**Re: Docket No. 20260001-EI: Fuel and Purchased Power Cost Recovery Clause with
Generating Performance Incentive Factor**

Dear Mr. Teitzman:

Pursuant to Rule 25-6.0424(2), Florida Administrative Code, Florida Public Utilities Company ("FPUC") hereby provides notice to the Commission that it currently projects a greater than ten percent over-recovery for the period ending December 31, 2026. This projection is based on actuals through February 2026, as well as updated projections based upon the prices for natural gas as of April 14, 2026.

Because there is significant uncertainty regarding the impact on U.S. natural gas markets if current international conflicts become prolonged, FPUC believes filing a petition for a mid-course correction at this time would be premature. Instead, it is more appropriate to continue to monitor the market to determine whether the impact of these conditions will moderate, such that future conditions mitigate the projection for the period. Should conditions over the next couple of months not moderate such that FPUC's projected over-recovery continues or becomes more pronounced, FPUC would intend to file a request for a mid-course correction, as required.

Thank you for your assistance with this filing. As always, please don't hesitate to let me know if you have any questions whatsoever.

Sincerely,

Beth Keating
