

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Joint application for transfer of water and
wastewater facilities, water Certificate No.
354-W and wastewater Certificate No. 310-S
of Useppa Island Utilities Company, Inc. to
UIP Utilities Company, LLC, in Lee County.

DOCKET NO. 20250146-WS
ORDER NO. PSC-2026-0235-PAA-WS
ISSUED: June 23, 2026

The following Commissioners participated in the disposition of this matter:

GABRIELLA PASSIDOMO SMITH, Chairman
GARY F. CLARK
MIKE LA ROSA
BOBBY PAYNE
ANA ORTEGA

NOTICE OF PROPOSED AGENCY ACTION
ORDER ESTABLISHING NET BOOK VALUE, REVISING MISCELLANEOUS SERVICE
CHARGES, AND SETTING INITIAL CUSTOMER DEPOSITS
AND
ORDER GRANTING TRANSFER OF CERTIFICATE NO. 354-W AND NO. 310-S, AND
CONTINUING EXISTING RATES AND CHARGES

BY THE COMMISSION:

NOTICE is hereby given by the Florida Public Service Commission that the action discussed herein, except for approving the application for transfer and continuing existing rates and charges, is preliminary in nature and will become final unless a person whose interests are substantially affected files a petition for a formal proceeding, pursuant to Rule 25-22.029, Florida Administrative Code (F.A.C.).

Background

Useppa Island Utilities Company, Inc. (Useppa, Utility, or Seller) is a Class C water and wastewater utility currently operating in Lee County, on an island off the coast of Fort Myers. Useppa currently provides water and wastewater service to approximately 144 water and 138 wastewater customers. The Utility is in the Southwest Florida Water Management District (SWFWMD). In its 2025 Annual Report, Useppa reported a net operating income of \$114,252.

In 1982, we issued water and wastewater Certificate Nos. 354-W and 310-S to Useppa.¹ The Utility's last staff-assisted rate case was in 2015.²

On December 18, 2025, Useppa and UIP Utilities Company, LLC (UIP or Buyer) filed a joint application with us for the transfer of Certificate Nos. 354-W and 310-S from Useppa to UIP. The Utility is wholly owned by Useppa Inn and Dock Company, Ltd., and Useppa Property Company. This joint application will have UIP acquire only the assets used by the Utility to provide regulated utility service, with the Utility's non-regulated assets and operations being transferred to one of Useppa's other subsidiaries. The initial joint application was found to be deficient but was cured by the Buyer on April 6, 2026. Per the agreement, the sale closed on September 22, 2025, with the transfer of the regulated utility assets being subject to our approval.

This order addresses the transfer of the Utility's water and wastewater systems and Certificate Nos. 354-W and 310-S and continuation of the Utility's existing rates and charges, the appropriate net book value (NBV) of the water and wastewater systems for transfer purposes, and revision of the miscellaneous service charges and initial customer deposits. We have jurisdiction pursuant to Sections 367.071, 367.121, and 367.081, Florida Statutes (F.S.).

Decision

I. Transfer of Certificate 354-W and 310-S

On December 18, 2025, Useppa and UIP filed a joint application for the transfer of Certificate Nos. 354-W and 310-S from Useppa to UIP. We reviewed the application and determined that it is in compliance with Section 367.071, F.S., and our rules concerning applications for transfer of certificates.

A. Noticing, Territory, and Land Ownership

UIP provided notice of the application pursuant to Section 367.071, F.S., and Rule 25-30.030, F.A.C. No objections to the transfer were filed, and the time for doing so has expired. The application contains a description of the service territory, which is appended to this order as Attachment A. In its application, UIP provided a copy of a special warranty deed as evidence that the Buyer has the rights to long-term use of the land upon which the treatment facilities are located, pursuant to Rule 25-30.037(2)(s), F.A.C.

B. Purchase Agreement and Financing

Pursuant to Rule 25-30.037(2)(i) and (j), F.A.C., the application contains a statement regarding financing and a copy of the purchase agreement, which includes the purchase price, terms of payment, and a list of the assets purchased. There are no guaranteed revenue contracts,

¹ Order No. 10900, issued June 16, 1982, in Docket No. 19810268-WS, *In re: Application of Useppa Island, Inc. for a certificate to operate a water and sewer utility in Lee County, Florida*.

