Address: 252 Birch Dr, Sebring, Highlands, FL 33875

Submit Date: Thursday, July 09, 2026 05:41 PM

Comment: Comment: 1. Sun Communities Acquisitions, LLC (d/b/a Buttonwood Bay Utilities) has applied for a substantial rate increase for both water and wastewater services to the residents of Button wood Bay Resort (Sun Outdoors). After trying to understand the material in the Staff Report Docket No 202501122-WS, it appears (to this layman) that the proposed rate increase would result in a 119 % increase for water usage under 5000 gallons per month and 41% for wastewater. This is an exorbitant increase for the residents of Buttonwood Bay, most of which are retired and on fixed incomes. A more phased increase over a number of years (5-10) would be much more fair and doable for the residents. 2. Over the years there have been numerous problems with the water system such as bad taste, bad smell, a lot of particulates in the water itself, and discoloration of the water. When there is a problem, boil notices from the office have been "hit and miss" for the most part. There have also been a number of water pressure issues each year. I have had to put in a whole house filter system for the water and also put a refrigerator with a filter system. We thus run drinking water and ice through the refrigerator or use bottled drinking water. Tap water is used for showers, laundry, and dishes. 3. When we lived on Tapon St, (2013) we used to receive a water quality reports every year in the mail. Since we moved to Birch Dr. (2020) receipt of the water quality reports have been sporadic also. 4. We understand that Sun has made substantial improvements to the system and also in the maintenance of the systems. Our rent has gone up 4-5% every year we have been in the Park. It would seem some of the cost for improvements in the water and wastewater systems should have been absorbed in these lot rent increases also.
