Here we go again. Sunshine Water wants an increase!! Have they heard of something called Reserves? Theses are for projects such as this where you set aside money every month for projects in the future. As I have complained about before Sunshine Water that has rate 2-3 times what other water companies charge. We are two seniors with a small yard (which Sunshine charges waste water on even though they provide NO services) to irrigate. Also when these rate increase projects are done do they lower rates or just keep charging for something they shouldn't? Paying \$200-300 dollars a month is way out of line. Stand up for consumers and stop just giving Sunshine Water whatever they want. Sunshine Water needs to figure out how to pay for projects and not keeping demanding increases!!!!