² Order No. PSC-15-0029-PAA-WS, issued January 8, 2015, in Docket No. 20110260-WS, *In re: Application for staff-assisted rate case in Lee County by Useppa Island Utilities Co., Inc.*

or customer advances of Useppa that must be disposed of with regard to the transfer. UIP has reviewed all leases and agreements and assumed those agreements. Any customer deposits will be refunded to customers by the Seller prior to the closing. We reviewed the purchase and sale agreement, which stated that the total purchase price for the assets is \$16,000,000 which includes the entire island resort and all its business, with \$1,752,473.57 allocated to the purchase of the water and wastewater utility assets associated with the regulated Utility. Furthermore, our review of the purchase and sale agreement confirmed that the closing took place on September 22, 2025, but the transfer of assets is dependent on our approval of the transfer, pursuant to Section 367.071(1), F.S.

C. Facility Description and Compliance

The water system includes a water treatment plant composed of two wells. The water is treated via chlorination for disinfection, and reverse osmosis for dissolved solids removal. The two wells have capacities of 90 gallons per minute each. The water distribution system extends throughout the service area. UIP provided a copy of the Utility's current consumptive use permit from the SWFWMD.

The wastewater treatment plant (WWTP) is an extended aeration activated sludge plant with a design capacity of 45,000 gallons per day (gpd). The plant is permitted by the Florida Department of Environmental Protection (DEP) to operate at 20,000 gpd, based on the maximum monthly average daily flow. The treatment plant consists of four aeration basins, two clarifiers, three sludge holding tanks, two percolation ponds and two pre-filter chlorine contact chambers. Additionally, there are two lift stations throughout the service territory.

We reviewed the most recent DEP sanitary survey, issued on May 8, 2023, which identified nine issues. After the issues were corrected, the facility was determined to be in compliance with the DEP's rules and regulations. We also reviewed the results from the Utility's June 20, 2025 water quality tests, including the secondary water quality test. All results were below the DEP's maximum contaminant levels for each primary or secondary contaminant.

We reviewed the most recent DEP compliance evaluation inspections for the WWTP. The March 20, 2026, evaluation identified that the Utility had exceeded the effluent quality and flow limits as required by the wastewater facility permit. The Utility explained the exceedance and completed corrective actions prior to the inspection. All deficiencies were corrected, and the WWTP is currently in compliance with the DEP.

D. Technical and Financial Ability

Pursuant to Rule 25-30.037(2)(m), F.A.C., the application contains statements describing the technical ability of the Buyer to provide service to the proposed service area. UIP's application states that while the company's officer and directors do not have experience operating utilities, they do possess experience in finance, development, capital planning, and system investment decisions. Furthermore, the Buyer plans to use the same contracted operator, U.S. Water Services Corporation, who currently provide routine operation and maintenance of

the systems. Billing and customer service is currently handled by the Buyer, and it intends to continue to provide those services. As the operators have experience with the Utility's facilities, it is reasonable for the Buyer to retain the contract.

The Buyer stated that the purchasing entity was created for the purpose of acquiring and operating water and wastewater systems in Florida as a public utility. In its application, the parent company of UIP, Useppa Island Partners, provided financial statements, as well as an affidavit stating its ability and intent to meet all reasonable capital needs arising from the operation of the Utility. We reviewed the parent company's financial statements. Based on the above, the Buyer has demonstrated the technical and financial ability to provide service to the existing service territory.

E. Rates, Charges, and Initial Customer Deposits

Useppa Island's rates for both water and wastewater were approved in 2015 in a staff assisted rate case.³ The rates were amended by a price index in 2019. The miscellaneous service charges were last approved in 2007.⁴ The Utility's initial customer deposits were approved in 1983 for its water and wastewater systems.⁵ The Utility's service availability charges for water and wastewater were approved in 1987.⁶ Rule 25-9.044(1), F.A.C., provides that, in the case of a change of ownership or control of a Utility, the rates, classifications, and regulations of the former owner must continue unless authorized to change by us.

In regard to the Utility's existing miscellaneous service charges, the violation reconnection charge is appropriate. However, the remaining miscellaneous service charges do not conform to Rule 25-30.460, F.A.C., and are discussed in Section III. The Utility's initial customer deposits are not consistent with our practice, and are discussed in Section III. Therefore, we find that the Utility's existing rates, violation reconnection charge, and service availability charges, shown on Schedules Nos. 2-A and 2-B, shall remain in effect until a change is authorized by us in a subsequent proceeding. The tariff pages reflecting the transfer shall be effective on or after the stamped approval date on the tariff sheets pursuant to Rule 25-30.475(1), F.A.C.

