To whom it may concern:

The 400% increase in the water bill that is being discussed is not fair or feasible. The community has not addressed as to why some people pay \$7 and some people pay upwards of \$50 +. Obviously some water meters have not been working and that is why there is a money deficit. Some owners have been bearing the brunt. If all houses had working meters there would not be a deficit. First fix the meters - then use those numbers. Some people will not be able to pay their water bill and rent if this increase is accepted. Please think of us as people not numbers.

Thank you ,
Water Oak Resident
