Comment: I wish to comment on the proposed Price increase, subject of the docket. We have been paying for improvements to the water quality but still require to purchase drinking and cooking water at the home on 269 Swan Dr because the water in the taps smells and does not taste well. we also live off a fixed income and struggle with living costs due to the inflation that has caught us by surprise lately. I understand that costs go up, but the amount that you are proposing is unreasonably high and I ask that you reconsider given our economic times and the actual poor quality of the service being provided.

thanks for your attention.
