Tallahassee, FL 32399-0850

Docket No. 20250088-WU – Application for staff-assisted rate case in Lake County by Sun Communities Finance, LLC d/b/a Water Oak Utility.

Dear Mr. Teitzman:

The intent of this letter is to advise the Commission staff and Sun Communities Finance, LLC d/b/a Water Oak Utility (Water Oak or Utility) of the Office of Public Counsel's (OPC) observations and recommendations, based on a preliminary review of the Staff Report issued December 22, 2025. At the outset, the OPC would like to express its appreciation for and acknowledgement of all the hard work put into the Staff Report.

Issue 1 - The Utility's Attempt to Address Customer Satisfaction

On page 4 of the Staff Report, it states:

. . . Staff reviewed the complaints filed in the Commission's Consumer Activity Tracking System (CATS), received by the Utility, and filed with the DEP for the test year and four years prior. . . . The DEP responded that it received one complaint during this timeframe regarding the quantity of Boil Water Notices the Utility issued. . . .

Based on a review of the Florida Department of Environmental Protection's (DEP's) Oculus database, the OPC compiled the following boil water notices for the Utility in 2019. Attachment A contains the 2019 boil water notices.

2019 Boil Water Notices Compilation					
Line No.	BWN Date	Address	Reason	Estimated Time of Service Outage	Lots Affected
1	3/1/2019	509 Spruce Drive	Emergency Water Main Repair	2 hours	0224-0256;0283-0285;0300-0304
2	4/4/2019	504 Spruce Drive	Emergency Water Line Repair	2 hours	0224-0256;0283-0285;0300-0304
3	5/7/2019	Magnolia Drive	Emergency Water Line Repair	4 hours	0016-022;0029-0115

26	12/3/2020	101 Palm Drive	Valve Replacement	1 hour	0117-0157;0174-0193

Rule 25-30.251, Florida Administrative Code (F.A.C.), entitled Record and Report of Interruptions, states:

(1) Each utility shall maintain a record of all interruptions in service which affect 10 percent (10%) or more of its customers. The record shall show the cause of the interruption, its date, time, duration, remedy, and steps taken to prevent recurrence.

(2) The utility shall notify the Commission of any interruptions in service which affect ten percent (10%) or more of its customers. Notification to the Commission shall be made within one work day of notification to the utility that such an interruption has occurred, and within one work week after service has been restored. The utility shall file a complete report of the record to the Commission regarding the interruption.

(Underline emphasis added)

As reflected in the table above for 2020 Boil Water Notices, there were at least two service interruptions that affected all customers. It is unknown how many interruptions related to these Boil Water Notices might have affected more than 10% of the customers. On September 21, 2020, a scheduled water treatment plant repair with an estimated service outage time of eight hours that affected all customers. On December 2, 2020, emergency repairs to wells occurred with an estimated outage time of four hours that affected all customers. Based on a search of the “Document Filings Index” for Docket No. 20200000-OT, titled “Undocketed filings for 2020,” the OPC was unable to identify notifications for these two service interruptions. If the Utility failed to submit the required notifications, the Commission should place Water Oak on notice that a future failure to comply with the notification requirement of Provision (2) of Rule 25-30.251, F.A.C. would result in a show cause action with a potential monetary penalty assessed.

Based on a review of the DEP’s Oculus database, the OPC compiled the following boil water notices for the Utility in 2021. Attachment C contains the 2021 boil water notices.

2021 Boil Water Notices Compilation					
Line No.	BWN Date	Address	Reason	Estimated Time of Service Outage	Lots Affected
1	1/12/2021	Lot 369	Emergency Water Shut Down	2 hours	311/321; 366-377
2	1/12/2021	618 Cedar	Emergency Water Shut Down	2 hours	450-470; 515-524
3	1/12/2021	409 Snead	Repair Water Lines	3 hours	2083-2105

31	12/1/2021	610 Palmer Dr.	Emergency Water Line Break	2 hours	2220-2231; 2257-2279
32	12/18/2021	Nelson St.	Emergency Water Line Break	4 hours	2819-2832; 2867-2889
33	12/22/2021	601 Nicklaus Ct.	Planned Repair	4 hours	2120-2140

As reflected in the table above for 2021 Boil Water Notices, there was at least one service interruption that affected all customers. It is unknown how many interruptions related to these Boil Water Notices might have affected more than 10% of the customers. On September 22, 2021, a scheduled water system maintenance with an estimated service outage time of nine hours that affected all customers. Based on a search of the “Document Filings Index” for Docket No. 20210000-OT, titled “Undocketed filings for 2021,” the OPC was unable to identify a notification for this service interruption. If the Utility failed to submit the required notifications, the Commission should place Water Oak on notice that a future failure to comply with the notification requirement of Provision (2) of Rule 25-30.251, F.A.C. would result in a show cause action with a potential monetary penalty assessed.

