 amperes capacity.

(Continued on First Revised Sheet No. 17.1)

(Continued from Second Revised Sheet No. 17.0)

Temporary electric service connection charges shall be non-refundable and must be paid in advance of installation of such facilities. The cut-in charge, as established on Sheet No. 4.3, is a separate charge payable by the customer and is not a part of the temporary electric service connection charges.

The Utilities Commission will charge and collect the temporary electric energy based on the temporary service electric rates schedule in effect at the time.

If a specific temporary electric service other than that stated above is required, the Utilities Commission, at the Customer's request, will provide a cost for the facilities and install such additional electrical equipment. This cost will be a Contribution-in-Aid-of-Construction payable in advance to the Utilities Commission.

Customers shall pay all applicable right-of-way permitting application fees.

**TAX ADJUSTMENT CLAUSE**

**APPLICATION**

The Tax Adjustment Clause is applicable to and becomes a part of all the Utilities Commission retail electric rate schedules.

**BILLING**

The monthly statement for electric service will include, at the discretion of the Utilities Commission, any applicable taxes as a separate item on the customer's bill in addition to charges for electric service under the applicable rate schedule. Taxes are defined as any taxes, assessments, levies, charges, or surcharges which are levied or assessed by any government or governmental agency.

RESERVED FOR FUTURE USE

## **CONVERSION OF ELECTRIC DISTRIBUTION SYSTEMS FROM OVERHEAD TO UNDERGROUND RATE SCHEDULE**

Conversion of Existing Residential Overhead Services - Conversion of existing services shall be at the customer's expense. Conduit installation to the Utilities Commission and local code authority requirements and the actual conversion of the owner's meter base and associated wiring is the responsibility of the customer at his expense. At the customer's request, the Utilities Commission will furnish and install the underground service lateral to the line side terminals of the meter base at the customer's expense

Conversion of Existing Primary and Secondary Overhead Facilities – Conversion of existing overhead primary and secondary facilities shall be at the customer's expense.

### **APPLICATION**

This option is available to residential subdivision and commercial customers within the electric service area of the Utilities Commission, City of New Smyrna Beach. Each conversion shall be reviewed for feasibility based on prudent engineering standards. Determination and feasibility will be made by the Utilities Commission's Engineering Department.

### **DEFINITIONS**

Residential Subdivisions: a tract of land which is divided into five or more building lots, and which is zoned residential.

Commercial Customer (non-residential): Service to customers engaged in selling, warehousing, or distributing a commodity, in a service activity or profession, or in some form of economically gainful or social activity (offices, stores, clubs, hotels, schools, etc.).

### **CONTRIBUTION IN AID OF CONSTRUCTION**

Contribution-in-aid-of-construction for 100% of the cost of conversion shall be paid upfront by the applicant(s).

### **APPLICATION**

Application for Overhead to Underground Conversation shall be made in writing to the Utilities Commission Engineering Department.

For single customer applications with residential single-phase service, the following charges will apply for Overhead to Underground Secondary Service Conversions up to 100 feet:

200 amp service - \$826.21\*

400 amp service - \$1,102.95\*

\*Note, that these do not cover work that the customer is responsible for (such as conduit procurement and installation).

For all other single customer applications, the Utilities Commission Engineering Department will create a binding, detailed engineering estimate for the applicant. Said estimate will be binding for (3) three months.

(Continued on Third Revised Sheet No. 23.1)

(Continued from Third Revised Sheet No. 23.0)

For applications impacting more than one customer/property owner, the applicant shall provide the Utilities Commission an application with 100% of the requesting customer's signatures. Upon receipt of the application, the Utilities Commission Engineering Department will then perform a binding, detailed engineering estimate for the applicant. Said estimate will be binding for three (3) months.

#### ELECTRIC FACILITIES

Electric facilities to be placed underground shall consist of primary cable, transformers, pedestals, service cables and other related equipment from the established location for undergrounding to the customer's meter box. Customer is responsible for the installation of the meter box by a licensed professional.

