In re: Petition for expedited review of NXX-X code denial by North American Numbering Plan Administration for the Boca Raton rate center, by Teleport Communications of America, LLC.

DOCKET NO. 20260047-TA
ORDER NO. PSC-2026-0092-PAA-TA
ISSUED: April 15, 2026

NOTICE OF PROPOSED AGENCY ACTION
ORDER DIRECTING SOMOS, INC. TO PROVIDE
TELEPORT COMMUNICATIONS AMERICA, LLC
WITH ADDITIONAL NUMBERING RESOURCES

BY THE COMMISSION:

NOTICE is hereby given by the Florida Public Service Commission that the action discussed herein is preliminary in nature and will become final unless a person whose interests are substantially affected files a petition for a formal proceeding, pursuant to Rule 25-22.029, Florida Administrative Code (F.A.C.).

BACKGROUND

On March 19, 2026, Teleport Communications America, LLC (Company) filed a request for additional numbering resources from the Number Pooling Administrator, Somos, Inc. (Somos), for the Boca Raton rate center switch. Teleport Communications America, LLC requested five blocks to meet the request of a specific customer for 5,000 consecutive numbers in the format of 728-246, 728-248 and 728-247 as preferences. On March 19, 2026, Somos denied Teleport Communications America, LLC's request for additional numbering resources because Somos determined that the Company did not meet the Federal Communications Commission's (FCC) utilization criteria.

On March 31, 2026, pursuant to 47 C.F.R. §52.15(g)(4)(iv), FCC Order No. 00-104, Order No. PSC 2001-1973-PCO-TL,¹ and the Industry Numbering Committee's (INC) Numbering Pooling Guidelines Sections 3.7 and 12(c), Teleport Communications America, LLC filed a petition asking that this Commission reverse Somos' decision. In its petition, Teleport Communications America, LLC asserts that at the time of the code request, the Boca Raton exchange had a months-to-exhaust (MTE) of 10.513 months and a utilization of 73.277%. Teleport Communications America, LLC requests that we reverse Somos' decision because Somos' denial interferes with the Company's ability to serve its customers in Florida.

We are vested with jurisdiction pursuant to Section 364.16(6), Florida Statutes, (F.S.), and 47 C.F.R. §52.15.

ANALYSIS

Somos denied Teleport Communications America, LLC's request for additional numbering resources because the Company had not met the applicable utilization or MTE criteria. However, denial of additional numbering resources poses a possible barrier to competition. In this instance, a customer desiring service from Teleport Communications America, LLC might have to obtain services from another carrier simply because the Company cannot meet the utilization or months-to-exhaust rate center requirement. The FCC has stated as follows:

Under no circumstances should consumers be precluded from receiving telecommunications services of their choice from providers of their choice for want of numbering resources.²

A procedure is available to carriers who are denied additional numbering resources to challenge that decision. Addressing additional numbering resources denials, 47 C.F.R. §52.15(g)(4)(iv), states, in part:

The carrier may challenge [Somos'] decision to the appropriate state regulatory commission. The state regulatory commission may affirm, or may overturn, the [Somos] decision to withhold numbering resources from the carrier based on its determination that the carrier has complied with the reporting and numbering resource application requirements herein.

In reviewing the Company's petition as contemplated by 47 C.F.R. §52.15(g)(4)(iv), we have considered the information provided by Teleport Communications America, LLC and, in accordance with Order No. PSC-2001-1973-PCO-TL,³ which lays forth our criteria for reversing code denials, we find that the Company has met the following criteria:

The Company has demonstrated that it has a customer in need of immediate numbering resources.

The Company has shown that it is unable to provide services to a potential customer because of Somos' denial of the numbering resources.

A potential customer cannot obtain service from the provider of its choice because the Company does not have the numbers available.

³ Order No. PSC-2001-1973-PCO-TL, issued on October 4, 2001, in Docket No. 20010782-TL, *In Re: Petition for generic proceedings to establish expedited process for reviewing North American Numbering Plan Administration (NANPA) future denials of applications for use of additional NXX Codes by BellSouth Telecommunications, Inc.*

CONCLUSION

Based on the foregoing, we find it appropriate to reverse Somos' decision to deny additional numbering resources, and direct Somos, Inc. to provide Teleport Communications America, LLC with additional numbering resources for the Boca Raton rate center MIAMIFLGR37Z switch as soon as possible to meet its customer's needs.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that the Number Pooling Administrator (Somos, Inc.) shall provide Teleport Communications America, LLC with additional numbering resources for the Boca Raton rate center MIAMIFLGR37Z switch as soon as possible, as reflected in the body of this Order. It is further

ORDERED that the provisions of this Order, issued as proposed agency action, shall become final and effective upon the issuance of a Consummating Order unless an appropriate petition, in the form provided by Rule 28-106.201, Florida Administrative Code, is received by the Office of Commission Clerk, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, by the close of business on the date set forth in the Notice of Further Proceedings attached hereto. It is further

ORDERED that in the event this Order becomes final, this Docket shall be closed.

By ORDER of the Florida Public Service Commission this 15th day of April, 2026.