F. Regulatory Assessment Fees and Annual Report

We verified that the Utility is current on the filing of annual reports and regulatory assessment fees (RAF through December 31, 2025). The Seller will continue to be responsible for

³ Order No. PSC-15-0029-PAA-WS.

⁴ Order No. PSC-07-0385-SC-WS, issued May 1, 2007, in Docket No. 20060575-WS, *In re: Application for staff-assisted rate case in Lee County by Useppa Island Utility, Inc.*

⁵ Order No. PSC-93-0930-FOF-WS, issued June 21, 1993, in Docket No. 19921049-WS *In re: Application for staff-assisted rate case in Lee County by Useppa Island Utility, Inc.*

⁶ Order No. 16104, issued May 13, 1986, in Docket No. 19850206-WS, *In re: Application of Useppa Island Utilities, Inc., for Increased Water and Sewer Rates in Lee County, Florida.*

filing the Utility's annual reports and paying RAFs, until the closing of the sale has been approved by us. After the approval, the Buyer will be responsible for all future years.

G. Conclusion

Based on the foregoing, we find that the transfer of the water and wastewater systems and Certificate Nos. 354-W and 310-S is in the public interest and shall be approved effective the date of our vote, June 2, 2026. The resultant Order shall serve as the Buyer's certificate and shall be retained by the Buyer. With the exception of miscellaneous service charges and the initial customer deposit, the Utility's existing rates and charges shall be continued. The Seller is current, with respect to annual reports and RAFs, through December 31, 2025. Based on the application, the Seller will be responsible for RAFs and annual reports until our approval. The Buyer will be responsible for filing annual reports and paying RAFs for all future years.

II. Net Book Value

A. Utility Plant In Service (UPIS)

The Utility's trial balance reflected a plant balance of \$1,082,866 for water and \$847,716 for wastewater as of September 22, 2025. Our audit staff recalculated the plant balances and determined the correct balances are \$1,653,668 for water and \$945,028 for wastewater. As a result, water plant shall be increased by \$570,802, and wastewater plant shall be increased by \$97,312. As such, we find a water plant balance of \$1,653,668 and a wastewater plant balance of \$945,028.

B. Land

In Order No. PSC-15-00029-PAA-WS, the land balances for water and wastewater were \$10,463 and \$3,487, respectively. Our audit staff determined that there have been no additions to land. As such, we find a land balance of \$10,463 for water and a land balance of \$3,487 for wastewater.

C. Accumulated Depreciation

The Utility's trial balance reflected an accumulated depreciation balance of \$698,515 for water and \$529,172 for wastewater. Our audit staff recalculated accumulated depreciation using the audited UPIS plant balances and the depreciation rates established by Rule 25-30.140(2), F.A.C. Our audit staff determined accumulated depreciation was understated by \$75,377 for water and \$142,016 for wastewater. As a result, accumulated depreciation shall be increased by \$75,377 for water and \$142,016 for wastewater. As such, we find an accumulated depreciation balance of \$773,892 for water and \$671,188 for wastewater, as of September 22, 2025.

D. Contributions-in-Aid-of-Construction (CIAC) and Accumulated Amortization of CIAC

In Order No. PSC-15-00029-PAA-WS, the CIAC balances for water and wastewater were fully amortized at \$225,670 and \$230,187, respectively. We determined that there have been no additions to CIAC. As such, we find a CIAC and accumulated amortization of CIAC balance of \$225,670 for water and \$230,187 for wastewater.

E. Net Book Value

The Utility reflected an NBV of \$394,814 for water and \$322,031 for wastewater, as of September 22, 2025. Based on the adjustments above, we find an NBV for the Utility of \$890,239 for water and \$277,327 for wastewater, as of September 22, 2025.

F. Conclusion

Based on the above, we find that, for transfer purposes, the NBV of the Utility's water system is \$890,239, and the NBV of the wastewater system is \$277,327, as of September 22, 2025. Within 90 days of the date of the final order, the Buyer shall be required to notify us in writing that it has adjusted its books in accordance with the our decision. The adjustments shall be reflected in the Utility's 2026 Annual Report when filed. The Buyer is not requesting a positive acquisition adjustment as part of this transfer docket, but may petition for a for a positive acquisition adjustment within the three years established in Rule 25-30.0371, F.A.C.

