RE: Florida Power and Light Settlement – A swindle, scam and sellout of FPL's Customers

Dear Governor DeSantis:

Once again, the Public Service Commission (PSC) has betrayed the voters and residents in the State of Florida by approving another "ripoff" that will cost FPL's customers millions. As you know FPL has no competition and the PSC is an arm of the legislature where lobbyists prevail based on their corporate sponsors; in this case FPL.

We find it ironic Governor that you talk about Affordability, yet when it comes to matters such as this you have failed to speak out in favor of the very constituents who put you in office! I can assure you that issues such as this will not be forgotten in next year's Governor's race. If you truly cared about AFFORDABILITY, you would speak out on this issue.

Sincerely,  
  
Charles Miller

## A swindle, scam and sellout of FPL's customers

To call Florida Power & Light's \$6.9 billion rate increase a "settlement," as the utility and its regulators do, is like calling a bank robbery a "transaction." The terminology is facially correct. It's also woefully wrong.

More accurately, it's a swindle, a scam and a sellout of the vast majority of FPL's six million customers. Their legal representative, Florida's public counsel, was not invited to the table where the company and some of its largest corporate customers cut their sweetheart deal. He objected, but the egregiously misnamed Public Service Commission (PSC) approved it — unanimously.

### Abandoning all judgment

It's not a "settlement" when most affected parties oppose it. Four of the five commissioners sounded like they had misgivings but seemed to follow some unspoken command. "It's not the dream settlement, but it is the one before us," said PSC member Art Graham, who's leaving next month.

So? Nothing in the law or in common sense required them to check their judgment at the office door. They have a capable professional staff to advise them. It went unheard, which is significant. Public Counsel Walt Trierweiler called it "disproportionately favorable" to corporate customers. When he tried to file a counterproposal, PSC Chairman Mike LaRosa rejected it because FPL is an "indispensable party" to any settlement. By that logic, the millions of households who must pay the freight are entirely dispensable.