Based on a review of the DEP’s Oculus database, the OPC compiled the following boil water notices for the Utility in 2022. Attachment D contains the 2022 boil water notices.

2022 Boil Water Notices Compilation

26	12/18/2025	621 Sycamore Sq	Planned Water Main Repair	5 hours	378-411
27	12/30/2025	642 Hickory Hill	Emergency Water Main Repair	4 hours	311-321; 371-377

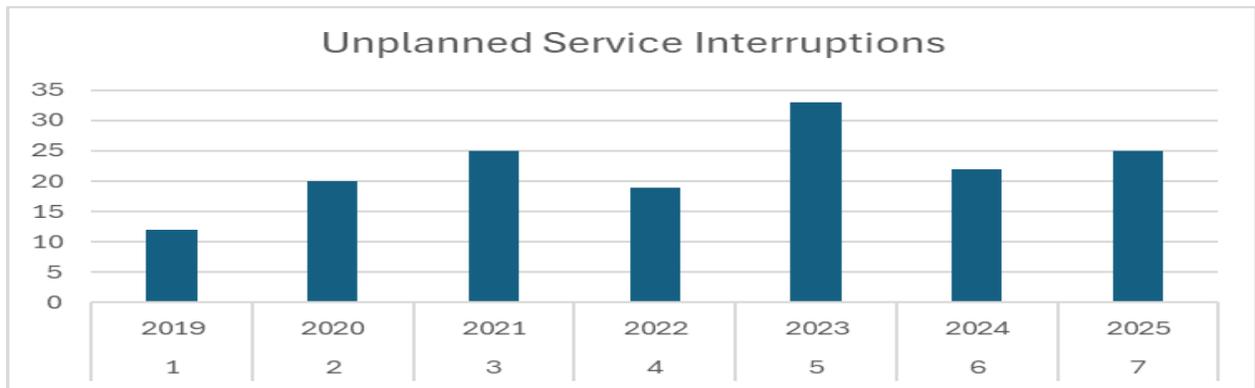

Based on a review of the DEP’s Oculus database, the OPC compiled the following boil water notices for the Utility in 2026. Attachment H contains the 2026 boil water notices.

2026 Boil Water Notices Compilation					
Line No.	BWN Date	Address	Reason	Estimated Time of Service Outage	Lots Affected
1	1/4/2026	515 Spruce Drive	Emergency Water Line Repair	4 hours	0227-0245; 0247-0299
2	1/17/2026	112 W. Pine	Emergency Water Line Repair	4 hours	0429-0438; 0440-0444; 0412
3	1/20/2026	914 Trevino Dr.	Planned Water Main Repair	4 hours	2697; 2698; 2703
4	1/26/2026	214 Birch St.	Emergency Water Main Repair	4 hours	287-300
5	2/3/2026	210 Mulberry Circle	Emergency Water Main Repair	4 hours	228-235

For the years 2022-2026, it is unknown how many interruptions related to these Boil Water Notices might have affected more than 10% of the customers.

The following table reflects the unplanned service interruptions from 2019 through 2026.¹

2019-2026 Unplanned Service Interruptions		
Line No.	Year	Unplanned Service Interruptions
1	2019	12
2	2020	20
3	2021	25
4	2022	19
5	2023	33
6	2024	22
7	2025	25
8	2026	4

¹ The OPC would note that the last boil water notice (BWN) in its review of the DEP’s Oculus database for 2026 was on February 3, 2026. Thus, if the four BWNs through this date was annualized, it will result in 44 BWNs.

The following table reflects the most frequent service interruption locations from 2022 to present.

