Listed below are our concerns with raising the water rates

Quality and the inconsistency of the water pressure and not having water does not warrant the price increase

The water does not taste good, we purchase bottled water at the store for drinking, that price is going up.

Sun Community/ Buttonwood Bay have raised the lot rent, that should be sufficient to cover the deficit of the water

There are many single income people in the park, with lot rent going up and possibly the water going up, this leaves them no choice but to sell.

At this time there are 40+ homes for sale, housing market is down yet Sun/Buttonwood Bay continue to raise lot rent.

Below is what Sun Communities is worth, I think they afford to cover the deficit of the water