III. Revisions to Miscellaneous Service Charges

The Utility did not request to revise its existing miscellaneous service charges. Section 367.091, F.S., authorizes the us to establish, increase, or change a rate or charge other than monthly rates or service availability charges. The Utility's miscellaneous service charges consist of initial connection and normal reconnection charges. Rule 25-30.460, F.A.C., does not allow for initial connection and normal reconnection charges. The definitions for initial connection charges and normal reconnection charges were subsumed in the definition of the premises visit charge. Therefore, we find that the initial connection and normal reconnection charges be removed and the definition for the premises visit charge be updated to comply with Rule 25-30.460, F.A.C. Since the dollar amount did not change, the Utility does not need to send a notice to the customers. The existing charges for water and wastewater needing to be revised are shown below in Table 1.

Table 1
Existing Utility Charges

	<u>Water Existing</u>		<u>Wastewater Existing</u>	
	<u>Normal Hours</u>	<u>After Hours</u>	<u>Normal Hours</u>	<u>After Hours</u>
Initial Connection Charge	\$22.00	N/A	\$22.00	N/A
Normal Reconnection Charge	\$22.00	\$44.00	\$22.00	\$44.00
Premises Visit Charge	\$22.00	\$44.00	\$22.00	\$44.00

Table 2
Commission Approved Charges

	<u>Water</u>		<u>Wastewater</u>	
	<u>Normal Hours</u>	<u>After Hours</u>	<u>Normal Hours</u>	<u>After Hours</u>
Initial Connection Charge	N/A	N/A	N/A	N/A
Normal Reconnection Charge	N/A	N/A	N/A	N/A
Premises Visit Charge	\$22.00	\$44.00	\$22.00	\$44.00

Based on the above, we find the miscellaneous service charges be revised to conform with Rule 25-30.460, F.A.C. The tariff shall be revised to reflect the removal of initial connection and normal reconnection charges. UIP shall be required to file a proposed customer notice to reflect the our approved charges. The approved charges shall be effective on or after the stamped approval date on the tariff sheet pursuant to Rule 25-30.475(1), F.A.C. UIP shall be required to charge the approved miscellaneous services charges until authorized to change them by the us in a subsequent proceeding.

IV. Initial Customer Deposits

The Utility currently charges initial customer deposits of \$100 for the 5/8 inch x 3/4 inch meter size, and a specific dollar amount for all other residential and general services meter sizes, which are not equal to two times an average monthly bill. Rule 25-30.311, F.A.C., contains criteria for collecting, administering, and refunding customer deposits. Rule 25-30.311(1), F.A.C., requires that each company's tariff shall contain its specific criteria for determining the amount of initial deposits.

Rule 25-30.311(7), F.A.C., authorizes utilities to collect new or additional deposits from existing customers not to exceed an amount equal to the average actual charge for water and/or wastewater service for two billing periods for the 12-month period immediately prior to the date of notice. The two billing periods reflect the lag time between the customer's usage and the Utility's collection of the revenues associated with that usage. Our practice has been to set initial customer deposits equal to two months bills based on the average consumption for a 12-month period for each class of customers. The Utility provided average consumption of 5,180 gallons

for residential water. Based on average residential usage, we determined the average residential monthly bill is approximately \$75 for water service and \$114 for wastewater service.

Based on the above, the appropriate initial customer deposits are \$150 for the residential 5/8 inch x 3/4 inch meter size for water and \$228 for wastewater. The initial customer deposit for all other residential meter sizes and all general service meter sizes for water and wastewater shall be two times the average estimated bill. The approved initial customer deposits shall be effective for service rendered on or after the stamped approval date on the tariff pursuant to Rule 25-30.475, F.A.C. UIP shall be required to collect the approved deposits until authorized to change them by the us in a subsequent proceeding.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that the transfer of the water and wastewater systems and Certificate Nos. 354-W and 310-S of Useppa Island Utilities Company, Inc. to UIP Utilities Company, LLC is in the public interest and shall be approved effective the date of our vote, June 2, 2026. The resultant Order shall serve as the Buyer's certificate and shall be retained by the Buyer. With the exception of miscellaneous service charges and the initial customer deposit, the Utility's existing rates and charges shall be continued. The Seller is current, with respect to annual reports and RAFs, through December 31, 2025. Based on the application, the Seller will be responsible for RAFs and annual reports until we approve the application for transfer. The Buyer will be responsible for filing annual reports and paying RAFs for all future years. It is further

