Subject: RE: Changes to Request to Establish Docket - Dkt # 20260022-OT

Good morning, Janet,

Thank you for the additional information. Per this request, AFD has been added as an OCR, and the prog mod had been changed from B7a to A11a, and the docket suffix has been changed from OT to WS. Also, for future reference, remember that requests to establish docket should include the filer's signature or initials like a memo would. Let me know if you have any questions or concerns.

Thanks,
Dorothy

Subject: Changes to Request to Establish Docket - Dkt # 20260022-OT

Good Morning Dorothy:

The attorney advised me this morning that AFD needs to be added to #3, keep ECO and just add AFD. #5 is wrong it should be A-11-A. Also, we were wondering what the docket # ended with OT and not a water suffix.
