In re: Petition for a limited proceeding to
approve large load tariff, by Duke
Energy Florida, LLC

DOCKET NO. 20260064-EI

NOTICE OF FILING AMENDED PRE-FILED TESTIMONY

In order to simplify the evidentiary disputes in this case given Duke Energy Florida, LLC's ("Duke's") objections to Florida Rising, Inc.'s ("Florida Rising's") methodology for estimating the number of Florida Rising members in Duke's testimony, Florida Rising hereby amends and clarifies the pre-filed testimony of Katina Rentas Negrón to withdraw its methodology¹ and estimate for total number of Florida Rising members in Duke's territory. The amended testimony, in both legislative and clean format, is attached.

RESPECTFULLY SUBMITTED this 7th day of July, 2026.

In re: Petition by Duke Energy Florida,
LLC, for a limited proceeding to approve
large load tariff

DOCKET NO. 20260064-EI

DATED: July 7, 2026

**AMENDED REDLINE DIRECT TESTIMONY OF
KATINA RENTAS NEGRÓN**

**ON BEHALF OF
FLORIDA RISING**

July 7, 2026

1 **Q: Please state your name and business address.**

2 **A:** My name is Katina Rentas Negrón. I’m based in Central Florida, but my business

3 address is 10800 Biscayne Blvd, Suite 900, Miami, FL 33161.

4 **Q: What is your current position?**

5 **A:** I am a Climate Justice Campaigner at Florida Rising.

6 **Q: What are your duties as a Climate Justice Campaigner?**

7 **A:** Driving the implementation of an intersectional climate justice campaign,

8 building power through coalition-building, policy advocacy, education, training,

9 and direct action.

10 **Q: Please summarize your qualifications and work experience.**

11 **A:** I have more than four years of experience in the climate justice movement. Since

12 July 2023, I have served as a Climate Justice Campaigner with Florida Rising,

13 where I advance campaigns focused on environmental and climate justice. Prior

14 to this role, I worked as an Organizer with Florida Rising from February 2022 to

15 July 2023, supporting community engagement, grassroots organizing, and

16 advocacy efforts across Florida. During my undergraduate studies at University

17 of Central Florida, I conducted disaster resilience research focused on

18 community preparedness, response, recovery, and adaptation to climate-related

19 impacts.

20 **Q: Have you ever testified before the Florida Public Service Commission**

21 **before?**

22 **A:** No, I have not.

23 **Q: On whose behalf are you testifying in this proceeding?**

24 **A:** I am testifying on behalf of Florida Rising.

25

1 **Q: What is Florida Rising?**

2 **A:** Florida Rising is a membership-based organization powered by people and
3 driven to advance economic and racial justice across Florida. We build
4 independent political power that centers historically marginalized communities
5 so everyday Floridians can shape the future. As an organization, we engaged in
6 the 2019 FEECA Hearings, intervened in the 2021 and 2025 FPL Rate Cases,
7 commented on the energy-efficiency rulemaking proceeding, (Docket No.
8 20200181), including in the Rule hearing, commented in some of the fuel
9 dockets and storm recovery dockets, commented in the parent debt adjustment
10 and asset optimization dockets, intervened in the most recent Tampa Electric
11 Company Rate Case and FEECA case, and, regarding Duke Energy Florida, have
12 intervened in their most recent rate case in 2024, and in their most recent FEECA
13 case, also in 2024.

14 **Q: Does Florida Rising have members in Duke Energy Florida (“DEF”)’s**
15 **service territory?**

16 **A:** Yes. ~~Florida Rising estimates that 190 of its members are current DEF customers.~~
17 ~~This estimate is based on taking the number of Florida Rising members in each~~
18 ~~Florida county and applying the pro rata share of customers in the county that~~
19 ~~DEF serves, rounded down.~~ In Pinellas County alone, ~~which is almost entirely~~
20 ~~served by DEF,~~ Florida Rising has 65 members served by DEF. Additionally,
21 through my climate justice work in the organization, I am in regular contact with
22 our members throughout the state. Through these conversations, ~~I estimate that~~
23 ~~15 Florida Rising members have directly identified themselves as DEF customers~~
24 ~~residing in the Central Florida region, and Pinellas County~~ I know that many of
25 our other members outside of Pinellas County are also served by DEF. Three

1 Florida Rising members who are DEF customers have volunteered to have their
2 membership made public, and they are:

- 3 • Amber Woods, 1024 Jordan Park Street South, St. Petersburg, FL 33712
- 4 • Sandra Harris, 2432 Kingston St. S., St Petersburg, FL 33711
- 5 • Torrancia Nelson, 4546 10th Avenue South, St. Petersburg, FL 33711

6 **Q: Why is Florida Rising concerned about data centers?**

7 **A:** As I stated above, Florida Rising, as an organization, is made up of members
8 dedicated to empowering marginalized communities to advance racial and
9 economic justice across Florida. Our climate justice work focuses on ensuring a
10 future where the frontline, and most impacted communities are at the center of
11 energy policy, disaster response, and all climate change initiatives. For example,
12 a significant portion of Florida Rising’s work focuses on ensuring access to clean
13 air through zero waste initiatives to avoid municipal waste incineration and
14 advocating for a cleaner power grid. DEF’s proposal for its potential large load
15 customers, most significantly data centers, threatens a crisis of environmental
16 justice by posing a risk of encouraging data center presence in DEF’s service
17 territory. These data facilities bring a host of environmental and health damages
18 that disproportionately impact low-income and Black and Brown communities
19 due to the chosen sites for their construction in rural, marginalized communities.¹
20 Data centers emit pollutants that have been linked to severe respiratory
21 infections, deplete local water reserves amidst already record-breaking droughts,

¹ See Echo D. Cartwright, *The Environmental Justice Impacts of Data Centers*, 42 Climate & Energy 15, 16–17 (2026); Molly Elise Bush, *Construction and Consequences: The Human Impacts of Artificial Intelligence Data Centers*, UAB Inst. for Human Rights Blog (Oct. 2, 2025), <https://sites.uab.edu/humanrights/2025/10/02/construction-and-consequences-the-human-impacts-of-artificial-intelligence-data-centers/>.

1 and further the disastrous effects of climate change, such as extreme heat and
2 natural disasters.²

3 Furthermore, our mission of promoting economic justice intersects with
4 our energy policy goals where DEF residential customers, including Florida
5 Rising’s members, are already burdened with some of the highest electricity bills
6 in the nation. Florida Rising members, alongside much of the state, are in an
7 active affordability crisis due in part to these rising bills. DEF’s proposal, if
8 approved by this Commission, presents a threat of even higher energy bills
9 through forcing the subsidization of large load customer costs by primarily
10 residential customers. This impact, too, will disproportionately affect
11 marginalized households; a 2025 report found that Black, Latino, and indigenous
12 energy consumers face higher energy burdens than the average white household.³
13 Florida Rising and its members therefore stand to face potential increased
14 financial burdens and negative environmental impacts from the outcome of this
15 decision. I’ve attached Florida Rising’s articles of incorporation as exhibit KRN-
16 -1.