Most Frequent Service Interruption Locations from 2022 to Present		
Line No.	Boil Water Notice Service Interruption Location	Number of Service Interruptions
1	Pine	10
2	Bishop	10
3	Sutton	10
4	Cedar	9
5	Trevino	6
6	Willow Way	6
7	Nelson	5
8	Spruce Drive	5
9	Sycamore Square	4

As of February 9, 2026, the OPC has compiled the customer correspondence in this docket (see Attachment I). In summary, there were 298 customers that contacted the Commission and strongly opposed the preliminary recommended rate increase, 18 expressed concerns over service interruptions and/or boil water notices, nine had billing issues, and 71 expressed other service-related issues. The OPC would also note that there was one non-duplicative customer that provided comments at the virtual customer meeting held on January 21, 2026, which results in 299 customers that strongly opposed the preliminary recommended rate increase. The 299 customer comments provided represent 23.29% of the Utility's 1,284 customer base.

Given that the Commission has the responsibility to determine the quality of service provided by the Water Oak including the Utility's attempts to address customer satisfaction, the OPC has provided the FDEP and customer correspondence information for consideration on its decision. If the Commission were to decide that the quality of service provided is marginal or

unsatisfactory with an assessment of an ROE penalty, the OPC would note that the revenue requirement impacts of 25 basis points and 50 basis points are \$4,285 and \$8,570, respectively.

Issue 3 - Excessive Unaccounted for Water

On page 6 of the Staff Report, it states:

. . . . Staff recommends that there is 32.3 percent excessive unaccounted for water (EUW). However, no adjustment for EUW is being recommended at this time since these are preliminary determinations and are subject to change.

The OPC would note that a 32.3% EUW adjustment to purchase power and chemical would be a reduction of \$4,384 and \$5,174, respectively. Correspondingly, it would reduce working capital by \$1,195.

Issue 6 – Test Year Operating Revenues

On page 12 of the Staff Report, it states, in pertinent part, the following:

Staff Analysis: The Utility recorded total test year operating revenues of \$191,134 for water. The water revenues included \$191,134 of service revenues and no miscellaneous revenues. Staff’s review of the audit indicated that the Utility’s general ledger consisted of duplicate bills for the residential class. Staff removed the duplicate bills and adjusted the billing data to reflect the appropriate billing determinants for residential. In addition, the Utility did not bill 17 general service customers during the test year. To determine the appropriate service revenues, staff applied the adjusted billing determinants for both residential and general service classes to the Utility’s tariff rates. As a result, staff determined test year operating revenues should be \$167,632 for water. This results in a decrease to service revenues of \$23,502 (\$191,134 - \$167,632) for water.

Based on the above, the appropriate test year operating revenues for Water Oak’s water system are \$167,632.

(Underline emphasis added) The unbilled general service customers were of great concern from many customers that spoke at the January 21, 2026, virtual customer meeting and who provided customer correspondence reflected in the docket file.

The OPC reviewed the workpapers for the Staff Report. Based on this review, the OPC has several observations and suggestions regarding the proposed \$167,632 of test year operating revenues in the Staff Report. On the “Water” tab of the Excel file named “Test Year Revenues STAFF REPORT.xlsx”, the Recommendation reflects 204 general service bills with all at a 5/8 x 3/4” meter size in Cell C28. The OPC would note that multiplying the 17 general service customers mentioned above in the Staff Report by 12 (months) equates to 204 bills. However, Schedule W-3 of the Utility’s 2024 Annual Report appears to reflect 19 general service customers at the following meter sizes, consistent with the same 19 general service customers that the Utility also reflected on Schedule W-3 in its 2021 through 2023 Annual Reports.

WATER CUSTOMERS

Description (a)	Type of Meter ** (b)	Equivalent Factor (c)	Number of Active Customers Start of Year (d)	Number of Active Customers End of Year (e)	Total Number of Meter Equivalents (c x e) (f)
Residential Service					
5/8"	D	1.0	<u>1213</u>	<u>1311</u>	<u>1311</u>
3/4"	D	1.5			
1"	D	2.5			
1 1/2"	D,T	5.0			
General Service					
5/8"	D	1.0			
3/4"	D	1.5			
1"	D	2.5	<u>2</u>	<u>2</u>	<u>5</u>
1 1/2"	D,T	5.0	<u>3</u>	<u>3</u>	<u>15</u>
2"	D,C,T	8.0	<u>12</u>	<u>12</u>	<u>96</u>
3"	D	15.0	<u>2</u>	<u>2</u>	<u>30</u>
3"	C	16.0			
3"	T	17.5			
Unmetered Customers					
Other (Specify)					
** D = Displacement C = Compound T = Turbine			Total		
			<u>1232</u>	<u>1330</u>	<u>1457</u>

