Comment: I understand that during the previous year, there was some much needed work done to the existing water/sewer facilities. However, it is not clear whether the stated loss for 2025 was created by these updates adding to the overall cost of operating the system.

Using data from my own water/sewer bills from the beginning of 2026 and the estimate of increase form, my bills should increase by approximately 60% , (approximately \$25 per month). So, roughly an additional \$300 per year, multiplied by 450 sites on the MH side = \$135,000 additional funds each year! And, that is from one side of the park!
