COMMISSION
CLERK

Re: Docket No. 20260020-EI
Petition for determination of Need for Andytown-Oasis Transmission Lines in Broward and Miami-Dade Counties, by Florida Power & Light Company.

Dear Mr. Teitzman:

I enclose for filing in the above referenced docket, Florida Power & Light Company's ("FPL") Request for Confidential Classification of Information ("Request") of certain documents contained in its responses to Florida Public Service Commission Staff's First Set of Interrogatories, Nos. 2, 8, and 15, and First Request for Production of Documents, No. 1. The documents for which the enclosed request seeks confidential protection, are being filed contemporaneously with this Request.

The enclosed filing includes Exhibits A, B, C, and D. Exhibit A consists of the confidential documents, and all the information that FPL asserts is entitled to confidential treatment has been highlighted. Exhibit B is an edited version of Exhibit A, in which the information FPL asserts is confidential has been redacted. Exhibit C is a justification table in support of FPL's Request for Confidential Classification. Exhibit D contains the declaration in support of FPL's request.

Please contact me if you or your Staff has any questions regarding this filing at (561) 304-5662 or will.p.cox@fpl.com.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Determination of Need for
Andytown-Oasis Transmission Lines in
Broward and Miami-Dade Counties, by Florida
Power & Light Company.

Docket No: 20260020-EI

Date: March 20, 2026

**FLORIDA POWER & LIGHT COMPANY'S REQUEST FOR CONFIDENTIAL
CLASSIFICATION OF INFORMATION CONTAINED IN ITS RESPONSES TO
STAFF'S FIRST SET OF INTERROGATORIES, NOS. 2, 8, AND 15, AND
FIRST REQUEST FOR PRODUCTION OF DOCUMENTS, NO. 1.**

Pursuant to Section 366.093, Florida Statutes ("Section 366.093"), and Rule 25-22.006, Florida Administrative Code, Florida Power & Light Company ("FPL") hereby requests confidential classification of certain information contained in its responses to Staff of Florida Public Service Commission's ("Staff") First Set of Interrogatories, Nos. 2, 8, and 15, and Staff's First Request for Production of Documents, No. 1, which are being filed contemporaneously with this request:

1. This Request is being filed in accordance with Rule 25-22.006, Florida Administrative Code, to request confidential classification of certain information related to FPL's responses to Staff's First Set of Interrogatories, Nos. 2, 8, and 15, and Staff's First Request for Production of Documents, No. 1 (together, the "Confidential Documents").

2. The following exhibits are attached to and made a part of this Request:

- a. Exhibit A consists of the confidential documents, and all the information that FPL asserts is entitled to confidential treatment has been highlighted.
- b. Exhibit B is an edited version of Exhibit A, in which the information FPL asserts is confidential has been redacted.

- c. Exhibit C is a table that identifies the information in Exhibit A and references the specific statutory basis for the claim of confidentiality and identifies the Declarant who supports the requested classification.
- d. Exhibit D consists of the declaration of Miguel Yanes in support of this Request.

3. FPL submits that the information in Exhibit A is proprietary and confidential business information, and its disclosure would cause harm to FPL and its customers. Pursuant to Section 366.093, Florida Statutes, such materials are entitled to confidential treatment and are exempt from the disclosure provisions of the public records law. Thus, once the Commission determines that the information in question is proprietary confidential business information, the Commission is not required to engage in any further analysis or review, such as weighing the harm of disclosure against the public interest in access to the information.

4. As described in the declaration in Exhibit D, the confidential business information includes information relating to security measures, systems, or procedures. This information is protected by Sections 366.093(3) (c), Florida Statutes.

5. Upon a finding by the Commission that the information contained in the Confidential Documents is proprietary and confidential business information, the information should not be declassified for at least eighteen (18) month period and should be returned to FPL as soon as it is no longer necessary for the Commission to conduct its business. *See* Section 366.093(4), Florida Statutes.

WHEREFORE, for the above and foregoing reasons, as more fully set forth in the supporting materials, Florida Power & Light Company respectfully requests that its Request for Confidential Classification be granted.

Respectfully submitted this 20th day of March 2026.

EXHIBIT B

REDACTED COPIES

QUESTION:

Refer to witness Yanes' testimony, page 16, lines 3 through 7. If the proposed AOP is not completed timely, provide the number of customers that would be impacted by load shedding in each of the contingencies identified.