Cell Range B25 through F36 on the “Water” tab of the Excel file named “Test Year Revenues STAFF REPORT.xlsx” reflects the following:

Total Residential	14,863	67,483		\$166,238.85
General Service				
5/8 x 3/4"	204		\$5.74	\$1,170.96
Gallorage Charge, per 1,000 gallons				
All gallons		190,283	\$ 1.17	\$222.63
Total General Service	204	190		\$1,393.59
Total Service Revenues	15,067	67,674		\$167,632.44
General Ledger Services Revenues				\$191,134.32
Adjustment for Service Revenues				(\$23,501.88)

Based on the number of general service customers at the four different meter sizes in the Utility’s 2024 Annual Report, the OPC suggests that test year operating revenues from general service customers appears to be understated in the Staff Report. Using the number of general service customers at the four different meter sizes in the Utility’s 2024 Annual Report, the OPC calculated the following annualized general service test year revenues at current authorized base facility charges.

Meter Size	Number of Customers	Number of Bills	Current Rates	Annualized Revenues
1"	2	24	\$5.74	\$137.76
1 1/2"	3	36	\$28.70	1,033.20
2"	12	144	\$45.92	6,612.48
3"	<u>2</u>	<u>24</u>	\$91.84	<u>2,204.16</u>
	<u>19</u>	<u>228</u>		<u>\$9,987.60</u>

This equates to an increase of \$8,816.64 over the Staff Report amount of \$1,170.96.

A further indicator of this discrepancy is found in Cell D31 which reflects a total of 190,283 gallons for all general service customers. Dividing 190,283 gallons by the 204 general service bills from the Staff Report generates an approximate average of only 933 gallons per general service bill. This appears to indicate that the general service gallons are understated, particularly because

of the difference between the total residential gallons of 67,483,000 in the Staff Report (Cell D25 on the “Water” tab of the Excel file named “Test Year Revenues STAFF REPORT.xlsx”) and the total gallons of water sold of 91,394,000² on Schedule W-4 in the Utility’s 2024 Annual Report equates to 23,530,070 gallons. Using the 23,530,070 gallons instead of the highly unlikely low amount of 190,283 gallons in the Staff Report produces annualized general service test year revenues from the current authorized gallon charge of \$1.17 of \$27,530.18, instead of the Staff Report annualized general service test year revenues of \$222.63 from the current authorized gallon charge of \$1.17.

Based on the above, the OPC calculated total annualized general service revenues of \$37,517.78 instead of the Staff Report annualized general service revenues of \$1,393.59, which reflects an increase of \$36,124.19 of test year operating revenues. If accepted as a more likely representation of circumstance, this would lower the Staff Report’s proposed revenue increase of \$306,017 or 182.55% to \$269,893 or 132.46%.

Issue 7 – Historical 12/31/2024 Property Taxes

The Staff Audit Report was issued October 7, 2025. On page 6 of the Audit Report, it states the following, in pertinent part:

. . . . Taxes Other than Income

Objectives: The objective was to verify the taxes other than income (TOTI) of the Utility for the test year ended December 31, 2024.

Procedures: We requested support for property taxes from the Utility. We reconciled these to the general ledger and the annual report. . . .

On Page 13 of the Audit Report, Table 5-1 reflects the “Amount per Annual Report 12/31/2024” and “Amount per Audit 12/31/2024” of “Property Tax” was \$9,781. The OPC

² The OPC would note that the reported 2021, 2022, and 2023 total gallons of water sold were 96,010,000, 85,575,000, and 91,394,000, respectively as reflected on Schedule W-4 of the Utility’s 2021, 2022, and 2023 Annual Reports.

reviewed the official audit workpapers for this audit. Attachment J contains the official audit workpapers associated with property taxes. Workpaper 10-22 states following, in pertinent part:

From the GL, the property tax per month was \$815.13, and \$9780.78, which was different from the response of DR21 (property tax bill) for 2024. Please provide the calculation of the monthly property tax, and the supporting documentation that ties to this amount in general ledger.