#### JOINT USE POLES

The Utilities Commission will facilitate the removal of services from other providers (i.e., telecom, cable, etc.) but is not responsible for the cost of said removal. Costs to remove or relocate other providers facilities shall be paid by the Customer.

#### REMOVAL OF OVERHEAD FACILITIES:

The Utilities Commission will remove overhead facilities, including the pole, after joint pole users have removed their facilities.

#### STREETLIGHTS

The Utilities Commission will remove existing streetlights.

Installation of new streetlights and private outdoor lighting will be in accordance with the Public Street Lighting and Private Outdoor Lighting Electric Service Rate Schedule.

#### TERMS OF PAYMENT

The terms of payment shall be in accordance with the provisions set forth on Sheet No. 4.0.

RESERVED FOR FUTURE USE

**RATE SCHEDULE GSLD-1**  
**GENERAL SERVICE - LARGE DEMAND ELECTRIC RATE SCHEDULE**

The Utilities Commission shall charge and collect for general service demand electric energy on the basis of availability, application, type of service, monthly rate, minimum charge, determination of billing demand, power factor adjustment, primary service discount, tax adjustment clause, and fuel and purchased power cost adjustment clause.

**AVAILABILITY**

At any location within the Utilities Commission service area in accordance with Commission service policies to non-residential customers with a measured peak demand of 250 kW or more for four months including the current month.

**APPLICATION**

To non-residential customers for all electric power and energy requirements. Each premise will be supplied at one point of delivery and all electric service will be supplied by one meter.

**TYPE OF SERVICE**

Single or three phase, 60 hertz, at one of the Commission's standard service voltages.

**MONTHLY RATE**

Customer Charge	\$85.00
Demand Charge	\$13.50 per kW of billing demand
Energy Charge	7.259¢ per kWh

The minimum charge is the customer charge plus the demand charge.

**DETERMINATION OF BILLING DEMAND**

The Billing Demand shall be the greater of: (1) the Measured Demand, for the current month, adjusted for power factor, if applicable; (2) 250 kW; and (3) eighty (80) percent of the maximum Measured Demand, power factor adjusted, recorded during the preceding eleven (11) months.

(Continued on Second Revised Sheet No. 25.1)

(Continued from Second Revised Sheet No. 25.0)

**POWER FACTOR ADJUSTMENT**

The Utilities Commission may, at its option, install metering equipment to allow the determination of the reactive components of power utilized by the customer. The customer's utilization of equipment shall not result in a power factor at the point of delivery of less than 85 percent lagging at the time of Measured Demand. Should the power factor be less than 85 percent lagging during any month, the Utilities Commission may adjust the Measured Demand by 85 percent and by dividing the result by the power factor actually established at the time of the Measured Demand during the current month. Such adjusted Measured Demand shall be used in determining the Billing Demand.

**FUEL AND PURCHASED POWER COST ADJUSTMENT**

The amount computed at the above monthly rate shall be adjusted plus or minus by an amount calculated in accordance with the formula specified in the Utilities Commission's Fuel and Purchased Power Cost Adjustment Clause which is a part of the "Monthly Rate" of this rate schedule.

**TAX ADJUSTMENT CLAUSE**

Electric service under this schedule is subject to the provisions of the Tax Adjustment Clause.

**TERMS OF PAYMENT**

The terms of payment shall be in accordance with the provisions set forth on Sheet No. 4.0.

**RATE SCHEDULE NBR**  
**NET BILLING RIDER FOR CUSTOMER-OWNED RENEWABLE GENERATION**

**I. AVAILABILITY:**

For customers with renewable generation equipment that have completed the Application for Interconnection and the appropriate Tier Interconnection Agreement with the Utilities Commission and whose customer-owned renewable generation is eligible for net metering as defined by FPSC Rule 25-6.065.