- a. Has any load shedding occurred within the past 10 year period? If so, for each event please provide the year, number of affected customers, and amount of load shed (in MW), as well as an explanation detailing the reason(s) for the load shedding.

RESPONSE:

1 If the AOP is not completed by the 2033 in service date identified in FPL's 2025 transmission planning assessment, certain contingency scenarios would result in the existing transmission system being unable to maintain reliable operation in the Miami Dade County area without involuntary load shedding. Under these conditions, the loss of system elements would cause transmission overloads that cannot be fully mitigated through operational actions, requiring the shedding of approximately [REDACTED] of load to preserve system integrity and prevent broader impacts.

2 FPL's transmission planning assessments do not estimate the exact number of customers affected by such load shedding, as impacts depend on real time system conditions. However, for illustrative purposes, during the high load summer period from late May through late September, a load shed of approximately [REDACTED] could correspond to impacts on the order of [REDACTED] customers based on average usage assumptions and could occur on a recurring basis. The need for involuntary load shedding of this magnitude would represent a significant degradation of transmission reliability in Miami Dade County and is an outcome FPL's planning efforts are intended to avoid.

- a. See FPL's objections served contemporaneously herewith. Subject thereto, and without waiver of any objection, FPL responds as follows:

With respect to historical operations, FPL has not implemented load shedding in Miami-Dade County within the past ten (10) years.

QUESTION:

Refer to witness Yanes' testimony, page 8, lines 5 through 13. Did FPL consider a scenario in which a 230 kV line would connect the Quarry substation to the Levee substation, in addition to the planned Oasis substation to Quarry substation 230kV line? If so, explain why this scenario was rejected. If this scenario was not considered, explain why not.

RESPONSE:

Yes. As part of its transmission planning and alternatives evaluation, FPL considered various 230 kV configurations involving Quarry and Levee substations.

1 Both [REDACTED]
2 [REDACTED] and FPL evaluated whether additional 230 kV interconnections between
3 these substations would address the system conditions identified in the 2025 transmission
4 planning assessment. FPL did not propose a direct [REDACTED] 230 kV transmission line
5 because that configuration did not materially change system performance under the Summer
2033 peak and contingency conditions evaluated in the 2025 transmission planning assessment.
Specifically, a direct [REDACTED] 230 kV connection [REDACTED]
[REDACTED] and did not resolve the identified voltage and thermal conditions.

FPL's 2025 transmission planning assessment identified that the 230 kV transmissions lines connecting Oasis substation to both Quarry and Levee substations is the appropriate configuration as part of the identified transmission solution. This configuration is reflected in the proposed facilities described in FPL's AOP Petition for determination of need.

The document responsive to
STAFF's First Set of Interrogatories No.
2, Bates No. 000158, is confidential in its
entirety.

The documents responsive to STAFF's
First Request for Production of
Documents No. 1, Bates Nos. 000108-
000109, are confidential in their entirety.

DECLARATION

EXHIBIT D

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Determination of Need
for Andytown-Oasis Transmission Lines in
Broward and Miami-Dade Counties, by
Florida Power & Light Company.

Docket No: 20260020-EI

WRITTEN DECLARATION OF MIGUEL YANES

1. My name is Miguel Yanes. I am currently employed by Florida Power & Light Company (“FPL”) as Senior Director of Transmission Services and Planning, Transmission and Substations. I have personal knowledge of the matters stated in this written declaration.

2. I have reviewed the documents and information included in Exhibit A of FPL’s Request for Confidential Classification, for which I am listed as the declarant on Exhibit C. The documents and files that I have reviewed and which are asserted by FPL to be proprietary confidential business information contain or constitute information concerning security measures, systems, or procedures. To the best of my knowledge, FPL has maintained the confidentiality of this information.

3. Consistent with the provisions of the Florida Administrative Code, such materials should remain confidential for a period of eighteen (18) months. In addition, they should be returned to FPL as soon as the information is no longer necessary for the Commission to conduct its business so that FPL can continue to maintain the confidentiality of these documents.

4. Under penalties of perjury, I declare that I have read the foregoing declaration and that the facts stated in it are true to the best of my knowledge and belief.