RESPONSE: \$815.13 is amortized in 2012-035 (NARUC 236) (balance sheet) and the full amount of property taxes is in 6606-005. Tax bill is related to the property as a whole. Local property tax matches F7 on annual report of \$9781. The monthly calculation is as listed below January-June the dollar amount was a flat \$815.00 and July-December the dollar amount was \$815.13. The full amount of the real estate taxes is allocated evenly throughout the year. The calculated amount is reflected on the provided tax bill of St. John Water Management Taxes.

The Utility's response above only explains how the \$9,781 $[(\$815*6)+(\$815.13*6)]=\$9,780.78$ amount was calculated but does not reconcile how this amount relates to the Lake County Tax Collector bills for "utility purposes" of Account Nos. 0918240003-000-05100, 0000000000-000-04783, 1618240003-000-02600, and 0000000000-000-88866. The OPC would note that the total assessed tax of \$8,804.77 for "ST JOHNS WATER MGMT" on the 2024 tax bills for these four accounts – \$8,589.51 for Account No. 0918240003-000-05100, \$47.98 for Account No. 0000000000-000-04783, \$60.03 for Account No. 1618240003-000-02600, and \$107.25 for Account No. 0000000000-000-88866.

Based on a search of the Lake County Tax Collector's website, the OPC found the following property tax invoices which are included in Attachment K.

Line No	Account	Entity	Description	Assessed Amount	Amount Paid
1	Account No. 0918240003-000-05100	SUN COMMUNITIES FINANCE LLC	106 EVERGREEN LN	\$1,662,068.48	\$1,595,585.74
2	Account No. 0000000000-000-04783	WATER OAK UTILITY CO	106 WATER OAK EVERGREEN LN	4,475.80	4,296.77
3	Account No. 1618240003-000-02600	SUN COMMUNITIES OPERATING LP	WILLIOW WAY	6,359.45	6,105.07
4	Account No. 0000000000-000-88866	SUN WATER OAK GOLF INC	GOLF COURSE FOR WATER OAK	10,005.70	9,605.47
5				<u>\$1,682,909.43</u>	<u>\$1,615,593.05</u>

According to the Lake County Property Appraiser website (see Attachment L), Account No. 0918240003-000-05100 relates to the WATER OAK COUNTRY CLUB ESTATES MHP with land use purposes as “MANUFACTURED HOME PARK - RENTAL (2810)” with land value of \$56,446,784, “CLUB, LODGE, UNION HALL (7700)” with land value of \$131,237, “UTILITY (9100)” with land value of \$17,050, and “WETLAND (9600)” with land value of \$2,371. The total land value for these four land uses is \$56,597,442, and the “UTILITY (9100)” ratio land value is 0.03% (\$17,050/\$56,597,442). If the “UTILITY (9100)” relates to Water Oak Utility Company, applying the 0.03% ratio to the \$1,595,585.74 property taxes paid for this invoice results in associated property taxes of \$480.67.

Account No. 0000000000-000-04783 is solely attributable to Water Oak Utility Company. According to the Lake County Property Appraiser website (see Attachment M), Account No. 1618240003-000-02600 relates to the WATER OAK COUNTRY CLUB ESTATES MHP with land use solely for “MANUFACTURED HOME PARK – RENTAL (2810) which would be non-utility property. Account No. 0000000000-000-88866 is solely attributable to the Sun Water Oak Golf, Inc.

Based on the above, the OPC calculated property taxes related to utility purposes of \$4,777.44 (\$480.67 + \$4,296.77) which would result in a reduction of \$5,004 to the \$9,781 amount recorded by the Utility.

Issue 7 – Pro Forma Property Taxes

On page 14 of the Staff Report, it states, in pertinent part, “[a]dditionally, staff increased TOTI by \$651 to reflect property taxes associated with pro forma plant additions.” The OPC

reviewed the workpapers for the Staff Report. On the “Data” tab of the Excel file named “Worksheet20250088-WU Water Oak Staff Report.xlsx”, the Recommendation reflects a millage rate of “0.0136187” in Cell D17. This millage rate of 0.0136187 does not appear to be supported in the documentation and was used in the formulas of the “WProForma” tab to calculate the pro forma property taxes for water of \$651. Based on the 2025 tax invoices, the 2025 millage rate was reduced to .0166035 from .0167274. Using the 2025 millage rate of .0166035, the OPC calculated pro forma property taxes of \$794. This represents an increase of \$143 (\$794-\$651).

