Subject: Florida City Gas Docket 20260026

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I am writing in opposition to the above referenced rate increase request on Docket **20260026**. **The increase requested represents a relative increase of 108% on current rates for RS1 residential customers, which is egregious, considering that the price of natural gas does not support such an increase. The utility is obviously pushing off the costs of expansion and inefficiency of distribution on to the consumer and its relatively small base.**

Respectfully submitted,
