Per agenda for 12/21 meeting, the following are some questions we have to be submitted for review and answering at the 01/21 meeting.

- 1) The 58% increase for our current usage with valve size 5/8 X 3/4" is extreme, considering the rate of increase on Class C Utilities for the state of Florida is under 4%. Why so much?
- 2) What has been the average granted increase to other Class C Utilities in Lake County Florida?

Thank you