Conclusion

In conclusion, the OPC respectfully requests the Staff and the Commission consider our above-mentioned observations and recommendations.

Respectfully submitted,

/s/ *Bart Fletcher*

2019 Boil Water Notices

March 11, 2019

PRECAUTIONARY BOIL WATER NOTICE

To: Water Oak Water Users
PWS ID # 335-4010

Due to emergency repairs to a water main, water will be shut down today, March 11, 2019, at 10:00 am and will be off approximately 2 hours.

Work Site address: Lot #0245 / 509 Spruce Drive

As a precaution until tests can be completed, we advise that all water used for drinking, cooking, making ice, washing dishes or brushing teeth be boiled. A rolling boil of one minute is sufficient. As an alternative, BOTTLED WATER MAY BE USED.

The following lots will be affected:

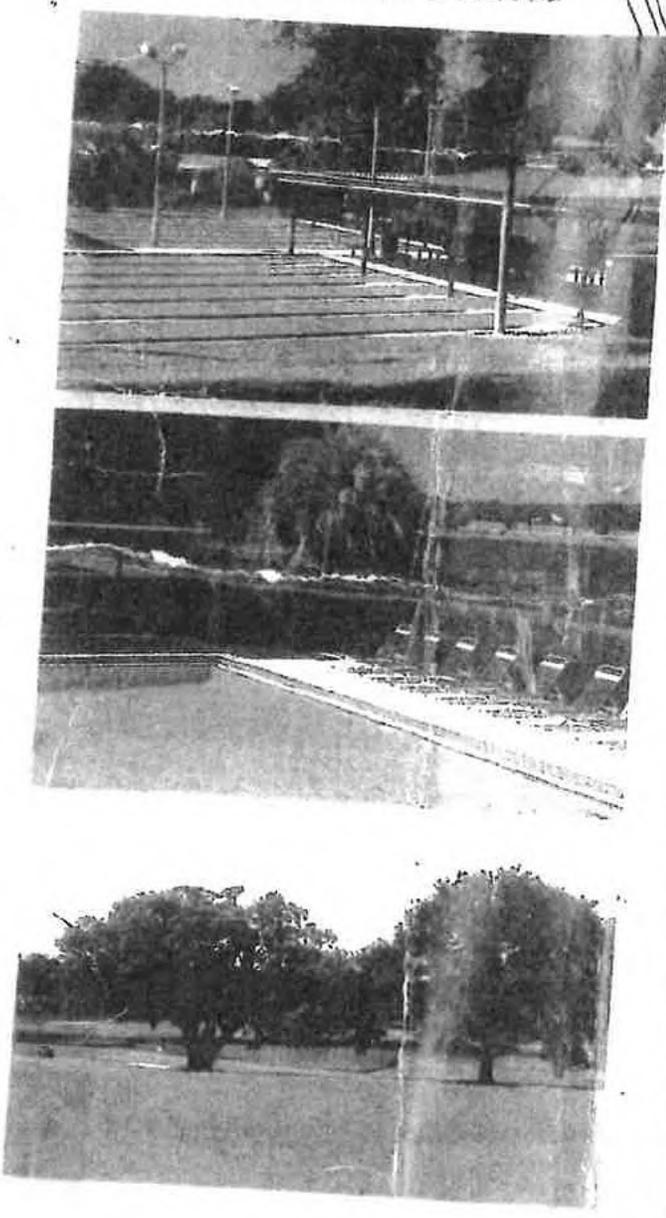

Lots: #0224 - #0256, #0283 - #0285, and #0300 - #0304

This "Precautionary Boil Water Notice" will remain in effect until a bacteriological survey shows that the water is safe to drink, at which point the boil water notice will be rescinded.

If you have any questions, please contact Water Oak Administrative Office at 352-753-3000.

