2.1.1 Scope

- 2.1.1.1 The Company undertakes to furnish communications service in connection with one-way and/or two-way information transmission between points within the State of Florida under the terms of this price list or via Individual Case Basis contracts.
- 2.1.1.2 The Company may provide services on a facilities based and/or resale basis.

The Company is responsible under this price list only for the services and facilities provided herein. It assumes no responsibility for any service provided by any other entity that purchases access to the Company network in order to originate or terminate its own services, or to communicate with its own Customers.
- 2.1.1.4 The Company's obligation to furnish service or to continue to furnish service is dependent on its ability to obtain, retain and maintain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary poles, lines, circuits and equipment and to provide for the installation of those facilities required incident to the furnishing and maintenance of that service.

2.1.2 Shortage of Equipment Facilities

- 2.1.2.1 The Company reserves the right to limit or allocate the use of existing facilities when it deems necessary to manage the capacity of its network or to manage a facility shortage due to some other cause beyond the Company's control. The Company maintains the right to manage the network by applying protective controls, such as call gapping, which selectively cancels the completion of traffic carried over its network. In addition, the Company reserves the right to limit call duration when deemed necessary to prevent network degradation and to optimize network efficiency of its telephone service. The Company will incur no liability for call
