Energy monopolies in Florida

Message

Dear Governor,

Is there anything that your office can do to eliminate the energy monopolies throughout Florida? I live in Pinellas county and the only energy source we have is Duke energy, which increases our rates every year and is scheduled to do so again this summer. What ever happened to competition, or regulations on escalating costs? At this point it becomes obvious that the greed of big globalist business is far more important than the survival factors of the state's population.

Subject: High energy cost/electric bills

Hello Mr. Governor, my name is Roman Mohr, and I reside in Minneola, Florida. I've lived and worked in this wonderful state for most of my life. Over the past decade, I've witnessed the most significant and unprecedented increase in electricity costs, and it's become an overwhelming burden. Duke Energy stands out as the most inadequate energy and electricity provider. My current monthly bill consistently exceeds \$457, amounting to nearly \$6,000 annually. I kindly request your attention to this pressing matter. Could you please consider proposing additional companies to compete for business from Florida residents? As a first responder for the City of Orlando for the past 23 years, I've observed that the rising energy costs are becoming increasingly challenging to manage, alongside other financial burdens. I implore you to take immediate action to address this critical issue.

Thank you so very much for your attention.

Have a wonderful and blessed day sir.

Roman Mohr