There are social events, crafts and activities for everyone who chooses to participate. Clubs are organized for aquacizing, walking, bicycling, gardening, quilting, ceramics and many other special interests. You can fill your social calender as you like with a most of card parties, bingo, dances, billiards and shopping trips to the Leesburg Mall and many other outings.

1. Indicate the sample type for each sample collected. Sample type codes are: D = Distribution (routine compliance), C = Repeat Check, R = Raw, N = Entry Point in Distribution, P = Plant Tap, S = Special (clearance, etc.)
 2. Lab certification number for the listed method is included at top with the laboratory address.
 3. Please circle appropriate selection.
 4. Detected in Florida Administrative Code Rule 62-100, Table 1.
 5. Composite for community & non-treatment non-community systems serving populations up to and including 4,900. Do not include raw or plant samples in the average.
 Results Key: A = Coliforms are absent; P = Coliforms are present; C = confirmed growth; PNTC = too numerous to count (62-501.740 Reporting Format)

July 14, 2022

PRECAUTIONARY BOIL WATER NOTICE

To: Water Oak Water Users
PWS ID # 335-4010

Due to an emergency water line break - water will be shut down Thursday, July 14, 2022 (TODAY) for approximately 2 hours.

Work Site address: 622 Sycamore Square, lots 378-411

As a precaution until tests can be completed, we advise that all water used for drinking, cooking, making ice, washing dishes or brushing teeth be boiled. A rolling boil of one minute is sufficient. As an alternative, BOTTLED WATER MAY BE USED.

This "Precautionary Boil Water Notice" will remain in effect until a bacteriological survey shows that the water is safe to drink, at which point the boil water notice will be rescinded.

If you have any questions, please contact Water Oak Administrative Office at 352-753-3000.

October 11, 2022

PRECAUTIONARY BOIL WATER NOTICE

To: Water Oak Water Users

Lots affected: 0199-206 & lots 0600-0609

As a precaution until tests can be completed, we advise that all water used for drinking, cooking, making ice, washing dishes or brushing teeth be boiled. A rolling boil of one minute is sufficient. As an alternative, BOTTLED WATER MAY BE USED.

This "Precautionary Boil Water Notice" will remain in effect until a bacteriological survey shows that the water is safe to drink, at which point the boil water notice will be rescinded.

If you have any questions, please contact Water Oak Administrative Office at 352-753-3000.

PRECAUTIONARY BOIL WATER NOTICE

To: Water Oak Water Users
PWS ID # 335-4010

There will be an emergency water main repair today, Monday, August 11th. Starting when the plumber arrives the water will be off for approximately 4 hours. (Approx. 2:30 PM)

Work Site address: 601 Sycamore Sq
Lots affected: 378 - 411

As a precaution until tests can be completed, we advise that all water used for drinking, cooking, making ice, washing dishes or brushing teeth be boiled. A rolling boil of one minute is sufficient. As an alternative, BOTTLED WATER MAY BE USED.

This "Precautionary Boil Water Notice" will remain in effect until a bacteriological survey shows that the water is safe to drink, at which point the boil water notice will be rescinded.

If you have any questions, please contact Water Oak Administrative Office at 352-753-3000.

August 22, 2025

PRECAUTIONARY BOIL WATER NOTICE

To: Water Oak Water Users
PWS ID # 335-4010

There will be an emergency water main repair today, Friday, August 22nd. Starting when the plumber arrives the water will be off for approximately 4 hours.

PRECAUTIONARY BOIL WATER NOTICE

To: Water Oak Water Users
PWS ID # 335-4010

There is an emergency water line repair taking place, tomorrow September 24. The water will be turned off approximately 4 hours starting at 10:00 am.

Work Site address: 609 and 651 Cedar Lane
Lots affected: 0451-0563

As a precaution until tests can be completed, we advise that all water used for drinking, cooking, making ice, washing dishes or brushing teeth be boiled. A rolling boil of one minute is sufficient. As an alternative, BOTTLED WATER MAY BE USED.

This "Precautionary Boil Water Notice" will remain in effect until a bacteriological survey shows that the water is safe to drink, at which point the boil water notice will be rescinded.

If you have any questions, please contact Water Oak Administrative Office at 352-753-3000.

