Re: Granite Telecommunications, LLC Request for Confidential Treatment

To Whom It May Concern:

GRANITE TELECOMMUNICATIONS, LLC ("Granite") hereby petitions the Public Service Commission of Florida ("Commission") for confidential treatment of the number of end-user lines provided by Granite in the State of Florida, as reported in the Broadband Data Collection ("BDC") formerly known as "Form 477" in connection with the Granite's 2025 Local Competition Report Questionnaire.

The subject information is not otherwise publicly available and derives independent economic value from being maintained as confidential. Public disclosure of this data would place Granite at a competitive disadvantage by enabling other market participants to analyze Granite's market presence and service penetration within the State of Florida and to strategically position themselves based on that information.

Pursuant to section 364.183(1), Florida Statutes, and Rule 25-22.006, Florida Administrative Code, Granite requests confidential classification of the end-user line data as proprietary confidential business information. Disclosure of this information would impair the Granite's competitive business interests by revealing insights regarding Granite's operations, including the scope and concentration of its customer base. Competitors could use this information and otherwise gain an unfair competitive advantage, thereby causing harm to the public and Granite.

In compliance with Rule 25-22.006, Florida Administrative Code, Granite has has filed one copy of the material with the information claimed as confidential highlighted. In addition, Granite has filed two edited copies, in which the confidential information has been blocked out for purposes of public inspection.

Granite respectfully requests that its request for confidentiality be granted consistent with 364.183(1), Florida Statutes, and Rule 25-22.006. If you have any questions or concerns, please contact me at 617-837-4604.