**II. APPLICATION FOR SERVICE:**

The customer must apply for service under this rider by providing the Utilities Commission with an executed Application for Interconnection and the appropriately executed Tier Interconnection Agreement, all of which are available from the Utilities Commission Engineering Department and website. The Utilities Commission has three Interconnection Agreements that are designated by the size of the renewable generation as defined in the Application for Interconnection. The application fee for each of the Interconnection Agreements are as follows:

Description	Definition	Fee*
Teir 1	10 kW or less	\$0.00
Teir 2	Greater than 10 kW and less than or equal to 100 kW	\$275.00
Teir 3	Greater than 100 kW and less than or equal to 2 MW	\$750.00

\*If necessary, the customer will be responsible for the cost of the Interconnection Study and any other costs that may be determined by the Utilities Commission.

**III. MONTHLY BILLING:**

Monthly billing will be prepared in the following manner:

1. Metering equipment will measure the energy supplied to the customer by the Utilities Commission and the energy delivered by the customer to the Utilities Commission's distribution system.
2. Meter readings will be taken monthly on the same cycle as required under the otherwise applicable rate schedule in accordance with normal billing practices.
3. The Utilities Commission will charge the customer for all energy delivered by the Utilities Commission to the customer in accordance with the otherwise applicable rate schedule.
4. The Utilities Commission will credit the customer for all the energy supplied by the customer to the Utilities Commission during the billing cycle. The credit rate per kWh shall equal the Avoided Cost as shown on Sheet No. 8.1.

**(PILOT PROGRAM)**

**AVAILABILITY AND APPLICABILITY**

Any customer charging electric vehicles (EVs) at a Utilities Commission (UC) owned public charging station (Stations) installed throughout the Utilities Commission's service area.

**APPLICATION**

The Stations may be accessed by any person (User) who resides either within or outside the Utilities Commission's service area. The Stations will be accessible to the public for charging EVs.

**LIMITATION OF SERVICE**

The User must register an account with the respective EV charging station network provider, including payment information, prior to charging the EV.

**BILLING AND PAYMENT TERMS**

The current rate is set at \$0.35/kWh. Charging network fees as determined by the charging station network provider will apply at the stations and are over and above the UC's current rate per kWh. Vehicle idling fees at a rate up to \$0.40 per minute following a fifteen-minute grace period may apply at certain stations located in high traffic areas. The rates applicable to the Stations including the rate per kWh, taxes and charging network provider and idle fees will be visible to the User via the network provider mobile application and/or Stations display. Users will be notified when the charging session is complete via the display located at the Stations and through the network provider's mobile application and will have the ability to obtain a detailed receipt of the charge session.

**RATE SCHEDULE NSMR**  
**NON-STANDARD METER RIDER**

**AVAILABILITY AND APPLICABILITY**

This Rider is available on a voluntary basis to customers who elect to have a non-standard meter that requires a meter reading that is not consistent with the Utilities Commission's standard digital meter reading process ("Opt-Out Customer").

**LIMITATION OF SERVICE**

This Rider is available to customers who have not tampered with the electric meter service or used service in a fraudulent or unauthorized manner. This Rider will remain available as long as non-standard meter options are reasonably available.

**CHARGES**

All charges and provisions of the Opt-Out Customer's otherwise applicable electric service rate schedule shall apply. In addition, customers who select service under this Rider will be charged an Enrollment Fee and a recurring Monthly Surcharge. The Enrollment Fee consists of an initial lump sum payment.

Enrollment Fee: \$90.00  
Monthly Surcharge: \$13.00

**TERM OF SERVICE**

Not less than one (1) billing period.

**SPECIAL PROVISIONS**

Customers taking service under this Rider relocating to new premises who wish to continue service under NSMR are required to request new service under the Rider including payment of the Enrollment Fee at the new premises. Customers who cancel service under this Rider and then later re-enroll for this service at any location would also be required to submit another Enrollment Fee.