FLORIDA PUBLIC SERVICE COMMISSION AUDIT DOCUMENT/RECORD REQUEST NOTICE OF INTENT

TO: Becky Scott UTILITY: Sun Communities Finance LLC d/b/a Water Oak Utility
 AUDIT MANAGER: Curt Mouring PREPARED BY: Curt Mouring (850) 413-6427
 REQUEST NUMBER: 10 DATE OF REQUEST: 7/16/25
 AUDIT PURPOSE: Staff Assisted Rate Case in Docket 20250088-WU

REQUEST THE FOLLOWING ITEM(S) BE PROVIDED BY: 7/23/25

REFERENCE RULE 25-22.006, F.A.C., THIS REQUEST IS MADE: INCIDENT TO AN INQUIRY
 OUTSIDE OF AN INQUIRY

ITEM DESCRIPTION:

1. Please provide a copy of the Utility's Corporate tax return to the IRS for 2024.
 ATTENTION: Water Oak does not file separate corporate returns. The activity rolls up to SCOLP partnership return. Due to confidentiality this document can not be provided.
2. Please provide supporting documentation for all Ad Valorem Property Taxes, including real and tangible property taxes, incurred during the period of January 1, 2024 through December 31, 2024.
 ATTENTION: Please see the attached documents.
3. Please provide a copy of the Cost Allocation Manual used to allocate plant and expenses to Water Oak. This should include the basis for how common plant items are allocated as well as the basis used to allocate expenses.
 ATTENTION: Attached you will find the allocation methodology used to allocate water/sewer income, payroll and management fees between the property and utility entity. We don't allocate plant expenses or additions between property and utility.

ITEM DESCRIPTION:

- From the GL, the property tax per month was \$815.13, and \$9780.78, which was different from the response of DR 21 (property tax bill) for 2024. Please provide the calculation of the monthly property tax, and the supporting documentation that ties to this amount in general ledger.
 RESPONSE: \$815.13 is amortized in [REDACTED] ([REDACTED]) (balance sheet) and the full amount of property taxes is in [REDACTED]. Tax bill is related to the property as a whole. Local property tax matches F7 on annual report of \$9781. The monthly calculation is as listed below January-June the dollar amount was a flat \$815.00 and July-December the dollar amount was \$815.13. The full amount of the real estate taxes is allocated evenly throughout the year. The calculated amount is reflected on the provided tax bill of St Johns Water Management Taxes.
- Please provide all the NS Account and NARUC Account related to Water Oak for 2024
 Please see [REDACTED] above.

**SUN COMMUNITIES FINANCE, LLC D/B/A WATER OAK UTILITY
STAFF-ASSISTED RATE CASE
HISTORICAL TEST YEAR ENDED DECEMBER 31, 2024
DOCKET NO.: 20250088-WU; ACN: 2025-192-1-1
SUMMARY OF WORK PERFORMED
TAXES OTHER THAN INCOME**

OBJECTIVE: The objective was to verify the taxes other than income (TOTI) of the Utility for the test year ended December 31, 2024. (ASR 25 & 26)

WORK PERFORMED:

1. We requested the corporate tax returns and property taxes from the Utility. *WPs 10-10, 10-21 and 10-22*
2. We obtained the general ledger of the property tax from the Utility, and reconciled to the annual report and application. *WP 53-1 and WPs 53-3 to 53-4*
3. We confirmed the payroll tax from the Utility. *WPs 43-1, 10-15 and 10-19*
4. We recalculated the regulatory assessment fees (RAF) of the Utility, and reconciled to the general ledger, RAF form, annual report and application. *WP 53-2 and WP 53-5*
5. We scheduled the taxes other than income, and reconciled to the annual report and application of the Utility. *WP 53*

CONCLUSION: Based on the steps performed above, audit staff confirmed that the Utility did not file separate corporate tax return, and rolls up to SCOLP partnership return. The Utility collected the payroll taxes one time only, audit staff confirmed the payroll taxes were included into the payroll expenses, and would not include in TOTI. We calculated the RAF, and determined that there was a (\$525) variance of RAF between our recalculation and RAF form. Audit staff also noted the RAF per general ledger/application/annual report was different from RAF form of the Utility. In addition, there was a variance of TOTI per audit and per Utility. There was also a variance per annual report/application and per Utility. See Finding in the audit report. **KG**