ORDERD that The NBV of the water and wastewater system for transfer purposes is \$890,239 for water and \$277,327 for wastewater as of September 22, 2025. Within 90 days of the date of the Final Order, UIP shall notify us in writing that it has adjusted its books in accordance with our decision. The adjustments shall be reflected in the Utility's 2026 Annual Report when filed. The Buyer is not requesting a positive acquisition adjustment as part of this transfer docket, but may petition for a for a positive acquisition adjustment within the three years established in Rule 25-30.0371, F.A.C. It is further

ORDERED that the appropriate revisions to miscellaneous service charges shown on Table 2 are approved. The tariff shall be revised to reflect the removal of initial connection and normal reconnection charges. UIP shall be required to file a proposed customer notice to reflect the charges approved herein. The approved charges shall be effective on or after the stamped approval date on the tariff sheet pursuant to Rule 25-30.475(1), F.A.C. UIP shall be required to charge the approved miscellaneous services charges until we authorize a change in a subsequent proceeding. It is further

ORDERED that the appropriate initial customer deposits are \$150 for the residential 5/8 inch x 3/4 inch meter size for water, and \$228 for wastewater. The initial customer deposits for all other residential meter sizes and all general service meter sizes for water and wastewater shall be two times the average estimated bill. The approved initial customer deposits shall be effective for service rendered on or after the stamped approval date on the tariff pursuant to Rule 25-30.475,

F.A.C. UIP shall be required to collect the approved deposits until we authorize a change in a subsequent proceeding. It is further

ORDERED that the provisions of this Order, issued as proposed agency action, shall become final and effective upon the issuance of a Consummating Order unless an appropriate petition, in the form provided by Rule 28-106.201, Florida Administrative Code, is received by the Commission Clerk, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, by the close of business on the date set forth in the "Notice of Further Proceedings" attached hereto. It is further

ORDERED that the docket shall be closed administratively upon Commission staff's verification that the revised tariff sheets have been filed, that proof has been provided that appropriate noticing has been done pursuant to Rule 25-30.475, F.A.C., the Buyer has notified us in writing that it has adjusted its books in accordance with our decision, and that the Buyer has submitted a copy of its application for permit transfer to the DEP.

By ORDER of the Florida Public Service Commission this 23rd day of June, 2026.

ADAM TEITZMAN
Commission Clerk
Florida Public Service Commission

NOTICE OF FURTHER PROCEEDINGS OR JUDICIAL REVIEW

The Florida Public Service Commission is required by Section 120.569(1), Florida Statutes, to notify parties of any administrative hearing or judicial review of Commission orders that is available under Sections 120.57 or 120.68, Florida Statutes, as well as the procedures and time limits that apply. This notice should not be construed to mean all requests for an administrative hearing or judicial review will be granted or result in the relief sought.

As identified in the body of this order, our action herein, except for approving the application for transfer and continuing existing rates and charges, is preliminary in nature. Any person whose substantial interests are affected by the action proposed by this order may file a petition for a formal proceeding, in the form provided by Rule 28-106.201, Florida Administrative Code. This petition must be received by the Office of Commission Clerk, at 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, by the close of business on July 14, 2026. If such a petition is filed, mediation may be available on a case-by-case basis. If mediation is conducted, it does not affect a substantially interested person's right to a hearing. In the absence of such a petition, this order shall become effective and final upon the issuance of a Consummating Order.

Any objection or protest filed in this docket before the issuance date of this order is considered abandoned unless it satisfies the foregoing conditions and is renewed within the specified protest period.

Any party adversely affected by the Commission's final action in this matter may request: (1) reconsideration of the decision by filing a motion for reconsideration with the Office of Commission Clerk, within fifteen (15) days of the issuance of this order in the form prescribed by Rule 25-22.060, Florida Administrative Code; or (2) judicial review by the Florida Supreme Court in the case of an electric, gas or telephone utility or the First District Court of Appeal in the case of a water or wastewater utility by filing a notice of appeal with the Office of Commission Clerk and filing a copy of the notice of appeal and the filing fee with the appropriate court. This filing must be completed within thirty (30) days after the issuance of this order, pursuant to Rule 9.110, Florida Rules of Appellate Procedure. The notice of appeal must be in the form specified in Rule 9.900(a), Florida Rules of Appellate Procedure.
